Surprise No. 2-Second child came ords and inquiry among marine officers.

Death Battle for Young. Maryville, Cal.-Finding of the bodies of a huge eagle and a mountain ram on Table mountain in Butter county revealed a desperate battle to the death between the great bird and the mountain goat, in which each was actuated by love for their young. The eagle, according to mountaineers, three days ago seized a small kid from the ram's herd to feed her small eaglets in their nest high on top of the more," said the missus, and the family mountain. Returning on a similar

"How come?" asked Meyer.

the recent incident in Camaguey, when the marines kicked up some excitement in the Cuban town after Leroy Foster, an American engineer and former navy officer, had been attacked and beaten by Cubans.

The hunt was started as the result of

"What are the marines doing in Camaguey?" Mr. Roosevelt asked himself after looking at the map of Cuba, and was asked by others equally curious. Nobody seemed to know. Maj. Gen. Lejeune, commandant of the corps, said they were there all right, but could vouchsafe no additional information. The navy list showed marine officers regularly assigned to the Camaguey post, but the warrant for such duty seemed to be lacking.

Finally ancient papers were found which showed that, back in 1917. shortly after Cuba entered the war on the heels of the United States, the Cuban government had requested the State department to permit the stationing of American marines at Camaguey to guard sugar properties there against pro-German plots.

## WILD ANTELOPE KILLED OFF

### Reduction of Saskatchewan Herd From 300 to 150 in Year Arouses Indignation Against Hunters.

Swift Current, Sask. - Indignation has been aroused among those interested in the conservation of wild animals over the slaughter by hunters of at least half the antelope in a large herd that makes its home in the open country northwest of this town.

The herd lived unmolested for years and at its maximum numbered 300 animals. Hunters began to make clandestine raids on the herd last fall and kept up their depredations during the winter. At the opening of spring not more than 150 antelope were left.

Prong horned antelope, once rivals of the bison in number on the plains of North America, have been almost exterminated. This is one of the few wild herds remaining on the continent. When the Hudson's Bay company was the sovereign power on the prairies the land which is now rapidly selling to farm settlers swarmed with antelope.

rock and disconsolate rivulets. The scent of fish and moss filled the air. In pools were some unwary crea tures of the water who had not fled in time, and anglers hastened for their kits. Most of the fish in the rapids had taken refuge in the lower river

as the water receded.

some joy, for fishermen believe the remaining pools, some of them several feet deep, will attract the rainbow and

speckled trout, and that these will be more easily snared.

Dams above the rapids were con structed to regulate the depth of Lake Superior and to obtain a steady drift of water in the locks.

#### AUTO SPARROW'S NEST IN

Farmer Discovers That He Has Been Carrying It and Eggs Around.

Rushville, Ind.-Rex Innis, a farmer living west of Rushville, has just discovered that he is carrying a sparrow's nest with four eggs in it around in his automobile.

A few days ago, when he filled the gasoline tank under the front seat, he found the nest neatly tucked in the corner and securely fastened between the end of the tank and the seat. The mother sparrow had evidently gained access to the unusual place by flying up under the seat.

Innis says that he parks his machine in the same place every night and he presumes that the sparrow sits on the eggs every night while the machine is not in use. The nest has withstood the test of all kinds of roads, deep to dislodge it.

### Mother Says Her Lot Justifies Profanity

Arraigned on a charge of profanity, Mrs. Agnes White of Columbus, O., thirty-seven years old, and the mother of 14 children, said:

"Judge, anybody that had to live as hard a life as I do, would cuss."

Mrs. White testified that she was forced to take in washing and other work to support herself and her children. The judge dismissed her, after telling her to go and curse no more.

FLASH BURIAL RITES TO SHIP

#### Vessel Minus Prayer Book When Fireman Dies Gets Full Ritual by Wireless.

Liverpool.-During a recent voyage of a liner from America, a request was received in the ship's wireless room from another vessel asking for the

transmission to it by wireless of the words of the burial service. The reason for this unusual request was that a fireman on board the Cana-

dian government steamer Canadian cost Germany 50,000,000 marks (\$12,- Trapper had been taken ill on the voy-20 to 25. In New Jersey reedbirds 500,000). The cost of dismantling, age and had died, and the captain diswhich Germany also must bear in ac- covered that there was no copy of the
