Center of Human Hair Industry. Antwerp, Belgium, is the center of the human hair industry. Raw hair and Chinese hair, which has been bleached, dyed and prepared, is used in the manufacture of women's hair nets.

Kindness and Light.
Give us to awake with smiles, give us to labor smiling. As the sun lightens the world, so let our loving kindness make bright this house of our habitation.—Robert Louis Stevenson.

Concise Not of Real Value.
Conceit may puff a man up for a moment, but never for a long time. It is a mighty poor substitute for that real knowledge of self which values at actual worth. The world has use for only the genuine article.

Essentials for Happiness.
The grand essentials of happiness are: Something to do, something to love and something to hope for.

When Your Hacksaw Breaks.
If the blade in the hacksaw breaks two or three inches from the frame, it can still be utilized. Hold the blade in the frame of a blow torch, or otherwise heat it, and while still warm drill a hole through it; this can be done with a hand mill. The blade can then be replaced in the adjustable saw frame, and it will be ready for use.

Candid Information.
Doc (after exam.)—"Don't worry about your liver trouble, you can live to be seventy years with it. And as to the leaking heart valve, you can carry that around easily until you're eighty, but the kidney disease, that's worse. It'll surely bring you to the grave inside of a year."

Hickory in Great Demand.
The weight of a piece of hickory is the best indication of its strength. It is said that 100,000,000 board feet a year are consumed in the making of tool handles, including golf tools.
