HOME BREVITIES

Mrs. B. A. Shepherd and Tom Shepherd motored to Richland, via Goodman, Sunday after Miss Santa Tackett, who was there on a brief visit.

The Swinney Fincher Company received a solid carload of empty bottles Monday for use in their bottling department.

J. M. Diggs, of Acona, was a Lexington visitor Monday.

A. M. Schulz made a trip to Jackson Sunday.

Mr. and Mrs. DeWitt Buck and W. B. Peacock motored down from Acona Monday.

Hon. W. L. Dyer, with J. T. Fincher at the wheel, made a motor trip to points in Yazoo county Friday.

County Farm Demonstration Agent D. D. Gibson was over at Yazoo City the fore part of the week, assisting W. R. Ritch, the county agent there, in making a large shipment of hogs.

T. W. Evans and M. J. Evans, of Chiniquapin Flats, mingled with friends in the city Monday.

F. Attneave, Jr., of Black Hawk, was noted among the Sunday visitors to the city.

Miss Alma Wigley was taken to the Community Hospital Saturday and on Sunday was operated upon by Dr. R. M. Stephenson for appendicitis, and is doing nicely.

Miss Mamie McNeer, the efficient teacher of the Forest Grove school, spent Sunday at the parental home, at Marksville. She was accompanied by her school Monday morning by her father, J. W. McNeer.

John Meek, of Black Hawk, transacted business here Monday.

POULTRY CORNER

The following are methods recommended by the Department of Agriculture:
Water Glass Method—For 30 dozen eggs—use two five-gallon crocks (capacity, 15 dozen eggs each). Take 18 quarts of water that has been boiled and cooled. Mix with it two quarts of sodium silicate. Place eggs as collected, fresh and clean, in crocks, keeping covered to a depth of at least two inches with water glass solution. Keep in a cool, dry place. Eggs preserved in this way remain perfectly wholesome, maintain full food value and are perfectly edible for from six to nine months.

Lime Water Method—Place three pounds of unslaked lime in five gallons of water and let it stand until the lime settles and the liquid is clear. Use the same as water glass.

This method is recommended when water glass cannot be obtained; it is good, though not quite as reliable as the other.

There are nine essential features for profitable poultry keeping. Of these, thus far we have discussed keeping better poultry, selecting vigorous breeders, hatch the chicks early.

Our breeders have been selected and the hatching season is over and closed, except for a few late fryers.

We come now to preserve eggs for home use. Every home should be supplied with eggs in water glass. Properly handled, they will be as good as storage eggs, a year after having been put up. The expense is small. Eggs are much cheaper now than they were in January of this year, but are higher than a year ago. All indications are that they will be higher next winter than last. So it behooves us to provide for our own use now and sell high priced eggs next winter.

Miss Fisackerly, phone 114, will be glad to assist any one in putting up eggs. Having hatched our eggs and counted our chicks, we must exert all care to keep them growing. Too much attention cannot be given to details.

Keep free of lice, mites and chiggers. As May is the worst month for these, the older chicks have a better start.

Nothing is better than buttermilk added to the regular feed.

Avoid heavy dew by keeping the old hen penned.

The club girls in Mississippi reported having cleared \$171,000 on poultry products last year. Let's make old Holmes add materially to this amount this year. Mississippi eggs now bring a higher price than those of some other states. Let old Holmes add to the quality of those now on the market, demanding a higher premium still. Mississippi poultry clubs rank second in the United States, Oklahoma having a law compelling every pupil to exhibit certain birds before completing a given grade in the public school.

Does any one here know the new law about inspecting every egg shipped out of Mississippi? P. D. A. does not, but is trying to find it.—P. D. A.

Prof. J. H. Fuqua, Prof. B. L. Tate and Prof. B. M. Seitzler attended a school concert at Harland's Creek Monday night.

D. Flanagan, of Greenwood, visited Lexington Saturday.

W. J. Pitchford, J. D. Robinson and W. G. Poindexter, of Yazoo City, were Lexington visitors Saturday.

WHY YOU SHOULD BUY A DE LAVAL CREAM SEPARATOR

- 1—It is better made.
- 2—It is quicker, and does its work better than any Separator made.
- 3—Wherever you go you will find prosperous people using De Laval's. Good people and good separators go together.

We will gladly demonstrate the Separator to you.

Swinney-Fincher Co.

(Incorporated)

Lexington, Miss.

Let Us Take a Hand In Your Spring Cleaning

We can, and we will, the moment you signal us by phone. Just look over your home and estimate what has to be done. Don't wait until warm weather, some things must be packed away now. First have your winter apparel dry cleaned as a protection against moths. Our system of dry cleaning is the world's best. Then send us your blankets, comforts, quilts, pillows, draperies, curtains, chair covers, lamp shades, pillow tops, and all the other little things that need a thorough and sanitary cleaning.

Goodman "Hi Y" Elects Officers

A meeting of the "Hi Y" organization of the Agricultural High school, of Goodman, Miss., was held last Thursday night and the following officers were elected for the coming session: President, Luther Browning; vice president, Larkin Browning; secretary, Lehman Walters; leader, Mrs. W. A. Williams; adviser, Mr. W. A. Williams; reporter, Claud Chun.

We have been very fortunate with our meeting during the past year and hope that we may increase the number of boys next year. It has helped the school so much and am sure it has been very helpful to the boys. It teaches them to stand for the right on everything. We sincerely hope that the next year's boys will take up this meeting and make it a great success, and we also hope that our leaders and officers will be present at the beginning of the next regular session.
CLAUD CHUN, Reporter.

Confederate Vets Regular Meeting

Holmes County Chapter No. 398 U. C. V. held a regular meeting May 5, 1919. The camp was called to order by Lt. L. S. Doty and prayer was offered by Baxter Wilson. The minutes of last meeting were read. The sick committee stated that no member was now sick. A receipt for \$8.00 dues to the state organization was read to the camp. The adjutant reported that Comrades T. W. Smith and A. J. Love had died since our last meeting, and the commander appointed Baxter Wilson, F. A. Howell and J. B. Cunningham a committee on memoirs, who made the following report which was adopted:

Commander and Comrades: Since we met last, death has claimed two of our members, T. W. Smith and A. J. Love. T. W. Smith was born Dec. 28, 1846, and died April 27, 1919. When only a boy he volunteered to defend his beloved Southland, and did his best until his company, A 38th Mississippi Mounted Infantry, was surrendered at Gainesville, Alabama, May 10th, 1865. He was married to Miss Sallie West Dec. 3, 1867. To them ten children were born, and four sons and two daughters survive.
