Producers Not Talking.

The meeting of the Executive Committee of the P. P. A. in Bradford is not causing much comment among the Pittsburg producers. One of them said yesterday that the present meeting is a result of the meeting held in Pittsburg a couple of weeks ago, and reported in THE DISPATCH at the time. The scheme they claim to be now considering, he continued, has been written up and discussed for the past year. They believe they are better organized than ever before, and that they can now hang together in a business undertaking.
