THE CONSTITUTION ... STATE RIGHTS

TO CORRESPONDENTS.

Mr. Mason has been twice elected to the Senate by the Democracy of this State, on the ground that it was necessary to vindicate the Fugitive Slave bill, of which he was the author. Mr. Eilmore signed that bill and made it a law. In the eyes of those who oppose it, he alone is responsible for it. Senator Wilson said, the he alone is responsible for it. Senator Wilson said, the he alone is responsible for it. Senator Wilson said, the he alone is responsible for it. Senator Wilson said, the bill and mass responsible for it. Senator Wilson said, the bill office under Mr. Fillmore during his whole term, (resigning when Pierce came in.) is an ardent advocate of Fillmore's re-election, and denounces as untrue the charge of Abolitionism so far as he is concerned.

Isaac Strolm, of Ohio, denies to me that he is, or has ever been, an Abolitionist, was appointed to office in the Treasury Department under Mr. Fillmore, was turned out under Pierce, because aspected of Americanism, and sailed most vehemently and villamously in the Northon this very ground, and the canvass there is to a considerable extent, one against the Fugitive Slave Law. And we ask, in the language of Mr. Mason's friends, whether the South would be doing justice to herself to allow him to be stricken down and overportant for the South to sustain and re-elect the aurequired of him no sacrifice. He well knew that his conduct in this matter would provoke no denunciation, no assault, no persecution from his own people and his own section; but he was all the while sustained and encouraged by the perfect consciousness that his course would be approved and endorsed by the entire South, without a single dissenting voice.

The committee reported a bill to arrest the proceedings of the City Council, and to authorize the patriotic and self-sacrificing Pat to continue the manufacture of stinks on a grander scale than ever. It is supposed, in order to carry out the reform, and vindicate the salubrity and pleasantness of putrid bodies, that the city authorities will be interdicted from removing from the streets dead dogs, or cats, or mules, or carrion of any description, under heavy pains and penalties.

Very likely—but why were they absent? Does amor speak true, in ascribing their absence to de sign-to shame and disgust of the whole proceeding That the dose was too strong for any but the strongest stomachs-and therefore the gentlemen of the party absquatulated? The Speaker, we observe was there-but he could not dodge. Mr. Preston was also present; but he is a new convert, and new converts are not privileged to make wry faces at any thing. Col. If he were aspiring to a Generalship h could not give better evidence of his heroism :and we warmly congratulate him on the probable success of his demonstration.

"lon," the Washington correspondent of the Bal timore Sun, thus alludes to the Presidential movements now on foot at Washington. It appears tha the spite of the Black Republicans is specially level ed at Mr. Fillmore. The chance, too, of a nomination at Cincinnati seems to be narrowed down to contest between Pierce, Buchanan, and Douglas. Neither Wise, nor Hunter, nor any other Southern man, is in the ring at all. We have all along been of the opinion that the Democracy would take Northern candidate as a matter of choice in the irst place, and, in the next, they would be compelled to take a Northern man from necessity. It is the only way to make Northern Democrats toe the mark-to give them the offices. But here is what

The republicane, it is rumored, of the two Houses, are about to take a step for the purpose of heading off Mr. Fillmore. A paper, it is said, is in circulation among such of the Northern opposition members as are opposed to Mr. Fillmore, recommending the call of a national convention to assemble in July next, for the purpose of nominating a President and Vice President. The call is, according to rumor, to be signed by more than a hundred members of the Senate and House, and it is further asserted that it is to leave Mr. Fillmore no support or countenance from any Fillmore no support or countenance from an

Notwithstanding the combined efforts of the Abolition ists and Democrats, the Northern people seem to be mor ing nobly in behalf of Fillmore and Donelson. Already en papers in the great State of Pennsylvania have hoisted their flag. And in the still greater State of New York, the signs are cheering and bright, and growing more so every day. The Northwest, too, is awaking, like a young giant refreshed by slumber. In a word, the good cause is progressing gloriously throughout the les er places where he spoke, we are not informed; but he and breadth of the country-in the North, South, East and West. AMERICAN DISPUTE. [From the Press, Disraele's paper.]

Self-respect is the safest prevention against quarrelling The man who is sure of his own position is the slowest t upect another of any design to question it; and hence the rt of avoiding altercations has generally been deemed one of the peculiar characteristics of a gentleman. When Mr indell contradicted Major Pendennison a point of fash onable gossip, how did the Major conduct himself?hid he endeavour to put down the impertinent blunderer Did he even indulge in a sneer? Nothing of the kind, Fow there present, we are told, could appreciate the me aucholy politeness with which the veteran man of the world at once accepted Mr. Bloundell's version of the accelote, which he perfectly well knew to be wrong, an admitted with realiness that his memory must have played him false. This is a stroke of true savire, in which by insimulating the worthlessness of the point in d we ridicule the littleness of those who first tho worth disputing. Never to seem afraid of being purworth usputing a street to argue a question merely people should think you can't argue it—never to fight ply for fear the lookers on should think you a cowa ply for fear the lookers on should think you a covard-these are some of the maxims on which all men of superio minds act, habitually and unconsciously; and it is this ha bit which gives to such men that air of repose and sell possession before which fools stand abashed and dandie are wild with envy.

Few men can have mingled, even in the slightest de-gree, in society without noticing that one prospects.
