SIXTY-FIFTH DAY.

THURSDAY, February 6.

SENATE.—President Marye in the chair, no prayer.

RAILROAD STATISTICS.

House joint resolution authorizing the board of public works to call upon the presidents of railroads in this state for statistical information was taken up, twice read, and referred to the committee on roads and internal navigations.

INTRODUCED AND REFERRED.

By Mr. Greene: Bill to authorize the common council of Petersburg to issue bonds of the city to the amount of forty thousand dollars for public school purposes.

By Mr. Koller: Bill to amend and re-enact an act amended in relation to notaries public.

By Mr. Lewis: Petition of citizens of Lancaster county, asking for the privilege of catching oysters with instruments, other than oyster tongs, in the waters of the Rappahannock river.

BILLS PASSED.

To enable the vestrymen of Lytleton parish, in the county of Cumberland, to sell certain church property and reinvest the proceeds; to amend and re-enact an act providing for the reassessment of lands in the commonwealth, passed February 1, 1873, so as to enable those counties in the state which failed to avail themselves of the provisions of said act, to do so.

COUPONS IN PAYMENT OF TAXES.
Mr. Connolly offered the following resolution:

Resolved, That the auditor of public accounts be and he is hereby instructed to order the sheriffs and other collecting officers of the state to receive all tax coupons in payment of taxes, debts and demands due the state, when tendered in accordance with the decision of the court of appeals.

And was advancing its adoption in a speech, the length of which was cut short, by Mr. Fitzpatrick calling the Senator to order, his point of order being that his remarks were not pertinent to the subject matter, as the Senator was proceeding to ventilate the action of a Senator while a member of the House of Delegates in the last General Assembly.

The President then called the roll taken, from which Mr. Connolly appealed, and the question being put, shall the decision of the chair be sustained, was determined in the affirmative—ayes 21, noes 6. On motion of Mr. Penn the resolution was tabled.

RAILROAD DEBTS OF COUNTIES, &c.

Senate bill to secure and provide for paying the railroad debts of counties, townships, cities and towns was taken up, on motion of Mr. Fitzpatrick, and amended. Pending an amendment the Senate, on motion of Mr. Patterson, adjourned.

LETTER FROM MR. COLFAX.—A Pittsburg special to the Cincinnati Commercial, says that Vice-President Colfax wrote, under date of January 27, to a friend in Pittsburg, as follows:

DEAR SIR:—I thank you for your kind and cordial letter of sympathy. Whatever may be testified, or who or how many may swear differently, I not only never saw the check for \$1,200 till last Friday, but till that time had never seen any check signed by Mr. Ames, nor have I ever received a dollar from him on any occasion whatever.

SCHUYLER COLFAX.

Immigration Prospect.—Address to the People of Virginia, by W. A. D. Elm.

Having taken considerable interest in the state of Virginia, and feeling great concern for her future welfare, I beg you will allow me a hearing and listen to what I have to say, as my opinions are earnest and sincere.

I have no pecuniary interest in the immigration business, neither do I intend to be a speculator, directly or indirectly, but I would talk freely and frankly with you—then you can act as you think proper.

To be candid with you our agricultural prospects are anything but flattering, and I make the statement that in less than five years the western states will beat you in arts, mechanical enterprise, agriculture and education, although Virginia is one of the most fertile and magnificent of the states of America. The scenery of Virginia is most beautiful; she is well adapted for trade and commerce, but she has done nothing yet to develop her natural resources. What is the reason of this apathy and negligence? We answer: It is selfishness on our side and cunning calculation of the landholders on the other. I have been a resident for fourteen years of the southern states, (the last two years in Virginia); have examined the climate, soils, minerals and production, as well as the character and present situation of the people, and I have come, I think, to tolerably correct conclusions. But when something beneficial is to be established for the state, you must be disinterested, honest and candid. You must prove yourselves the friends of the immigrant by your acts. You must not speculate upon him. He will appreciate your kindness, and when I recommend my countrymen to emigrate to this state, there shall be no prejudice on either side. I must admit that the mountains and valleys of Virginia are home-like, and any industrious man can make himself a home among them.

What splendid prospects are offered in this state to miners and mechanics and in industries men generally, and I am fully satisfied that in time your sons and daughters would be encouraged to follow the example of their neighbors.

But the farmer says: "We cannot make anything in farming." Very true; he cannot find the gold upon the surface of the ground. Why, many of them don't know how to work, or work intelligently; don't like to work at all, in fact; while another class repudiate their debts and then avail themselves of the "bankrupt law." Is this not demoralizing? Work is the means of health and life; this fact is illustrated by the Swiss, French and Germans, whom I intend to recommend to come to this state, and whom I hope you will appreciate from the western states.

There are amongst them some enterprising men of capital, acquainted with art and science, who want to know what kind of business offers the best inducement for the employment of capital and brains.

To such I propose to explain each locality of the state, its water power, railroads, navigation, &c., &c. And in order to furnish such information, I will send them specimens, as follows:

1. Of the best and most useful minerals in Virginia, with marls, green sands, gypsum, hydraulic limestone, marble, granite, calcareous tufa, &c.; also such minerals as are used for pigments, gold ores found in the state, with copper, iron, &c., &c.

2. Specimens of woods suitable for any and all purposes.

3. Some of the best grain, corn, wine, &c., &c.

4. The offers of farms for sale and mechanical apparatus, with a full description of lands, &c., locality and terms, &c.

5. Offers for employment for mechanics, farmers and gardeners, &c.

If you send me all such specimens and information I shall be enabled to show my countrymen what the prospects are if they make up their minds to emigrate, and I am sure, upon such recommendations, the state will be peopled in a few years. I solicit practical and correct information and will pay special attention to those who exhibit any interest in my plans, for they will be worked out on a good foundation.

I request the PRESS THROUGHOUT THE STATE to make the people acquainted with this proposition, to recommend them to send me all information as soon as possible in order to be ready for another step. All specimens should be sent FREE by EXPRESS. The name of the sender will be put upon the sample for recommendation and then transmitted to Europe.

All communications will be promptly registered and answered as soon as possible.

Address N. A. D. ELMAR, Richmond, Va.

—There are sixteen cases of small-pox in the Petersburg hospital.

—A Missouri German undertook to fast forty days in the wilderness, but died on the twenty-seventh.

—The internal revenue collected on tobacco in the second district of Virginia for the month ending January 1st, 1873, amounted to \$31,333.31.

—The chief of police of Baltimore arrested George O. Savage in San Francisco, Sunday night, on a warrant charging him with embezzling \$4,000 of funds of the Singer sewing machine company. The officer will start east to-morrow.

—The signal office reports that a gorge of ice existed at eleven p. m. last night below the North Missouri railroad bridge, at St. Charles, Missouri. Also that it was snowing at the time at Breckinridge, Minnesota; Covington, Utah; Rochester, New York, and Santa Fe, New Mexico.

—An Irishman being about to join a company Lawrenceburg, Ind., forming to go south during our late war, was questioned by one of the officers, "Well, sir, when you get into battle will you fight or run?" "An' faith," replied the Hibernian, "I'll be after doin' 'as a majority uv ye does."

—It was Daniel who said, "Many shall run to and fro, and knowledge shall be increased." He clearly referred to reporters in this remark, and this suggests the idea that Daniel was in that line himself; it is certain, at all events, that he was allowed to pass in free to see the lions.

—A colored man named George Stephens died lately in Troy, N. Y., leaving property to the amount of about \$10,000, which he devised, by will, to his wife and children, who, if living, are supposed to be in Virginia. He left the state in pursuit of freedom about twenty-five years ago. Hon. John B. Pierson was appointed executor of the will.

LOCAL MATTERS.

AUCTION SALES.

E. M. GARNETT, as assignee of Waggoner & Harvey, will sell, parties, parties in front of United States Custom house, the uncollected accounts, bonds, notes, &c., of this said firm.TUESDAY, 12TH.
W. H. ALLDERIDGE, as assignee of D. C. Mayo, will sell this day, on the premises, at 12 p. m. the valuable tobacco factory, corner Main and Twenty-fifth streets, together with the machinery, fixtures, and office furniture.WEDNESDAY, 13TH.
R. D. WARD, as assignee of A. W. Trabee, will sell, at 12 m., this day, in front of United States Custom house, valuable farm and personal property in Chesterfield county. Also, house and lot in this city.

A SPLENDID ENTERTAINMENT.—Mrs. Rush Burgess gave a most hospitable and generous entertainment last evening to her numerous circle of friends in and about Richmond, who gathered in large numbers at her fine suburban residence, about two miles from the city, where something over a hundred and twenty guests, pretty equally divided as to sex, were most handsomely entertained into the wee bit hours.

We have rarely witnessed a more agreeable and thoroughly enjoyable reception, repast and entertainment than was there given; and, certainly, a bounteous hospitality was never more happily dispensed. The company was select and brilliant, comprising many of our most prominent and fashionable people. We wish that our social circles were more frequently enlivened by brilliant parties, marking the agreeable and eminently sociable qualities that characterized the entertainment of last evening.

ACTION OF THE MERCHANTS OF RICHMOND.—The introduction of a bill in the House of Delegates, a few days ago, of a bill entitled "an act to protect farmers and others from embezzlement by commission merchants and others" has excited the merchants of the city to a vigorous protest against its provisions. The members of the tobacco exchange and the corn and flour exchange have held meetings for the purpose of putting their protest in shape and laying it before the General Assembly. A joint committee of the two exchanges was appointed to take into consideration the objectionable measure, and report to their respective bodies what action, if any, in regard to it is necessary on the part of the merchants of Richmond. The committee made their report this morning, and in substance thereof the proposal, bill was denounced as unjust and unfair, and stated to induce the General Assembly to reject it, or so amend it as to secure commission merchants against losses by the failure of farmers and others to liquidate advances on consignments.

IMPORTANT ARRANGEMENT.—Mr. John W. Rison, who has for more than a year past conducted the Southern Planter and Farmer with such vigor and ability as to render it one of the most valuable agricultural publications in the south, has become the owner of the Hermitage nurseries, located near this city, and will hereafter conduct them on an extensive scale in connection with his private monthly. Mr. Rison exchanged the property on the corner of Main and Third streets, known as St. Alban's Hall, for the nurseries property. We deem this an important arrangement, as the facilities at the command of the new owner of the nurseries will enable him to extend the culture of fruit in Virginia, and not least to reflect that perhaps the entire present supply of green apples in the Richmond market is of foreign growth, our own State, which is capable of such wide and extensive production, not producing sufficient fruit for home consumption. We wish Mr. Rison all possible success in his new enterprise.

CITY ALMS-HOUSE SUPPLIES.—The committee for relief of the poor, Mr. A. D. Chesterman, chairman, have awarded contracts for furnishing the city alms-house for the quarter ending April 31, 1873, to the following parties:

Beef, \$7.35 per hundred, J. W. Brauer; pork, 84 cents per pound, Wm. Jenkins; bacon, 9 cents per pound, Wm. Jenkins; lard, 90 cents per barrel, Henry Newman; meal, 85 cents per bushel, Henry Newman; coffee, 22 cents per pound, Wm. Jenkins; sugar, (A), 124 cents per pound, Wm. Jenkins; vinegar, 25 cents per gallon, Wm. Jenkins; salt, 82.70 per sack, Wm. Jenkins; molasses, 26 cents per gallon, Wm. Jenkins; potatoes, \$1.30 per bushel, Wm. Jenkins; herrings, 40 cents per barrel, Wm. Jenkins; rice, 9 cents per pound, Wm. Jenkins.

DER FREISCHÜTZ.—The German singing society of Richmond deserve much praise for the determination and energy with which they furnish agreeable entertainments for the public. Von Weber's opera of Der Freischütz will be rendered by them Wednesday and Thursday evenings next. No pains or expense have been spared to place the piece upon the stage with all the desirable effects, and a distinguished New York prima donna, engaged to take the leading part, Agatha. The sale of reserved seats for these entertainments will begin at West, Johnson & Co's Saturday morning at 7 o'clock.

PERSONAL.—General J. D. Imboden has arrived in England and found Major Jack Hotel and a party were preparing to return about last February.

Colonel Strother C. Davis, the efficient and obliging clerk of the Senate, who has been absent for several days, was at his post this morning. We are pleased to say that the arduous duties of the position were faithfully performed during his absence by Dr. J. D. Pendleton, assistant clerk.

THE BIORAMA ENTERTAINMENT.—Professor G. R. Harding will give a biographic exhibition at Virginia Hall to-night, for the benefit of the St. Patrick Sunday-school. Those who have heretofore witnessed these exhibitions speak of them as highly interesting and entertaining. He should have a large audience to-night. Exhibitions will also be given Friday and Saturday nights.

THE COUPON QUESTION IN THE SENATE.—A resolution, introduced in the Senate by Mr. Connolly, instructing the auditor of public accounts to order sheriffs to receive coupons in payment of taxes, debts and demands due to the state, when tendered in accordance with the decision of the supreme court of appeals, was laid upon the table to-day.

ARRIVALS DURING JANUARY.—The following vessels arrived at this port during the month of January: Sidewheel steamers, 24; tonnage, 28,829; men, 709. Propellers, 13; tonnage, 6,862; men, 230. Schooners, 10; tonnage, 1,833; men, 60. Brigs, 2; tonnage, 611; men, 14.

Willcox and Gibbs Sewing Machine.—This machine is a "Virginia" machine, by a inventor and patent, and is greatly admired by all who use it. There is no style of work that cannot be done on it, and it is a single thread, and will not rip. This we absolutely warrant, and can satisfy the most incredulous in the time of the truth of what we state if they will call and examine our work. We are constantly receiving certificates like the following:

LOUCIE DALE, MADISON COUNTY, VA.
We have been using a Willcox & Gibbs Machine for three years, doing all the sewing for a large family. It has given perfect satisfaction in every respect. The work done on it is no more liable to be worked down by hand than by machine. We have examined many other kinds of machines and their work, and have no hesitation in saying we consider the Willcox & Gibbs machine superior to any of them. LUCY H. GORDON, ELLA J. WILLIS.BOYDTON, VA.
I have long desired a Willcox & Gibbs Machine. We have a double thread machine, but cannot manage it. I propose to exchange for one of yours.
