

We invite inspection of our Subscription List, by Advertisers, and assure them that they will find it the largest of any paper published in this city.

Staunton Spectator

STAUNTON, VA., FRIDAY, APRIL 7, 1905.

NO. 14.

Our readers will find correct schedules of the three great railroads of the State regularly published in this paper—the O. & O., the N. & W., Southern and the C. & W.

VOL. 84.

WHAT ABOUT YOUR SPRING SUIT?

Are You Thinking About Getting One?

If so it is a matter of importance with you that you should buy it at **WEINBERG'S.**

Our Clothing is different from the ordinary kind. It has all the Style, Shape and Good Points that is usually found in custom made garments. We have the exclusive agency for **Strouse & Bros. "High Art Clothing,"**

and having had great success with this particular line we've bought quite a quantity, and are now better prepared than ever to serve wearers of this famous make of Clothing. Of course we are still headquarters for Young Men's and Juvenile clothing. Ask to see the "holeproof socks." The socks which are guaranteed for six months against holes.

Weinberg Clothing Company,
STAUNTON'S RELIABLE CLOTHIERS.

YOU are invited to call and inspect our new and attractive line of **MILLINERY** which will be on exhibition **Wednesday & Thursday, April 5 & 6, (OPENING DAYS.)**

It will be Staunton's foremost fashion show, a complete exposition of latest and correct ideas in all things pertaining to Millinery. As a fitting inauguration of the leading style court, we formally open this department with a series of attractively-priced items in smart millinery. Our only invitation is through the columns of the press. Yours for Correct Millinery.

AMERICAN STOCK CO.,

(2nd Floor.)
10 and 12 East Main Street, Staunton Virginia.

Truths that Strike Home

Your grocer is honest and—if he cares to do so—can tell you that he knows very little about the **bulk** coffee he sells you. How can he know, when it originally came from, how it was blended—or with what—or when roasted? If you buy your coffee loose by the pound, how can you expect purity and uniform quality?

LION COFFEE, the LEADER of ALL PACKAGE COFFEES, is of necessity uniform in quality, strength and flavor. For OVER A QUARTER of a CENTURY, LION COFFEE has been the standard coffee in millions of homes.

LION COFFEE is carefully packed at our factories, and until opened in your home, has no chance of being adulterated, or of coming in contact with dust, dirt, germs, or unclean hands.

In each package of **LION COFFEE** you get **one full pound** of Pure Coffee. Insist upon getting the genuine. (Lion head on every package.)

(Save the Lion-heads for valuable premiums.)

KISSING AND BLUE LAWS.

A Flagrant Breach of the Peace Committed in 1904.

In the judicial records of the colony of New Haven, now the state of Connecticut, the following entry, made in the court of the governor of the colony, appears regarding a flagrant breach of the peace committed May 1, 1660: "Sarah Tuttle went to Mistress Murline's house for some thread and Mistress Murline bid her go to her daughters in the other room. Whereupon her son, Jacob Murline, came in and took up or took away Sarah's gloves. She desired him to give her the said gloves, which he answered he would do if she would give him a kysse. Upon which they sat down together, his arms being around her waist and her arm upon his shoulder or about his neck, and he kissed her and she kissed him or they kissed one another for about the space of half an hour, which Marian Murline now in court affirmed to be so.

"Jack was asked what he had to say to these things, to which he answered that he thought that Sarah had with intent left her gloves when he came into the room and that he took them up and told her he would give her them if so be that she would kysse him. But Sarah hereupon testified that she did not let her gloves fall with intent. Further said Jacob that he took her by the hand and they both set down upon a chest, but whether he kissed her or she kissed him he knows not, for he never thought of it since until Mr. Raymond spoke to him at Mannatos and told that he had not layde it to heart as he ought. But hereupon testified Sarah that she did not kysse him, but being questioned would say not as to whether he had kysed her or no.

"Mr. Tuttle testified that Jacob had endeavored to steal away his daughter's affections. But hereupon Sarah testified that he had not so stolen her said affections. The governor told Sarah that her misdeed is the greatest; that a virgin should be so bold in the presence of others to carry it as she had done; for though that part of the kissing is denied yet much is proved. Sarah professed that she was sorry that she had carried it so sinfully and foolishly, which she saw to be hateful. She hoped that God would help her to carry it better for time to come. The governor also told Jacob that his carriage hath been very evil and sinful and to make such a light matter of it as not to think of it doth greatly aggravate.

"Whereupon the court declared that we have heard in the public ministry that it is a thing to be lamented that young people should so misconduct themselves. As for Sarah, her misdeeds are very great that she should carry it in such an unbecoming, immodest manner as hath been proven. And for Jacob, his carriage hath been very corrupt and sinful, such as brings reproach upon his family and place. The sentence therefore concerning them is that they shall pay either of them a fine of 20 shillings to the colony."—Chicago News.

Pointed Paragraphs.

Vanity is egotism wrong side out. Women often worry themselves old trying to look young.

The high-salaried office is kept busy trying to dodge the man.

Lots of men who pay as they go are in no hurry about making a start.

Nothing makes a girl so weary as to have a young man ask her for a kiss.

Women seldom go on a strike because they can't hit the nail on the head.

Unless a woman is capable of earning at least \$1 a day she has no business marrying a man to reform him.—Chicago News.

Cheated Death.

Kidney trouble often ends fatally, but by choosing the right medicine, E. H. Wolfe, of Bear Grove, Iowa, cheated death. He says: "Two years ago I had kidney trouble, which caused me great pain, suffering and anxiety, but I took Electric Bitters, which effected a complete cure. I have also found them of great benefit in general debility and nerve trouble, and keep them constantly on hand, since, as I find they have no equal." B. F. Hughes, druggist, guarantees them at 50c.

A Daredevil Ride

often ends in a sad accident. To heal accidental injuries, use Bucklen's Arnica Salve. "A deep wound in my foot, from an accident," writes Theodore Schuele, of Columbus, O., "caused me great pain. Physicians were helpless, but Bucklen's Arnica Salve quickly healed it." Soothes and heals burns like magic. 25c at B. F. Hughes druggist.

Financial Folly.

Bifkins—Why do you consider old Gotrox vulgar? Bifkins—Because he insists on telling you how much he paid for everything.

Bifkins—Did he ever tell you how much his young wife cost him? To Cure a Cold in One Day. Take LAXATIVE BROMO QUININE Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Lost Her Voice.

"I have no fear as to my daughter's ultimate success on the stage," said the ex-prima donna, "for she inherited my voice."

Solid Legislatures.

There is not a Democrat in the Michigan Legislature, while those of Mississippi, Louisiana, Florida and South Carolina are composed entirely of Democrats.

The Production of Manganese Ores.

The most significant fact noted to the report made by Mr. John Birkinbine to the United States Geological Survey on the production of manganese ores in 1903 is the dependence of the United States on foreign sources for manganese ores. The domestic production during 1903 was only 3825 long tons, valued at \$25,335, or \$6.63 a ton. As pig-iron and ferro-manganese, both of which are manufactured from manganese ores and manganese, are used in the production of steel, the limited supply of native ore must be largely augmented by that imported from foreign countries. The quantity of manganese ore brought in during the year 1903 was 146,054 long tons, valued at \$1,278,108, or \$8.75 a ton.

The home production of 3825 long tons is an apparent but not an actual decline of 83 per cent. from the quantity reported in 1902, which was 16,477 tons. Included in this were 9000 tons from the State of Montana, reported through the United States Census local agent as mined but not shipped. Subsequent investigation has shown that the ore reported was not even mined, although exploratory work had been prosecuted and a liberal amount of ore exposed. The locations of these reported deposits are not such as to encourage the expectation of immediate development and shipment on a large scale.

In 1903 five States contributed to the production of manganese ores. They were California, Georgia, South Carolina, Utah and Virginia. Of the 1903 total of 3825 tons, Virginia furnished 1801 tons, or 47 per cent. Georgia 500 tons, and Utah 483 tons. With these exceptions the quantities mined were small. The manganese resources of the various States that contributed in 1903 or in previous years to the total production are discussed in detail by Mr. Birkinbine. The records show that the Crimora mine, in Augusta county, Va., has been the principal producer of manganese ore in the United States. The maximum output of Virginia was 20,567 long tons in 1896.

In addition to the manganese ores the United States produced manganeseiferous iron ores in the Lake Superior region, in Colorado, and in Virginia to the amount of 584,433 long tons, valued at \$1,571,750; manganeseiferous silver ores in Lake County, Colorado, to the amount of 179,205 long tons, valued at \$649,727; and manganeseiferous zinc residuum, obtained as a by-product in the treatment of zinc ores mined in northern New Jersey, to the amount of 73,264 long tons, with a nominal value of \$73,264. The total quantity of manganese and manganeseiferous ores mined in the United States during 1903 amounted, therefore, to 839,787 long tons, which had a value of \$2,320,076.

As most of the manganese ores used in the United States are imported from foreign countries, a large part of Mr. Birkinbine's report consists of notes on these foreign sources of supply. Over one-half the amount of manganese ore imported into the United States came from Brazil. The other important sources of manganese are India, Cuba, Russia, Chile, Germany, and Spain, ranking in the order named. Russia has been our main reliance in past years, but during 1903 Russia's contribution to the important, although there are undoubtedly large reserves of manganese in the Sharopan district.

Mr. Birkinbine's report is an extract from the forthcoming volume entitled "Mineral Resources of the United States, 1903," and may be obtained on application to the United States Geological Survey, Washington, D. C.

Woman is often referred to by man as "doubting his joys and halving his sorrows." That may be complimentary, but it would seem to be rather hard on the woman. For in plain terms it means that where things are going well with the man his wife makes them go better. But when things are going ill with him, she expects the wife to share half his burden. And there's more truth than poetry in this presentation of masculine selfishness. Men don't appreciate the fact that the strain of motherhood alone is a burden bigger than all the loads that rest upon male shoulders. They see the wife grow thin, pale, and nervous and worn without a thought that she is over-burdened. Among the pleasant letters received by Dr. Pierce are those from husbands who have waked up before it was too late to the crushing burdens laid upon the wife, and in the search for help have found in Dr. Pierce's Favorite Prescription a restorative which has given back to the mother the peace of the maiden and the maiden's happiness. "Favorite Prescription" always helps, and almost always cures. It has perfectly cured ninety-eight out of every hundred women who have used it when afflicted with diseases peculiar to women.

Bad Case of Grippe.

Blue Springs Correspondence Corydon (Ind.) Democrat: Jesse Diddelotte is abed with grippe. Mrs. Gid Feller is down seriously with the grippe. William Wiseman is up from a severe touch of grippe. Judge Kirkham's wife and two children are down with the grippe. After a forty-two days' attack of grippe and "a close call," Rev. Fisher is on his feet again.

A Guaranteed Cure For Piles.

Itching, Itching, Bleeding or Protruding Piles. Druggists refund money if PAZO OINTMENT fails to cure any case, no matter how long standing, in 6 to 14 days. First application gives ease and rest. 50c. If your druggist hasn't it send 50c in stamps and it will be forwarded post paid by Paris Medicine Co., St. Louis, Mo.

Solid Legislatures.

There is not a Democrat in the Michigan Legislature, while those of Mississippi, Louisiana, Florida and South Carolina are composed entirely of Democrats.

INDUSTRIAL NEWS.

Items That Will Interest Our Readers.

The Montecello Land Co., Inc., of Charlottesville, Va., has been incorporated, with a capital stock of \$5,000; Daniel Hartman, president; L. L. Holliday, vice president; R. A. Watson, Sec.

The Commercial Association of Danville, Va., is advocating the establishment of a joint stock tobacco factory capitalized at \$150,000, with a majority of stock to be held by tobacco growers.

The South & Western Railway Co. of Bristol, Tenn., is reported to be taking up options for right of way between Gate City, in Wise county, Virginia, and Clinchboro, Va., 14 miles, for its proposed line along the Clinch valley to the Tom's Creek coal fields.

It is reported that J. C. McKelvey, Samuel Kinsey and associates of Pennsylvania have purchased and will develop extensively during the coming year an extensive tract of coal land in Ohio county, W. Va. Letters addressed care of Nelson C. Hubbard, of Wheeling, will probably be forwarded.

It is reported that Mr. C. E. Dickison will have charge of the construction of a macadamized road in Charlotte county, Va., from Drake's Branch to the courthouse, a distance of five miles, at a cost of \$30,000 a mile, and that should this road prove satisfactory Charlotte county will expend next year \$125,000 on macadamized roads.

The Southern Development & Construction Co., which will construct furnaces at Lynchburg and on Anthony's creek, will expend \$40,000 within the next four months in rebuilding and putting in blast the Reusen's Furnace; daily output 100 tons of iron; temporary general offices with the president, J. H. C. Barr, Stephen Girard Building, Philadelphia, Pa.

The Hub, Spoke & Lumber Co., of Chase City, Va., has been incorporated, with \$25,000 capital stock, and privilege of increasing to \$50,000, for the manufacture of hubs, spokes and lumber. E. S. Emory is president; R. S. Barbour, vice-president; Geo. R. Land, Secretary, and Lucius Gregory, treasurer. The company has secured site on which to erect building.

The coal lands of the Southern States embrace 80,860 square miles, or, say, 40 per cent. of the coal area of the country. Twenty years ago there was nothing that might be called a coal trade in that portion of the United States, and 15 years ago the total output was perhaps 15,000,000 tons, against 70,000,000 tons today. It was the development of the Norfolk & Western, the Chesapeake & Ohio and latterly by the Southern Railway, that has given this part of the Union the growth in its coal tonnage here referred to.

The Virginia & Kentucky Railway, says a letter to the Manufacturers' Record, made a proposition to the citizens of Clintwood, Va., a few weeks ago that the company would extend its road there if the business men of the town would subscribe for \$25,000 of the capital stock. Roland E. Chase, president of the Clintwood Bank, together with several other business men, took the matter in hand, secured subscriptions to the required amount of stock, and it is now believed that the road will be extended. The agreement between the company and the citizens is that the line shall be finished to Clintwood within a year.

Washington, D. C., March 26.—The officers of the Southern Railway Company held here to day a special meeting at which the use of motor cars, was discussed with a view to adopting them at several points on the system, especially on the branch lines, where the passenger traffic is small and the revenue correspondingly light. The use of such motor cars, it was pointed out, would be especially advantageous between Charleston and Summerville, S. C., Aiken, S. C., and Augusta, Ga.; Brunswick and Jesup, Ga.; Winston-Salem and Greensboro, N. C.; University Station and Chapel Hill, N. C.; and Richmond and West Point, Va. It was not announced at what point this service will begin, but it is probable the plans will be matured at an early date.

Frightful Suffering Relieved.

Suffering frightfully from the virulent poisons of undigested food, C. G. Grayson, of Lula, Miss., took Dr. King's New Life Pills "with the result," he writes, "that I was cured." All stomach and bowel disorders give way to their tonic, laxative properties. 25c at B. F. Hughes' drug store, guaranteed.

Last Hope Vanished.

When leading physicians said that W. M. Smith, of Pekin, Ia., had incurable consumption, his last hope vanished, but Dr. King's New Discovery for Consumption, Coughs and Colds, kept him out of his grave. He says: "This great specific completely cured me and saved my life. Since then I have used it for over 10 years, and consider it a marvelous throat and lung cure." Strictly scientific cure for coughs, sore throat and colds; sure preventive of pneumonia. Guaranteed 50c and \$1 bottles at B. F. Hughes' drug store. Trial bottle free.

LIME ON LAND; HOW TO USE IT

An Explanation Important to Every Man Who Hopes for Results from the Ground.

Lime has a great affinity for water. A bushel of unslaked lime increase by one-half when thoroughly slaked. Lime should therefore be purchased in the caustic form for there is no use paying freight on water. Air-slaked lime is not active and of little use except on soils deficient in this element. Caustic or biting lime is very active, binding the fine particles of clay soils together and making them porous and breaking down vegetable matter. Caustic lime tends to form a hard pan in sandy soils and so prevents leaching, and it sets free potash and other elements in the soil which are held in unavailable forms, and therefore not useful as plant food. Lime corrects acidity and renders possible the growth of certain crops and enables many useful forms of bacteria to perform their functions.

Lime is not a fertilizer, as many suppose, but rather a corrective of certain undesirable conditions in the soil and a plant stimulant. Applied in moderate amounts, at the rate of from fifty to sixty bushels per acre once in three to five years, it will prove useful on most of our farms. Place the lime in heaps of four or five bushels at convenient distances in the field. Cover with earth and allow to thoroughly slake and then distribute uniformly over the land. If used indiscriminately and in too large quantities, it will exhaust the soil and in the end by about 1900 bushels per acre. Lime to be applied profitably should not cost more than five to ten cents per bushel. The so-called agricultural lime offered for sale at \$10.00 to \$12.00 per ton is the fresh burned lime, ground and put up in bags to prevent slaking. It is too costly for a farmer to use at that price.

The need of lime in the soil can be determined by testing it with a sheet of blue litmus paper which can be obtained from any drug store at a cost of five cents. Put a handful of the soil in a tin cup, moisten with rain water and insert the paper. If it quickly changes to a red color the soil is acid and will be greatly benefited by an application of lime.

ANDREW M. SOULE, Director.

As You Like It.

HER DECREASING AGE.
He—Tomorrow is my birthday.
She—I suppose you will take a day off.
"I shall."
"And how do you think I celebrate when I have a birthday?"
"Oh, I presume you take a year off."

The lesser lights of society have limited opportunities for going out.
Poverty is a man's safest amulet against a woman's charms.

Fly.

A fly and a flea in a flue
Were imprisoned. Now what could they do?
Said the fly, "Let us flee!"
"Let us fly," said the flea—
So they flew through a flaw in the flue.

Almost The Same.

"Did you ever try any of my whisky, Judge?" asked the dealer.
"No," replied the Judge; "but I tried a man today who had."—Yonkers Statesman.

The Transmitter.

Lillian—Wasn't it sweet of your husband to send you a kiss by wire?
Addie—I haven't decided yet; I'm suspicious that that telegraph operator was a woman.

Temporary and Permanent Loss.

"So the specialist said you'd have to give up smoking for awhile, eh?"
"Yes, and he also said I'd have to give up \$15 for good."—Collier's Weekly.

The Better Way

The tissues of the throat are inflamed and irritated; you cough, and there is more irritation—more coughing. You take a cough mixture and it eases the irritation—for a while. You take

SCOTT'S EMULSION

and it cures the cold. That's what is necessary. It soothes the throat because it reduces the irritation; cures the cold because it drives out the inflammation; builds up the weakened tissues because it nourishes them back to their natural strength. That's how Scott's Emulsion deals with a sore throat, a cough, a cold, or bronchitis.

SINCE FREE to all users of morphine, opium, laudanum, elixir of opium, cocaine or whiskey, a large book of particulars on how to cure opium or morphine addiction, or how to cure the various ailments treated by Dr. Woolley's P. O. Box 287, Atlanta, Georgia.

The American Farmer the Best in the World.

The American farmer is the greatest man in the world to-day because he is master of the soil—he is gaining in intelligence quite as rapidly as his products are increasing in magnitude. Our recent centuries of capital in United States measured in money are enormous, yet such figures sink into insignificance when compared to the money, brain and brawn invested in agricultural industries. For instance, the farmers of Minnesota and Dakota have received \$300,000,000 for their products in a single year. The farmer knows what Nature will bring forth for him from his experience in the past. He knows if certain seeds are planted and properly cared for that Nature will take care of the rest. In the same way you are master of your own destiny. Providing your blood is in good order, it only needs a little effort on your own part to keep healthy and strong—rid your body of the poisons that are apt to accumulate and your system is ready to ward off the attack of the germs of disease. Dr. Pierce's Golden Medical Discovery makes rich red blood—by increasing the number of red blood corpuscles. There is no alcohol in this great tonic to shiver up the red blood corpuscles. As an alternative extract, made only of herbs and roots it goes about its work in nature's way. It stimulates the liver into proper action, and feeds the worn-out nerves, stomach and heart on pure blood. Used for over a third of a century it has sold more largely than any other blood medicine in the United States. More bottles of Dr. Pierce's Golden Medical Discovery are sold to-day than ever before—that is a true test of its medicinal value after thirty-eight years of deserved popularity. Dr. Pierce's "Medical Advertiser" sent on receipt of stamps to pay for mailing only. Send at once stamps for book in paper covers, or 31 stamps for cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

Better Fruits—Better Profits
Better peaches, apples, pears and berries are produced when Potash is liberally applied to the soil. To insure a full crop of choicest quality, use a fertilizer containing not less than 10 per cent. actual

FURNITURE! FURNITURE! FURNITURE!

We have the Largest and Best Assortment of Furniture ever offered to the trade in Staunton. We can give you lower prices on Furniture than the other furniture dealers can. These statements are facts and not puff of wind to blow you into our store; now for facts to substantiate the above statement:

1st—We have a Department Store and sell all lines of goods.

2nd—We buy from one to five car loads of Furniture at a single purchase.

3rd—Our sales are large and our expenses are small in proportion.

These facts show to the common sense person that we buy cheaper, our freight rates are less and profits are smaller. Does this substantiate our statements or not?

We will give you a few prices to show the range of our lines of Furniture, but you must see the **Goods to Appreciate our Low Prices.**

Remember we are agents here for the "Basic" Bed Room Suits, and the reputation of these goods for Quality and Style is unquestioned.
