

THE DAILY DISPATCH.

TO ADVERTISERS.—The circulation of the Dispatch is larger than that of any other daily paper in any of the States. It is therefore greatly superior to any other as a medium of advertisement.

RICHMOND, VA.

Monday Morning, September 6, 1852.

Persons abroad from the city can have the Dispatch sent to them for any period of time they may desire, by leaving their orders and paying the cash for the time specified.

TRAVEL AND RECREATION IN THE VALLEY.

The Fincastle Whig states the travel through that place the past two months exceeds that for the same period of any previous year.—There are four stage routes, concentrating at that town, and the travel upon all is unprecedented, according to the Whig. This travel, of course, consists almost wholly of persons who are seeking health or pleasure in the mountains and valleys of Virginia. The attractions are yearly increasing in that region of our country as well for the seekers of health as of pleasure. There are new springs almost every year brought to public notice, while improvements are added to those long known. The value of the property of watering places too is yearly increasing, as some recent changes in the proprietors of some of them very clearly show. These exhibit astonishing advances in the estimated values of those places. This enhancement of that sort of property is owing to the increase of visitors to the springs and to the anticipated effects of the extension of our great Railroads into the Valley. They will increase the number of travellers to the mountains in a manner that we can at this time form no conception of. No section of the Union so greatly abounds in mineral waters as the Valley of Virginia. Almost every variety that the world produces is found there, including Thermal Springs of indestructible grateful as well as curative influences upon the body.—The temperature is the most charming and genial to the constitution that can be found; while the scenery adds its captivating charms to lure the traveller thither, and to detain him there. Before the days of splendid steamboat traveling and of railroads our valley was about as accessible as most places, and was perhaps more resorted to by people of all sections of the Union than any other part of it.—After these great plans of locomotion had been brought to their grand perfection, the travel to the Virginia Springs became irksome, tedious and repulsive. Other fashionable and more accessible points rose in public favor and the currents of travel became very much changed. The consequence was that the springs and valleys of Virginia did not command the attention they merited, nor did they flourish as they would have done, but for the diversion of the public, occasioned by these powerful agents. Now, however, Railroads are to be made tributary to their prosperity—to bring travel within their precincts, and the effect will be magical. The Valleys of Virginia, and their Springs will re-assert their superiority. The means of public accommodation, comfort and pleasure will be extended—the hand of improvement will be seen everywhere, and art will vie with nature in giving one of the loveliest and most delightful regions upon earth additional comforts for the invalid, additional charms for the traveller. The throng that will be annually poured into it will exceed the most exaggerated estimates, and the general prosperity and improvement of the whole Middle District of the State will be both gratifying and surprising to every Virginian.

ANOTHER STEAMBOAT ACCIDENT.—We have to announce another steamboat accident, with its loss of life and its dreadful injuries. Among the victims are some of our own citizens, one of whom—Mr. T. J. Barnes—a very worthy gentleman—we are pained to learn is dead. We trust the others will recover. The heart sickens at the sad details of these oft repeated steamboat disasters, which destroy so many lives, and so horribly wound and maim hundreds that escape with life.—And the involuntary inquiry of every reader of a newspaper, as he glances over the harrowing narratives of these events, is, how long is this course of things to continue? Is there no way of preventing such accidents? Is the travelling public of this great nation of travellers on the globe to be forever liable to the awful consequences of utter recklessness and disregard of life which mark the conduct of proprietors and officers of steamboats? It does seem to us that there is an extraordinary apathy in the public mind on the subject.—How a whole nation can view the appalling steamboat tragedies which are constantly occurring, with, as it were, folded arms, is more than we can divine.

POSTAGE.

The amendments in the postage law made by Congress at its late session are valuable.—All newspapers weighing less than three ounces, as all newspapers do, will pay only one cent, each, when sent to any part of the United States; and, if pre-paid by the year or quarter, at the office where they are mailed, they will be sent at half this rate. The yearly postage on the Daily Dispatch is thus reduced to \$1.56; and similar reductions are made upon other periodical publications. The law goes into effect on the 1st of October.

The Crops and Flood on the Dan River.

The Danville papers of Saturday, say that the damage on the Dan River, from the rise in the water, has not been so great as was expected. The injury to the corn crop has been confined to the fudder. The tobacco crop, however, has suffered very much. The complaints on the lower Roanoke, are greater with regard to the corn. Still the crops are superabundant—the corn crop almost unprecedented in the great valley of Dan. The heavy rains and occasional bright sun, have fired the tobacco and done it much injury, while much of the low ground tobacco has been ruined by submersion.

The editor of the Norfolk Argus is informed that the freshest in the Roanoke country has been very disastrous to the crops. It was supposed that one-third of the corn was destroyed. The names of several planters were mentioned who had every prospect of making their two thousand barrels, but such was the damage to their crops that they would not realize fifty.

THE NEW YORK CRYSTAL PALACE.

The ground for this structure was broken in New York, Sept. 1st, and the building will be erected with all practicable speed. The plan adopted is a Greek cross, with a dome over the intersection. Each diameter of the cross is 365 feet long and 149 feet broad, and the dome is 130 feet high. There will be in this building 111,000 square feet of space on the ground floor, and 62,000 square feet in the galleries.—It is estimated to cost \$195,000. The building is to be entirely of iron and glass.

ARREST OF THE MONK OF LA TRAPPE ON A CHARGE OF MURDER.—We learn from the Madison (Wis.) Argus, of the 27th ult., that Leachy, well known as the "Monk of La Trappe," recently murdered Edward J. Manley, at Partridge, Columbia county, in that State, by shooting. He also shot at Esquire Morton twice, one shot slightly wounding.—He was finally arrested, examined and committed to jail to await his trial for murder.—The cause of the murder was jealousy of Manley and his (Leachy's) wife.

FROM THE GILA.—A letter from a member of the Mexican Boundary Commission to the National Intelligencer gives an interesting description of the Indians in the Maricopa and Pimas Villages. It says the "dress of these Indians is of the most primitive kind. That of the gentlemen consists of a necklace and a cloth about the loins; while the ladies are content with a blanket around the waist and a pair of earrings."

DESTRUCTIVE FIRE.—A fire broke out in a small frame dwelling in Cincinnati a few days since, a flying ember from which alighted on the Trinity (German Catholic) Church, setting that edifice on fire. The spire in falling communicated the flames to a fine school house, which was burnt, together with the parsonage attached to the church. The loss is estimated at nearly 50,000, partially insured.

THE CUSTOM HOUSE.—The Secretary of the Treasury has appointed the following gentlemen commissioners to superintend the construction of a Custom House in this city, for which an appropriation of \$100,000 was made by Congress. Messrs. Conway Robinson, Thos. J. Giles, R. B. Haxall, L. H. Trigg and Wm. M. Harrison.

NORTH CAROLINA.—Governor Reid has issued his proclamation convening the Legislature of North Carolina on the 4th day of October. The special object of convening the Legislature thus early is to re-arrange the Electoral Districts.

FLOUR MANUFACTURING MILL IN NORFOLK.—The Norfolk Argus has been urging the citizens of Norfolk, to embark in the business of manufacturing flour with steam flouring mills. It says that the suggestion has met with favor.

DEATH OF A MEMBER OF CONGRESS.—Hon. Orin Fowler, member of Congress from Massachusetts, died in Washington on Saturday, of bilious pneumonia, after an illness of five days. He was a minister in the Congregationalist church, and a ripe scholar.

Accounts received by the Augusta journals give a more favorable statement in relation to the recent freshet than we had been led to anticipate. The loss, however, is heavy.

DEATH OF AN ACTRESS.—Miss Laura Addison, an actress of celebrity, and a great favorite in New York, died in that city on the 2d inst., after a short illness.

The extensive iron, copper and tin ware manufactory of Scaife, Atkinson and Okely, in Pittsburg, Pa., was destroyed by fire on Saturday evening.

Capt. Montgomery, of Rockbridge, sowed half a bushel of Poland rye, that produced a yield of thirty bushels.

ALL RIGHT.—The Common Council of Lynchburg have revoked their resolution of resignation.

THE LAST DELUGE.—Four mails from New Orleans came upon us "in a heap" Saturday morning.

DESTRUCTIVE FIRE.—A fire broke out in Rodney, Miss., on the 22d ult., which destroyed almost every building in the place.

A slave is to be hung in Franklin, La., on Friday next, for firing at and wounding Mr. Wm. Hungerford.

The President has appointed Hon. C. M. Conrad, acting Secretary of State during the absence of Mr. Webster.

A negro child in Nashville was so severely bitten by rats as to cause its death.

Horace Seymour has been nominated for Governor by the Democrats of N. York.

LAND WARRANTS.—The highest market prices will be given in cash for Bounty Land Warrants, of 40, 80, or 160 acres. JOHN K. MARTIN, Pension Agent, Office No. 4 Law Building, Richmond, Va. Note.—All Revolutionary claims, PENSIONS, three months extra pay, Bounty Lands, and all claims arising out of the War of 1812, or the Mexican War, will be prosecuted with diligence. I have a full list of the Revolutionary Officers and Soldiers in the Continental and State services, in my office, Je 11-3m.

HAWES M. SUTTON, NOTARY PUBLIC.—Particular attention paid to writing DEEDS and other legal instruments. Office in the Law Building, Richmond, Va. my 6

FOR SALE.—A fine lot of land, situated in the County of Loudoun, containing about 100 acres, and well adapted for raising stock, and for other purposes. The land is well watered, and the soil is fertile. The price is \$10,000. For particulars, apply to J. H. BAKER, at the office of the Surveyor General, in the City of Washington.

LOCAL MATTERS.

THE CANAL STRAITS.—The miniature model of this new order of steamboats was again exhibited in full operation on the Basin, Saturday afternoon. This model was invented by Alexander Bond, of Philadelphia, and has been patented and put in successful operation by John Pettibone, of Washington, D. C. To give a more particular description of the powers of the invention, we will state that it is adapted to either freight or passenger boats on a canal. There is one of these boats now in operation on the Rappahannock River, engaged in carrying wheat to Falmouth Mills. Her length is fifty-five feet, width of beam ten feet, and she travels at the rate of eight miles per hour on the river, and five miles per hour on the canal. It draws only thirty inches of water when loaded, and the wash from the motion of the paddle is very slight, not sufficient to injure or wear of the banks of the canal. The propelling paddle or blade in the stern is four feet in length and twenty inches wide, operating on the sculling principle, and having the whirling motions of the tail of a fish when in its swimming. The machinery is very simple in its character, and can be placed in the space usually allotted to the cabin on freight boats—affording full room for the sleeping apartment of the hands. In fact, but little room if any is lost by the application of steam to a canal boat. A steamboat suitable to run on the James River Canal, ninety feet in length and twelve feet beam, could by this plan make six miles per hour on the canal, and ten miles through the ponds. The cost of fuel for such a boat for twenty-four hours would amount to one dollar and seventy-five cents. On the whole the invention appears to be a very useful one.

HENRICO COUNTY ARRESTS.—Henry Wade, arrested for striking Charles Tensell with a bottle, will be examined before the County Court some day this week.

Daniel Coy, a free negro, was arrested by Constable Lowellen in the second district on the 29th ult., charged with assaulting a man named Walter Jenkins. Coy was examined before Justice Stubbs, ordered 20 lashes, and bound over in the sum of \$100 to keep the peace.

The same negro, with his wife, Mary Coy, were also examined before Justice Stubbs, on the charge of stealing four hogs from James Jenkins. Charge not proven and complaint dismissed.

On the 30th ult., Constable Lowellen arrested John O'Connell, who had been beating his wife very brutally. Justice Nettles committed O'Connell to jail in default of \$100 security.

By the same officer, Jacob S. Atlee was arrested on the charge of assaulting, on the 25th ult., William W. Anderson. The accused was examined before Justice Gardner, but complainant not appearing, was discharged.

SOUTHERN LITERARY MESSENGER.—Contents of the September number: A Continuation of the Interesting Notes and Commentaries on a Voyage to China; Some Readable "Things About the Valley of Chamouni." Pen Ingletton's Sketch of Bachelor Smith forms a most attractive number in the "Chronicles of the Valley of Virginia." "Austrian Politics" are fully analyzed in a lengthy able article "Western Scenes," a rich Southern sketch; incidents in the Old Dominion. Poetry, and other small and entertaining articles fill this number.

COURT D'ORSEY.—This gentleman, of exquisite memory, is no more. Not so, his exquisite Cologne. It remains, and will continue to remain to speak its praise, through all time—a richer and sweeter trophy than language could pronounce. Of the truth of this, the evidence is before us—evidence in spring, reviving, invigorating, delicious and delightful to our nasal faculties. Reader, if you wish to partake of the qualities of the pink, the rose, the jasmine, just step into Messrs. Gaylor & Wood's, and ask for a bottle of their D'Orsay.—There's nothing like it. While it will give you all the fragrance of the parterre, it will drive away languor, revive low spirits, cure head ache, &c. &c. Besides—who does not love a sweet lady? And what lady does not love a sweet gentleman? Come, then, ladies, be sweet—Beaux, be ditto. It costs but little, and may profit you much.

SERIOUS CHARGE.—A young man named Stiers was arrested yesterday by officer Trueheart, charged with selling, in this city, a horse and saddle belonging to his father, who resides in the county of Hanover. He first sold the saddle, and signed an assumed name to the receipt for the money; and this led to suspicion and his arrest before he had come into possession of the money for the horse. He was taken to the cage, and will no doubt be taken before the Mayor, this morning, to undergo investigation on the charge.

CONTINUED.—James Claytor was reported on Saturday by Superintendent Valentine, of the second Market, for selling and intending to sell, on Thursday last, five bushels of peaches at the second Market, in a wooden measure purporting to be a half peck measure, the same being unsealed and deficient in size.

Mr. Claytor alleged that he could prove by witnesses that the measure was an old salt measure, and not designed to be used as a peach measure, and the case was continued until to-day.

FINED.—Henry Hymenman was fined \$1 and costs for leaving a box on the pavement in front of his store. Offence occurred during Mr. H's absence.

DISAGREABLE ERROR.—In our report on Saturday of the case of George Caulfield, bound over for an indictment, one of our compositors placed us in an awkward predicament, by printing the word "negro" instead of "young," thereby essentially changing Mr. C's color. Mr. C's good sense of course speedily corrected the error, but it was one we sincerely regret, and shall endeavor to provide against in the future.

DISMISSED.—On Saturday, Henry Finkle and Peggy Ross were brought before the Mayor on the charge of pulling down and destroying a privy, alleged to be the property of Eliza P. O'Dell, situated on a lot belonging to Mr. Warrock. It was proven before the Mayor that O'Dell occupied the lot by permission of Mr. Warrock with others, and did not own the privy, and the Mayor dismissed the warrant.

THREATENING.—Henry Winehold was on Saturday bound over in the sum of \$100 for threatening to assault a woman formerly in his employ, named Mary Burch.

STEALING DUCKS.—On Saturday night last, a free negro named William Stewart, stole eight ducks from the premises of another free negro, named Cornelius Manning, living near the Pine Apple Church, and being afterwards hailed by the watch, dropped them and made good his escape. Stewart could not be found until last Friday, when he was arrested, and on Saturday received thirty-nine lashes.

WYMAN, THE MAGICIAN.—This evening Wyman, the celebrated wizard, whose wonderful necromantic performances some months since, delighted, astounded, perplexed and charmed our good citizens—will again commence a series of his popular entertainments at Odd-Fellows Hall this evening. A variety of new experiments will be introduced.

FIRE ASSOCIATION.—See notice of the semi-annual dividend just declared by the directors of this association.

The news of the death of Mr. WILLIAM MITCHELL, Jr., on Friday last, at the White Sulphur Springs, whether he had gone for his health, although not unexpected, has been received in this city, where he has long resided and has a very extended acquaintance and many warm friends, with feelings of sincere regret and sorrow. In his death the city loses one of its most liberal benefactors—the mechanic a valuable friend. The artificer of his own fortune, he devoted his liberal means in building up, improving, and advancing the interests and prosperity of the city. The erection of his fine dwelling on upper Franklin street gave an impulse to improvements in that now handsomely improved and beautiful part of our city, and many buildings on Main and other streets attest his liberal spirit of improvement. Enjoying the confidence and bountiful support of this community, [as the proprietor of an extensive jewelry establishment, for a series of years, in return he liberally expended his money amongst those to whom he was indebted for kindness and success. In all the walks of life, he sustained the highest character, and dies generally lamented. He had been in declining health for many months.

ATTEMPT TO POISON.—We learn that a negro boy belonging to Colonel Shelton of Hanover, a few days since mixed a portion of arsenic with some ice-cream and handed it to the Colonel and his daughter after dinner, who partook of it freely.—Soon after eating the poisoned confection, Col. S. and his daughter were taken with violent spasms.—Medical aid was obtained and relief administered, and then the attempt to poison was discovered.—Col. S. and daughter are convalescing, and the negro has been lodged in jail.

POLITICAL MEETINGS.—A large number of the Whigs of the city, with music and transparencies, proceeded in procession to the African Church, in Manchester, on Friday evening, where they listened to able speeches from Governor Morehead of Kentucky, and Joseph Mayo of this city. They returned about midnight.

On the same evening the Democratic Association of Union and Church Hills met in Springfield Hall, a goodly number in attendance. Appropriate addresses were delivered by C. C. Parkhill and Philip Mayo, Esqs. A committee, constituted of T. J. Stark and J. Howell, was appointed to make arrangements for a public discussion with speakers of the Whig party. Resolutions heartily endorsing the Presidential nominations were also adopted.

BWARE.—We have been informed by many respectable citizens of Union and Church Hills, that the "Black Hawk Rangers" will meet with a warm and backing reception if they again disturb the "Hills" with their nocturnal disorders. A word to the wise, &c.

By request, we will here state, that the young men of the Valley disclaim any connection whatever with this nondescript hodgepodge association.

DIED. In Albemarle county, on Saturday morning last, EUGENE WATSON, infant son of John C. and Ellen Watson, aged 1 year 8 months and 5 days, at White Sulphur Springs, Friday morning, the 3d inst. Mr. WILLIAM MITCHELL, Jr., of this city. His funeral will take place this (Monday) Evening, at 4 o'clock, at St. Paul's Church. Friends and acquaintances are invited to attend without fail, their notice.

On Sunday morning, the 5th inst., at 6 o'clock A. M., after a protracted illness, Mr. JNO. D. HAGAN, in the 31st year of his age. The friends and acquaintances of the family are requested to attend his funeral this (Monday) Evening, at 4 o'clock from the Catholic Church.

Widow of Commodore Thompson. The names of Ladies Bear the Same Testimony.—Truth is Mighty.—This is to certify that I have been afflicted with an affection of the liver for some years, and a great debility of all my bodily organs, loss of appetite, and subject to attacks of the bowels, which rendered me so much so that I could with difficulty discern the features of any person, unless very near, and looking steadily at them for some time. At the instance of a friend, I was induced to take the Vegetable Tincture, of which I have taken four bottles, and have now the happiness to inform the public that the above medicine has had the desired effect. The complaint is cured, all the complaints I have stated, and, thank God, I now feel better than I have felt for the last fifteen years.

The Doctor is at liberty to publish this certificate, as I feel it a duty due to him and to persons who are now suffering under similar complaints. E. C. B. THOMPSON, Widow of the late Commodore Thompson. Washington, New York Avenue.

Public Taste Improved.—SIMONS' Daguerotypes are now admired by all who see them; by some, for the richness of the coloring, peculiar to them alone—some for the clearness and distinctness of the figure, enabling the spectator to see them in any light with the greatest ease, for the strength of their light and shade, clearness of the eye, and the general artificial finish of the entire picture. When it is known that we furnish such goods of fine patronage, it is wonderful that our business is so rapidly increasing. Our assortment of jewelry for setting Daguerotypes in, is equal to any in the city. M. P. SIMONS, 151 Main street, Eagle Square.

Once again we call attention to the prices of the new stock of goods, which we have just received from the Virginia Skyline Daguerotype Gallery, at No. 145 Main street, of which Mr. W. M. PRATT is Proprietor.

Says Mr. Fabius Lawson: "Mr. Pratt has taken for me, all of which were not only satisfactory to me, but have been said by me to be exact. The one to-day, being the fifth, is rather better than those taken before."

Says Mr. H. Hurley, of Prince Edward: "Mr. Pratt is the only artist in the city, who can give a good likeness of me, the eyes in particular."

Says Mr. A. Winston: "Mr. Pratt has taken three Pictures of me, which I think perfect as any I ever saw."

Says Mr. Sawyer: "The five Likenesses taken of me by Mr. Pratt to-day I consider first rate." All the above are copies from the album of the Virginia Gallery, No. 145, Main street. au 2

D'Orsay Cologne.—The celebrated D'Orsay Cologne, manufactured by Messrs Gaylor & Wood, is certainly the most exquisitely delicate perfume for the toilet or heretic to be found. We know its superiority and we take great pleasure in urging the public to its use. Combine if you please, the essence of the rose, the lily of the valley, and the perfume of the laurel, and you will not then have the deliciousness of scent which is so freely imparted to the olfactory nerves, by the delicate aroma of this superb Cologne. Every lady as well as gallant should keep a bottle of this perfume, for its use in the toilet, and for its use in the study, by GAYNOR & WOOD. se 6-4t
