HEPATIC AND PURGATIVE PILL. THIS PILL HAS STOOD THE TEST OF AMPLE

EXPERIENCE, AND IS WARRANTED TO

GIVE ENTIRE SATISFACTION.

A few words to those who are skeptical and pre-

A few words to those who are skeptical and prejudiced towards medicines of this class:

This Pill is not the invention of a quack or impostor, but originated with Dr. T. Rennolds, of Staunton, Va., who was a regular graduate and practitioner of medicine, and stood in the first rank of his profession.

He devoted some years of patient investigation to the pharmaceutical combination and therapentical action of this pill; but long before his death, (which occurred about two years ago,) they more than realized the most sanguine expectations of himself and those among whom he practiced.

It is not the object of the proprietors of this pill some of whom are regular graduates, and have been practicing medicine for some years—to paim upon the people a remedy in which they have no confidence; but, on the contrary, they can, with sincerity and the utmost confidence, recommend them—their confidence being based upon many years experience and trial, in taking and prescribing them, as well as the testimony of many of the most reliable citizens, whose recommendation and appreciation of them can be seen at the end of the pamphlet.

appreciation of them can be seen at the end of the pamphlet.

PACTS FOR THE PEOPLE.

This pill is a certain, safe, and efficient remedy adapted to all ages, constitutions, and climates, not requiring any special avoidance of exposure or abstinence more than common sense would dictate except in derangements of the liver not to exposure of igestion of faty substances. It contains no ingredient that is in any way injurious under any circumstances, and its efficacy is not impaired by long keeping.

DERANGEMENTS OF THE LIVER.

It is earnestly recommended for the relief of de rangements of the liver, such as jaundice, deficient secretion of bile, torpor of the liver especially in persons of a bilious temperament, and all conditions ordinarily called Billous.

DIGESTIVE ORGANS.

It is also admirably adapted to derangements of the digestive organs, such as dyspepsia, sour stomach, spitting up food, loss of appetite, painful digestion, sick headache, &c. It is an indisputable fact, that derangement of the digestive organs constitute the largest class of maiadies which afflict the human race, and that great scourge. Asiatic cholers, which now threatens to invade and depopulate our country, seems first and most intensely to attack the digestive organs; so, if they are found in an unhealthy condition, how much more fatel must the epidemic prove. This pill is safe and efficient in removing constipation, which is either the cause or consequence of almost every disease; and therefore its relief is a paramount consideration, without which no other treatment is permanent or satisfactory.

Another class of diseases to which it is exactly suited its Constipation, arising from general debility, loss of tone in the bowels, impaired nervons energy, hysterical conditions, sedentary habits, &c. It is confidently prescribed for all nervons diseases, which are invaria
