Loffer for sale my FARM, "BEAUREGARD," situated a mile and a half from the White Sulphus Springs, in Greenbrier county. West Virginia, it contains nearly NINE HUNDRED ACRES, one-third of which is MEADOW LAND. About one-third of which is MEADOW LAND. About one-third of it is in fine forest, full of EXCELLENT TIMBER. A part of the meadow has been in grass for about eighty years. The whole farm is finely ADAPTED TO GRASS; and its nearness to the White Sulphur Springs gives it the advantage of a market at its very door.

This farm is WELL WATERED. Indeed, it has in copious springs the almost exclusive supply of water for the White Sulphur and the considerable town that most grow up there, upon the completion of the Chesapeake and Onio railroad to the Ohio river in the summer of 72.

It has a commanding interest on account of its fine adaptation to purposes of heath and recreation. It is one of the most beautiful, as it is one of the summer of 12.

It has a fine bath and a sperat madance of, water, for many more. This water has never been snally zed, but it is evidently a powerful stimulant of the skin and a great invigorator of the system. There are, besides, one of the boldest and strongest CHALL BEATE SPRINGS and a large body of alum slate highly impregnated with alum. In which, at a moderate expense, ALUM WATERS might be established. With these agencies the place might be made apopular and prospersons adjunct of the White Sulphur, the great watering-place of the middle and southern States of the Union.

It has fine grounds for a mile-long TROTTING OR RACE COURSE, and the addition of that source of amusement for the immense throng of summer visitors to the White Sulphur, and prospersons adjunct of the White Sulphur, the great watering-place of amusement for the immense throng of summer visitors to the White Sulphur and prospersons adjunct of the winter such as a rack, exactly suited by the temperature of th

This farm might also be adapted to fish culture, having an immense supply of clear spring water from several large springs, and a good location for a lake of several acres. This business has lately become a condinate product he

from several targes, This business has lately become exceedingly profitable.

There is a large DOUBLE BRICK HOUSE, containing twelve commodious rooms, upon the place, together with outhouses. The grounds are admirably adapted for the finest display of architectural and other improvements.

It is one of the most attractive places in the mountains, whether for improvement as a place of public resort or for a superb residence for a wealthy gentleman.

Persons desirous of seeing the place are referred to my son, J. L. COWARDIN, who resides upon it. Either he or myself will state the terms.

OPEN MAY 15, 1870.

This favorite and celebrated WATERING-PLACE is now in complete order for the reception of guests.

Some important improvements have been added to the buildings since the establishment passed into the hands of the present proprietor, and it is his purpose to keep it in a style not surpassed anywhere in Virginia.

The remarkable medicinal and curative power of the water is well known to the medical profession and to the springs-going public. to it. In all anamic conditions of the system and broken-down states of the constitution, loss of appetite, and general nervous prostration, its powers and virtue as a restorative may be safely pronounced to be without a known rival amongst the mineral waters of the world.

They are especially indicated in the whole class of aliments peculiar to the female constitution.

The proprietor will have provided for the lawns and ball-room a first class band of music; and in general all the sources of amusement and recreation usually found at our best summer resorts will be at the command of the guests at "ROCK-BRIDGE ALUM."

The place is within eleven to thirteen hours of Richmond, Washington, Baltimore, &c., by rail; all in daylight. Passengers leave the cars of the Chesapeake and Ohio railroad at Goshen depot, and new and elegant stage-coaches, passing rapidly over a smooth and level road of only eight miles, set down the visitors at the springs to tea.
