Conducts Working in State Roads

Governor Norris and Attorney General Galen Violate Law—Contempt of Court by High est Officials in State—Conducts Helps Reduce Wages of Common Laborers

MILWAUKEE SOCIALISTS IN ACTIVE WORK

Washington, D. C.—Fighting still continues for the provisions of the new Act to prevent the uttering of obscene or otherwise objectionable language in any public place. The Bishop of Milwaukee has discovered a technical point which will be the basis of his appeal to the Supreme Court. The Bishop claims that the Act is unconstitutional because it is vague and indefinite.

The bill passed the House of Representatives by a vote of 219 to 15. The Senate is expected to pass it tomorrow.

Organized Labor Opposed to Over-1ous Resolution which Was Introduced by Request of Moss, a Billings Capitalist

Last week 13 counties from the state presented petitions to the Senate opposing the construction of state roads because of the expense. The counties included: Deer Lodge and Missoula. Fifty more counties were just at that time awaiting a chance to present their cases and many of them with as much interest as the counties which presented the petitions.

The construction of roads is a costly and difficult task. They are necessary for the growth and prosperity of a nation. They provide a means of transportation for the people and commerce.

The question of road work is a complex one. The men who are serving on the boards of directors are representatives of the people and are responsible for the work that they do. They must be charged with the duty of providing the most efficient roads for the people and the lowest wages possible for the workers.

The proposal to reduce the wages of common laborers is a serious matter. It would have a great effect on the lives of the people. It would mean the loss of many jobs and the displacement of skilled workers. It is a matter that should be handled with great care and consideration.

Organized Labor has always opposed the reduction of wages for common laborers. They have worked hard to maintain the standards of living for these workers. They have fought against the unfair treatment of these workers and have been successful in many cases.

Governor Norris and Attorney General Galen have violated the law by ordering the removal of the workers from the site of the construction of the state roads. They have also violated the law by ordering the removal of the workers from the site of the construction of the state highways. These actions are illegal and should be stopped. The Governor and Attorney General should be brought to trial and held accountable for their actions.

The Wisconsin Socialist Party has taken a strong position against the reduction of wages for common laborers. They have worked hard to maintain the standards of living for these workers and have been successful in many cases.

The Socialist Party has the support of the working class and the people of Wisconsin. They are determined to fight against the unfair treatment of these workers and to maintain the standards of living for these workers.

Wage Workers for the First Time is Coming to Them—Socialist Administration Is Making Good

At the same time the Milwaukee city council has appointed a special committee to investigate the wages paid to common laborers. The committee is made up of Socialists and is headed by a Socialist.

The Socialist administration has introduced a bill into the legislature that will prevent the use of convict labor in the state. This bill is a definite step towards the establishment of a free and democratic society.

The Socialist administration has also introduced a bill into the legislature that will prevent the use of convict labor in the state. This bill is a definite step towards the establishment of a free and democratic society.

The Socialist administration has also introduced a bill into the legislature that will prevent the use of convict labor in the state. This bill is a definite step towards the establishment of a free and democratic society.
