HARRIMAN STRIKE INDEFINITE AS EVER

CHICAGO, Sept. 18.—President W. Filne, president of the International Brotherhood of Blacksmiths' Helpers, returned today from San Francisco, where he went to attend negotiations between the union officials of the craft employed in the shops of the Harriman system, which was abruptly terminated by Kruttschnitt's refusal to recognize the shop employees' federation.

Kline stopped at several cities along the route in order to earn the sentiment of the workers.

He said he found that sentiment strongly favored a strike unless the Harriman lines recognized the federation. I expect that some definite action will be taken within a few days, but I can't say what it will be.

Canadian Election in Which People on This Side of Line Feel an Interest

THE STORM-CENTER IS RECIPROcity
 The Opposition is Using that Only as a Weapon to Overtake the Government

OTTAWA, Sept. 18.—The general elections of Canada, which will be held next Thursday, September 21, are expected to be decisive of Canada's attitude toward reciprocity between that country and the United States, and on the continuance in power of the liberal party under the leadership of Sir William Laurier. The American congress has already ratified the reciprocity agreement, and after a protracted deadlock in the Canadian parliament the question of Canada's ratification was at last referred to the judgment of the people. The elections occur simultaneously in all of the ten provinces which make up the Dominion of Canada. An originally constituted the dominion was composed of Upper Canada, including the extensive English sections of Ontario, Lower Canada including the extensive French sections of Quebec, Nova Scotia, and New Brunswick. Later the British North American act of 1867 admitted British Columbia, Prince Edward Island, the Northwest Territory and Newfoundland, all of which are now a part of the Dominion of Canada, except Newfoundland, which did not take advantage of admission. More recently the western provinces of Alberta, Saskatchewan and the new Yukon Territory have been added.

The elections are for the popular branch of the dominion government, the house of commons, consisting of 221 members, elected by ballot for five years. The strength of the two parties, liberal and conservative, at the time of the recent dissolution, was as follows:

Province	Conservative	Liberal	Tives.
Ontario	25	51	
Quebec	53	12	
Nova Scotia	12	6	
New Brunswick	11	2	
Prince Edward Island	3	1	
Manitoba	2	1	
Saskatchewan	4	1	
Alberta	9	2	
British Columbia	2	2	
Yukon Territory	1	1	
	122	85	

This gives the present Laurier government a normal majority of 43 out of a total membership of 211. To defeat the government the conservative opposition must make a gain of 22 seats, while to carry on the government and organize the house they must make gains of at least 25.

Issues and Leaders

Sir Wilfrid Laurier, now 70 years of age, has been premier of the dominion for over fifteen years, since June, 1896, when his party, the liberals, defeated the conservatives under Sir Charles Tupper, Bart, known to Canadian politics as "the old war horse of Cumberland," from the name of his first constituency, in his native province of Nova Scotia. Sir Wilfrid is a French-Canadian and his own province, Quebec, with its overwhelming French population, has always given him strong support.

Sir Wilfrid has toured five of the nine Canadian provinces during the campaign, and everywhere he has maintained that the reciprocity agreement was a purely business transaction, and that the loyalty of Canada was not to be trafficked for any trade advantages.

The conservative opposition has been under the leadership of Robert Laird Borden of Halifax, who first challenged the reciprocity pact before the Canadian parliament and afterwards carried the contest before the people. The grounds for this opposition are two fold. On the one hand the conservatives are high protectionists and they contend that the present agreement is but an entering wedge, while on the other hand they contend that trade under such a pact would create a community of interest between the United States and Canada which could not but weaken the British connection and would eventually bring about the annexation of Canada to the United States.

During the campaign on the stump and in the newspapers, the utterances of President Taft that "Canada is at the parting of the ways" and that the tie binding Canada to the empire was so slight as to be almost imperceptible, have been used to prove that the United States has ulterior designs on her Canadian neighbor, while the annexationist sentiments attributed to some American public men and newspapers have aroused the cry that reciprocity is the forerunner of annexation.

DAY UNFORTUNATE FOR THE BIRDMEN
 Both Ward and Rogers' Trans-continental Flyers Come to Grief

MIDDLETON, N. Y., Sept. 18.—Aviator C. P. Rogers, who weighs 190 pounds, and is flying a baby Wright in an attempted transcontinental flight, resumed his flight here today, but soon crashed into a tree and fell to the ground from a height of 35 feet.

He received scalp wounds, though not serious, but his machine was a wreck. He says he will surely fly again tomorrow. He left New York yesterday.

CORNING, N. Y., Sept. 18.—Aviator James Ward suffered further reverses today in his flight across the country. The oil feed connections of his engine blew out, and forced him to make a hasty landing in a field north of the city.

Ward left Oswego this morning and made 53 miles in 43 minutes when he reached Corning. He will not be able to resume his flight till tomorrow, as a new engine had to be installed.

A FIERCE STORM STRUCK CHICAGO

Two Persons Killed and Many Injured; Loss \$500,000

CHICAGO, Sept. 18.—Two persons were killed and many injured by falling signs, trees and roofs during another heavy wind and rain storm that struck Chicago today. Thomas Mathre, aged twenty-eight, was found dead in a rain filled gutter in front of his home. John McPhillips, aged seventy-five, was blown over the railing into the basement of his home and was killed.

On the lake front many ships dragged their anchors, but none was wrecked. A bridge tender's shanty was blown into the lake, but the tender was brought ashore safely. The damage is \$500,000.

Five large passenger carrying steamers were held back before reaching safe anchorage, and the passengers were panic stricken. The storm came from the west. Wire communication with Wisconsin and Michigan is badly disarranged.

PHOENIX DEMOCRATS NO CONVENTION

A Recognition of the Sacredness of the Direct Primary Law

PHOENIX, Sept. 18.—Democrats of Maricopa county today held a delegate conference, adopting resolutions which were in short a reaffirmation of the constitutional acts. A plan was adopted to eliminate the recall of the judiciary at the coming election and then reinstate it in the constitution at the earliest opportunity.

No candidates were named for any office, declaring this would be a violation of the spirit of the primary law. The republicans are to hold a conference on Wednesday.

SENSATIONAL SUIT OF THE BANCROFTS

Trial of Case in Which Child is Made Co-Defendant in Divorce Case

WILMINGTON, Del., Sept. 18.—The suit for divorce brought by John Bancroft, Jr., against his wife, Madeline Du Pont Bancroft, and the counter suit brought by the wife are set for trial at the term of the superior court which opened here today, and the case promises to be the most sensational in the history of the commonwealth of "peaches and troubled politics." As matters now stand, only the unexpected can stop the suits begun by husband and wife.

The latter is the eldest daughter of Alfred I. Du Pont, the millionaire vice president of the Du Pont Powder company. Mr. Bancroft brought his suit on statutory grounds, denying the paternity of his wife's infant son. In the papers filed in the case Mr. Bancroft called the child Max Heider, Jr., and made it a co-defendant, charges her husband with unfaithfulness and extreme cruelty. She also pleads not guilty to the charges against her.

TEXAS RAILROAD TO BE IMPROVED

An Appropriation of \$50,000,000 for International and Great Northern

SAN ANTONIO, Tex., Sept. 18.—The International and Great Northern railroad stretching from Longview in the northern part of Texas to Laredo on the Rio Grande river, a distance of almost 500 miles, is making arrangements for improvement both in trackage and rolling stock. To meet this expense a bond issue of \$50,000,000 has been ordered by the management. This enormous sum will be expended in bettering the physical conditions of the line in every particular and every dollar of it will be spent in Texas. This gives some notion of what keen financiers think of the possibilities in the southwest. When the improvements contemplated are made, the schedule will be quickened and St. Louis and the City of Mexico will be several hours nearer one to the other than they have been in the past.

OHIO BANK FAILS

The Officers Were too Free in Making Loans

CINCINNATI, Sept. 18.—The Metropolitan Bank and Trust Company closed its doors today, by the order of the state banking department. Examiners Romer and Baxter are in charge. The bank was organized six years ago, with a capital of \$110,000, the deposits are a half million, of which \$125,000 is city and county funds.

The officers say the depositors will not lose a dollar. The reason assigned for closing is that the officers were given too much latitude in making loans on collateral not approved by the state board.
