

The Original Nettleton

Tarsic Model

History—designed in 1894—one of the pioneers in this class of shoe building—became popular at once.

The broad toe, broad sole, and broad, low heel, together with Nettleton Shoemaking and Nettleton leather values, make "The Shoe That Makes a Friend" of every man who wears a pair.

We have several styles in different leathers, made over this model. Come in and try on the right size, if you really want the best of all in wide toe shoe-making.

BESIDES THIS MODEL—We've every good shape in the NEW SPRING NETTLETONS OUR SENSATION MODEL—is a wonder for style and comfort combined—as any wearer will tell you.

VAN AND LIVINGSTON REALLY SHOW CLASS

Van and Livingston at the Orpheum are the funniest ever. Anyone seeing this act will enjoy one of the heartiest laughs of their lives, you can't help but laugh and continue to laugh.

FIRE IN BUTTE BUTTE, Mont., April 10.—Fire today destroyed the Otaon business building, and damaged several large warehouses, with a loss of \$200,000.

ENCISO GOES INTO HILLS AND BECOMES REAL REVOLUTIONIST

Cananea Hears Escaped Ex-Commandante Is Out of Prison

WHENCE HIS RECRUITS

(By Joseph I. Cohn) CANANEA, Son., Mex., April 10.—It is reported that Ex-Commandante Enciso, who was recently arrested at Naes, Ariz., and later on the Mexican side of the line, has escaped from the Mexican authorities, and is at present out in the hills, posing as a revolutionist.

Enciso was in charge of a guard of about ten men who were to conduct him from Naes to Cananea, where he was to be placed in jail to await trial, but he managed to get away from the guard and now, it is claimed, he has joined the revolutionist cause, and is somewhere in the hills in this part of the country.

When he secured his recruits is not known, and the authorities here discredit the story of his having a following at all, and believe that he is at present in hiding. As a result, a scouting party has been sent out in an effort to find his hiding place.

FALLS FROM PORCH AND MEETS HIS DEATH

Misstep Carries Anderson Over Retaining Wall and Upon Head

Adolph Anderson, a miner, was instantly killed at one o'clock in his boarding house on Opera drive, by falling over a ten-foot retaining wall, striking his head on a rock at the base of the wall. His skull was crushed, and death resulted instantly.

DAUGHTER OF FORMER GOVERNOR WEDS

PROVIDENCE, R. I., April 10.—Many prominent guests from out of town attended the wedding here today of Miss Hope Caroline Brown, daughter of D. Russell Brown, former governor of Rhode Island, and Howard Miller, Chapin, son of Dr. and Mrs. Charles V. Chapin.

WILL ASSUME COMMAND

WASHINGTON, April 10.—Brig. Gen. Walter S. Schuyler will assume command of the department of California on June 15.

CHILDREN AFFECTED

By Mother's Food and Drink. Many babies have been launched into life with constitutions weakened by disease taken in with their mother's milk. Mothers cannot be too careful as to the food they use while nursing their babies.

The experience of a Kansas City mother is a case in point: "I was a great coffee drinker from a child, and thought I could not do without it. But I found, at last, it was doing me harm. For years I had been troubled with dizziness, spots before my eyes and pain in my heart, to which was added, two years later, a chronic sour stomach.

"The baby was born seven months ago, and almost from the beginning, she, too, suffered from sour stomach. She was taking it from me! "In my distress I consulted a friend of more experience and she told me to quit coffee; that coffee did not make good milk. I have since ascertained that it really dries up the milk.

"So I quit coffee and tried tea and at last cocoa. But they did not agree with me. Then I turned to Postum with the happiest results. It proved to be the very thing I needed. It not only agreed perfectly with baby and myself, but it increased the flow of milk.

"My husband then quit coffee and used Postum and quickly got well of the dyspepsia with which he had been troubled. I no longer suffer from dizziness, blind spells, pain in my heart or sour stomach.

"Several members of the local lodge of Knights of Pythias went to Douglas to visit the lodge there in the interest of the lodge of D. O. K. K., to be organized there the latter part of this month. Those in the party were Jack Verforth, chancellor, commander of the Bisbee lodge, and Messrs. William Halley, E. B. Mathews and J. C. McIntosh.

TIGRE COUNTRY IS IN TURMOIL

Band of Bandits Estimated to Number 300 Is Looting Many of the Small Towns

FEDERAL LOSS IS 15

DOUGLAS, April 10.—(Special)—That the section of Sonora in and around the Tigre mine has been in a state of turmoil, was confirmed by a rancher who is up from that district. He said that for some time there had been a band of nearly three hundred rebels about twenty miles east of the Tigre and that they had seized all the little towns along the river east, and had menaced and harassed the entire section down there.

After the skirmish yesterday at the Tigre, which was reported in Douglas, the sixty soldiers who had been at the Tigre left that place and came up to Yabuel.

The rumor yesterday that they were led into ambush and lost fifteen of their men before they could retreat, was reported as true today. The federals came to Yabuel until such time as their numbers could be reinforced and they would be in a position to meet this band of marauders with numbers sufficient to break up the band, which is pillaging and laying waste the country.

It has been estimated by men in a position to know, that the rebels take into their ranks any outlaw who will come over the line and bear arms, and take part in this outlawry which is keeping Sonora as well as other states of Mexico in a state of terror.

BABISPE IS TAKEN

News received today by Consul Cuesta is to the effect that there was a fight at Babispe a few days ago, when that town was captured by 200 rebels, and that in the fight five men were killed. The town was first attacked by a band of fifty, under the leadership of Dr. Huerta, who was repulsed. He was then reinforced by 150 more men, when the town surrendered. The rebels also hold the town of San Miguel, in the vicinity of Babispe.

FEDERALS REPORTED GOING EAST

It was reported today that 300 federals had left Cananea to go after the marauders in the Tigre and Babispe country, composed mostly of Yaqui Indians. It is said that this force was seen going east between Agua Prieta and Fronteras last night of this morning. A dispatch in The Review yesterday morning told of the arrival of 125 Yaquis, and a report in Douglas says that another force of 300 federals were due in Cananea today, so that it is probably true that the Mexican government has decided to attempt to wipe out the lawlessness along the Babispe river to the east of the Tigre.

BOXING FEVER GROWS WARMER

Epidemic Likely to Soon Spread to Bisbee and Good Sport Will Surely Follow

IS CONSIDERED NOW

If the boxing epidemic, which originated at Phoenix and later spread to Douglas, comes to Bisbee, there will be some classy bouts. No city in the state has as much promising material as has Bisbee and Lowell, and a little encouragement and development would furnish some excellent encounters.

Reed Gannon has a string of youngsters that he believes will be fast, waiting partners for any kind of a set-to under the rules of the Marquis de la Queensbury. Freeman, the wiry little lightweight who has performed in boxing exhibitions at recent smokers in the district, is one of those whom Gannon has under his managerial wing. He is wonderfully fast, and a good fighter. Jack Dillon is another Bisbee youngster that would look well in a squared circle, and he will probably go on with Douglas talent in that city on April 21, when Dalton and Reese will go on. Dillon will take on any one weighing between 133 and 136. Tom O'Hara says that Dillon can hold his own with any one his weight.

Fierce ("Jack") Pierce, will also go on in a preliminary at the Dalton-Reese match. Vaughn and Ligon are two more Bisbee students of the manly art, who with proper training would inject interest into a fist encounter. There are a number of others in the amateur class of the game in the district, and unless they toward events interfere, Bisbee fans may see some interesting matches in the future.

Dalton will train at Lowell for his fight with Reese, and will arrive in the city today or tomorrow. A training place has been fitted up for him in the room back of Harry Jennings' place in the middle burg, and the fans of the district are invited to come down and witness Dalton's training stunts.

Several members of the local lodge of Knights of Pythias went to Douglas to visit the lodge there in the interest of the lodge of D. O. K. K., to be organized there the latter part of this month. Those in the party were Jack Verforth, chancellor, commander of the Bisbee lodge, and Messrs. William Halley, E. B. Mathews and J. C. McIntosh.

COUNTY HOSPITAL HEAD IS SELECTED BY COUNTY BOARD

Dr. Randall of Douglas Is Finally Selected to Fill the Post

DISCUSSION IS LONG

TOMBSTONE, Ariz., April 10.—(Special)—The board of supervisors, in session this morning, appointed Dr. L. F. Randall, of Douglas, as superintendent of the county hospital and poor farm, to succeed Dr. E. W. Adamson, who served from the time the new hospital was opened for service last year.

The making of this appointment has been a perplexing question for the board from the first day they met in February. Petitions were originally filed by Dr. W. A. Greene and Dr. Randall, of Douglas. The original petitions filed were merely formal so far as Dr. Greene was concerned, as he made no effort to get more than the number of signatures required by law.

After the first meeting of the board, the members of the board visited Douglas, and at that time decided that Greene and Randall should stand on the value of the petitions they presented at the next meeting of the board, limiting signers to the city of Douglas. Friends of both became active in securing endorsements, and it can be said that even Dr. Greene, who has been turned down, filed a petition of the representative men of Douglas of which any man might feel proud, but the board decided that the petition of Dr. Randall was the largest, and to their mind the one which should control them in their action, and the appointment was promptly made this morning by a unanimous vote after the visit yesterday to Douglas of the members.

Dr. Randall had the support of some determined friends in the contest, who have stood sponsor for the good conduct of the county hospital and poor farm. The appointment is for the term of the present board, and it is hoped that under the management of the new superintendent, the institution will be creditable and efficient.

Dr. Randall is well known in Douglas, having been one of the first physicians to come to this town, when the work of cutting the mesa out from the site was in progress. He gained some notoriety during the Madero revolution, when he took a position in the rebel army as surgeon, with the rank of surgeon general of the state of Sonora. After the collapse of the Diaz government, he returned to Douglas and has since been here.

He has had charge of the hospital for several days, as Dr. Adamson refused to serve after the fifth of this month.

MOTHERS LONG FOR LETTERS FROM SONS

If Word Only Comes Is an Almost Constantly Heard Prayer

The passage of a law to compel sons to write to their mothers would be endorsed by every son's mother in the United States. Agent F. L. Williams, of the El Paso and Southwestern, has received a letter from Mrs. L. D. Teter, of Vinco, Oklahoma, asking him to write her information as to the whereabouts of her son, C. E. Teter. "I would give my life to hear from him," the anxious mother writes. If any of The Review's readers know anything concerning C. E. Teter, will communicate their information to the agent or to The Review, it will be sent to the mother. The letter follows:

Vinco, Okla., April 5, 1912. Depot Agent, Bisbee, Arizona: I am writing you for information of my son, C. E. Teter. Have you, in the last four years, seen or had any acquaintance with any one of that name? He was at Bisbee the last time I heard of him. If you do you will oblige me greatly by letting me know. I am so wearied waiting to hear from him. He is about 39 years old, with light hair, and is five feet, six inches tall. He is a graduate of the Gem City business college at Quincy, Ill. I would give my life to hear from him. Now, if you please, write me whether or not you have seen or heard of such a man at Bisbee. I have written so many letters, but cannot hear a word about my son. I am almost crazy worrying about him. Now I will one more ask you to please write and oblige me. (Signed) MRS. L. D. TETER, Vinco, Okla.

APPEALS ARE ARGUED

Last Chance for Ketchel's Slayer is Taken

JEFFERSON CITY, Mo., April 10.—The appeals of Walter Duple and Goldie Smith, convicted of the murder of Stanley Ketchel, the prize-fighter, were argued and submitted to the supreme court today. Each is serving a life sentence.

A Massachusetts man comes to the front with two cats that have cork-screw tails. Now we know why it's called katezenjammer.

AUTOMOBILE PARTY IS ON WAY TO COAST

Journey from El Paso Is Not Delayed by Any Long Stops

W. J. Rand, of El Paso, where he is a prominent business man and a member of the El Paso Automobile club, arrived in the city last night at 8 o'clock, having come overland in his automobile from the Pass City, leaving there last Saturday morning. After having his machine oiled up at the Bisbee Auto company's garage, he left for Tucson. He is enroute to Los Angeles.

Mr. Rand is accompanied by his son, Clarence, and Sid Humphreys and M. E. Newell, all of El Paso. Mr. Rand said that with the exception of the hills in southeastern New Mexico, the roads that he had encountered so far were in excellent condition, especially those in southeastern Arizona and Cochise county. He was enthusiastic over the Bisbee-Douglas highway, which he declared was one of the best pieces of road in the southwest.

Mr. Rand is keeping a record of his trip and is reporting bad places to the various commercial clubs and automobile clubs along the route. He had none to report in this part of the county. He is the first tourist to go over the Borderland Route of the transcontinental highway and is one of the enthusiastic boosters for this route. The automobile in which the party is traveling is fitted up as snugly as a desert caravan and so far the trip has been made without serious accident.

TITANIC SAILS ON MAIDEN TRIP SOUTHAMPTON, April 10.—Carrying a full complement of passengers, the gigantic new White Star line steamship Titanic sailed out of this port today on her maiden voyage to New York. Thousands of spectators gathered to witness the departure, which was marked by the firing of salutes and the dipping of flags by all the shipping in the harbor.

The Titanic is a sister ship of the Olympic, placed in commission last year. She is 640 feet in length and has a displacement of 60,000 tons. She is literally a floating hotel, provided with dancing rooms, smoking rooms, cafes, a library and even a garden of Oriental palms and beds of roses and carnations. A swimming tank and a skating rink are among her other features. She has accommodations for 5,000 passengers and carries a crew of 600. On her maiden trip the Titanic is in command of Captain Smith, formerly of the Olympia.

S.S.S. THE CURE FOR SCROFULA

The usual symptoms of Scrofula are enlarged glands of the neck, sores and ulcers on the body, skin affections, catarrhal troubles, weak eyes, and general poor health. The inherited poison, transmitted through the blood, pollutes and weakens this fluid, and in place of its nutritive qualities fills the circulation with scrofulous matter, which saps the vitality of the entire system. Thousands of children, born with a scrofulous taint, have spent their childhood in constant physical suffering, and grown to manhood or womanhood handicapped by ill health and stunted growth, and perhaps later some disease of the bones or joints developed. S. S. S., given in their early life, would have prevented this. It would have cleansed and purified the blood of the taint, nourished and strengthened their systems, and assisted each to grow into strong, healthful manhood or womanhood. S. S. S. is the very best remedy for Scrofula. It goes down to the bottom of the trouble, and cleanses the circulation of all scrofulous matter. It supplies the weak, diseased blood with strength and health-building qualities, and under the purifying effects of this great remedy all symptoms of Scrofula pass away. S. S. S. contains no minerals in any form, and is an absolutely safe treatment for children, even infants, or persons of any age. Literature about Scrofula and any medical advice free. THE SWIFT SPECIFIC CO., ATLANTA, GA.
