

DEMOCRATS IN STATE ACTIVE

Cochise County Central
Committee Will Meet
Thursday to Form
Plans

DOUGLAS FAVORED

This week will see the plans of the democratic party in Arizona completed for the presidential campaign. The new Cochise county central committee will meet in Bisbee Thursday evening for the purpose of organizing and electing members of the state committee and the state executive committee. This being a democratic year, there will probably be contests for the several jobs in the gift of the county committee, including the memberships in the state committee. There is a disposition in Bisbee, at least, to favor giving the democracy at Douglas the chairmanship of the county committee, as Bisbee has had it for the last several years. The leaders of the party in Bisbee also probably will be disposed to let the democrats of Douglas name their candidate for the chairmanship, and this suggestion seems to have met with favor.

Plans to Finance Campaign
At the meeting here Thursday night plans for opening and financing the county campaign will also be made, and shortly afterward speaking dates will probably be announced.

The old state executive committee, through Chairman John J. Birdno, has issued a call for a meeting of that body at Phoenix for Saturday, September 28. At this meeting a final report to be submitted to the new executive committee will be prepared.

State Committee to Meet
The new state committee will meet at Phoenix on October 1 to make plans for the initiation of the state campaign for president.

The week will also see much activity in the republican and progressive parties. As stated in The Review Sunday, the progressives have already made plans to capture the state by intensively campaigning Cochise, Pima and Maricopa counties, and will start their campaign in this county the last of this week. Fisher, the progressive candidate for congress, will speak at Douglas on Friday night, and in Bisbee on Saturday night. The party organization plans to have meetings in this county every week from now until the close of the campaign.

The republicans have organized their new county central committee and elected their quota of members to the state committee and the state executive committee. The state committee meets at Phoenix on September 30 to make plans for the coming campaign.

With a three-cornered fight ranging on the Arizona huskings, some evenings of oratorical entertainment are in store for Mr. Common People in this state during the month of October.

Socialists Hold Firm
The socialist campaign will lack in the intensity that will characterize the campaign of the other parties, for the reason that it does not count on "death bed conversions." A socialist vote is a carefully tended plant, and never, like other political seed, springs up in a single night like Aaron's rod, and blossoms a ballot the next morning. The party can almost reckon its strength, when personalities may be discounted, by the subscription lists of its party organs, though sometimes a reader of these publications is a hothouse plant that withers in the heat of election day.

ARRIVAL OF SON IS ELATION FOR FATHER

J. H. Verfurth, of the Independent Fuel company, is elated over the arrival into his family of a baby boy, which weighed 11 1/2 pounds. The little fellow is doing nicely, as is the mother.

Probably no one in Arizona yesterday was more elated than the happy father, and he took good care that all of his friends were aware that he was "One proud daddy."

If anyone thinks for a second that he feels better than does Mr. Verfurth, he will have to cast his thoughts over again, for the man who sells fuel believes he is the most blessed man in Arizona.

THE WEATHER

ARIZONA—Fair in south and cooler; probable rains in the northern part.

SCROFULOUS TROUBLES

No truth is more forcibly manifested in physical life than the old saying "like begets like," for just as the offspring of healthy ancestry are blessed with pure, rich blood insuring good health, so the children of blood-tainted parentage inherit a polluted circulation which fosters a chain of scrofulous troubles. The usual signs of a scrofulous inheritance are swollen glands about the neck, weak eyes, pale, waxy complexions, sores and ulcers and general poor health. These symptoms are most often manifested in early life, though sometimes maturity is reached before the trouble breaks out. Treatment should be commenced at the first indication of Scrofula for it may get beyond control if allowed to run unchecked. S. S. S. is the very best treatment for Scrofula. It renovates the circulation and drives out all scrofulous matter and deposits. S. S. S. goes to the bottom of the trouble and removes the cause and cures the disease. Then it supplies the weak, blood with healthful properties. S. S. S. is made entirely of roots, herbs and barks, and is an absolutely safe remedy for young or old. Book on the blood and medical advice free.

Cunningham-Costello Suit Preliminaries On at Tombstone

Eleven Demurrers in Noted
Case Take Up Attention
of Court—No Decision

(Special to The Review)

TOMBSTONE, Sept. 23.—Superior Judge Smith, of Prescott, occupied the bench of the local court here today, before whom was heard a part of the preliminary legal battle in the big Cunningham-Costello lawsuit, which has drawn a number of the prominent lawyers of Los Angeles and southern California to this city.

The preliminary skirmishing today was over eleven demurrers and other motions offered by attorneys for the defense. Argument on these motions continued during the entire day, but no decision was given or indicated on either. It is quite probable that the argument on these several motions will continue all day tomorrow.

John M. Ross, of Bisbee and of council for the defense, made the principal argument today. Senator lives and George Neale speaking for the plaintiff.

The jury was excused at noon until tomorrow at 9 o'clock, but it may be that the work of selecting jury-men to sit in the trial will not be reached before Wednesday morning.

The trial of this case has brought several old-timers of Bisbee to Tombstone, who have not been seen in the county seat for several years.

DOUGLAS TEACHERS HAVE A RECEPTION

The reception given to the Douglas school teachers at the Country club in that city last Friday night was one of the best social events of the year.

Beginning at 8 o'clock the Ninth Cavalry band rendered a concert of seven numbers which were greatly enjoyed, each number receiving hearty applause. The following is the program rendered by the band:

1. Spanish march, "A Bunch of Roses," Chapin.
2. Overture, "Tannhauser," Wagner.
3. Selection, "The Chocolate Soldier," Strauss.
4. Song for Cornet, "Sing Me to Sleep," Greene.
5. Muzulka Caprice, "Blue Violets," Ellenberg.
6. Serenade, "D'Armour," Von Blon.
7. Medley Overture, "Somewhere," Harris.

After the concert the band moved to the north end of the veranda of the club building, the dancing started and lasted until the early morning hours. Society turned out in great numbers and most of the officers in command of the Ninth Cavalry were present and introduced to the citizens.

Refreshments, consisting of cream and cake were served on the lawn in front of the club. The lawn was lighted by a special electric lighting system installed yesterday, and presented a most pleasing and charming effect. Long rows of lights stretched the entire length of the lawn with branches running cross-wise were in place and all these were covered with Japanese lanterns.

RICE INSTITUTE OPENS ITS DOORS

HOUSTON, Texas, Sept. 23.—The William M. Rice Institute, said to be the seventh richest college in America, opened its doors today for the reception of students. The institute was founded with an endowment of \$10,000,000 left by William Marsh Rice, the aged capitalist for whose alleged murder in New York twelve years ago Albert T. Patrick was tried and convicted. The formal inauguration and dedication of the institute will take place next month.

HIGHWAYMAN IDENTIFIED

FRESNO, Cal., Sept. 23.—The body of a highwayman which has lain at the morgue here for a week, was identified today as Harvey Cole, a notorious outlaw wanted in Idaho for murder. He is also wanted at Arizona points for robbing gambling dens. Cole was killed by Thomas Ragan when he tried to hold the latter up.

THE FINEST BEER EVER BREWED

The sturdy Germans' idea of food and drink—the wholesome, simple road to health—is today being followed, more and more, in the typical American Home.

Those who know good beer and observe its value in dietetics, accord their best praise to Blatz—and include a case in their household supplies as a matter of course.

ALWAYS THE SAME GOOD OLD

TERRAZAS SICK AT LONG BEACH

Causes Delay in Senatorial
Investigation of Mexican
Revolution by U. S.
Senators

WILL APPEAR LATTER

LONG BEACH, Sept. 23.—Illness today of Gen. Luis Terrazas caused a hitch in the plans of Senators Smith and Fall, members of the senatorial investigating committee, who came to Long Beach to interview wealthy Mexicans on the Mexican situation.

On the arrival of Senator Smith here at the Hotel Virginia he was met by Senator Fall, who is stopping there, and they later were joined by Alberto Terrazas, son of the general who informed the senators of his father's condition. He held out some hopes, however, that his father might be able to join them later.

In the meantime, the senators' party will avail themselves of the opportunity to take a dip in the surf, lunching afterward at the Hotel Virginia.

Anxious to Meet Terrazas

Senator Smith said, after having received the message from General Terrazas, that he might remain in Long Beach over night, in hopes of having an opportunity to afford General Terrazas an interview at his convenience. Senator Smith said further that he came here for that explicit purpose. He was anxious to hear the general's side of stories that had been told previous to his coming to Los Angeles. He is convinced, furthermore, that General Terrazas is anxious to put himself in a proper light before the committee.

General Terrazas for a number of months has been living at Long Beach with his family. The name of General Terrazas has been brought to the attention of the investigating committee on previous occasions, particularly at El Paso where Senator Smith began his inquiry. Senator Smith has evinced a desire to hear from General Terrazas' lips his side of the story that came to the committee's ears at El Paso.

Conferences with A. I. McCormick, United States district attorney, and Dudley Robinson, assistant, occupied the time of the committee yesterday afternoon. While the result of this conference was not made public, yet it is believed the activities of the Magons some months ago thoroughly were gone into.

A document outlining plans for ending the warfare in Mexico was received by the committee yesterday from R. Gomez Robelo, representative of Pascual Orozco in the United States. The document is a copy of an answer sent by Senor Robelo to President Francisco I. Madero, relative to peace proposals submitted by Don Antonio de P. Magana for the Mexican government. The attitude of the revolutionists is made plain in this answer, which was discussed at considerable length by Senators Smith and Fall. The following excerpt from the document explains the revolutionists' position.

"We favor the revolution as we favor peace, and with two ends—the moral regeneration of the government and the political and economic regeneration of the classes to this day held in servitude; and if our ends are gained the revolution immediately will cease."

TO RUN POWER LINE TO CLIMAX

Electricity to Be Used at
Big Reduction Plant
to Be Installed
Soon

TWO ROUTES VIEWED

PRESCOTT, Sept. 23.—It has been the purpose of the Climax Mining company for several months past to install a plant at the mines which will be adequate in handling the large reserve of ore which has been blocked out during the past three years. While the company has, off and on, produced considerable bullion by means of the old mill, the quantity of ore which could be worked was a mere handful compared with the capacity of the mine.

Electric Power Best

The running of the new plant, it is figured, can best be done by electric power, and looking to that end Superintendent M. V. Watson rode over the route between Prescott and the Climax to see the lay of the country and to pick a route for a power line which will be used to transmit 200 horsepower to the mines. Mr. Watson went by way of the Jersey Lily road, thence past the old Mesal gold properties upon the banks of the Hassayampa, and thence down the Hassayampa to Climax.

Route Practically Straight

This route is practically a straight line south from Prescott. Returning Mr. Watson came to Prescott by way of the Copper Basin road. The line, if strung over this route, would be about four miles longer than the Jersey Lily route, but would tap the Birch & McNulty copper properties, and those of the Commercial Mining company at Copper Basin would be but a short distance off the line.

DOUGLAS DEMOCRATS HOLD CLUB MEETING

An enthusiastic meeting of the financial committee of the Wilson-Marshall club was held last Saturday night in Douglas at the club quarters and the reports of the various committees were heard.

At the last meeting it was decided to designate 40 members of the club to raise \$10 each and contribution slips were sent to those appointed and at the meeting last night a large number reported, nearly all having collected more than the amounts asked for. Many of them collected over \$20 and several nearly \$50. The popularity of the candidates is plainly demonstrated by the liberal manner in which the contributions are made to the campaign fund.

The next meeting of the club will be held in about two weeks. The date and place of the meeting to be announced later. Out of town speakers will be invited to attend this meeting and it is expected that the opening guns of the campaign will be fired at that time.
