

# STATE G. O. P. FAVORS WOOD

(CONTINUED FROM PAGE ONE)

Arizona to "re-buke Wilsonism," which, he declared, was not the Democratic party, but "a personal, one-man autocracy." He declared for a policy of Americanism and praised the record of Col. Roosevelt, which evoked applause.

Delegates and alternates were chosen as follows: Maricopa—George W. Elias, delegate; Charles F. Price, alternate.

Cochise and Yuma—Albert M. Sames, delegate; P. J. Sullivan, alternate; Sgt. E. C. Hicks, an extra alternate chosen because Cochise county wished to honor a former service man.

Gila, Graham and Greenlee—F. M. Pool, delegate. In selecting a woman for alternate the delegations passed over into Maricopa county and selected Mrs. H. A. Guild.

Pima and Santa Cruz—F. Noon, delegate; Charles F. Solomon, alternate.

Mohave, Coconino, Apache, Navajo and Pinal—F. Breen, delegate. The group went to Cochise county for an alternate and named Sgt. Hicks, extra alternate from that group.

Yavapai and Pinal—E. W. Wells, delegate; G. O. Nolan, alternate.

Resolutions adopted included the following declarations: An intention to resist all attempts to overthrow the foundations of the government or weaken its principles, whether in the form of international policy or domestic agitation.

Favoring immediate ratification of the peace treaty with the Lodge reservations as adopted by a majority of the senate.

Favoring nomination of Gen. Wood for president.

Advocating measures to bring capital and labor into closer relationship.

Advocating stimulation of production, checking private extravagances and reduction of public expenditures as a means of helping combat the high cost of living.

Revision of the system of taxation and of business regulation so as to promote production, and a declaration that espionage over private industry and the country's business should be abolished.

Favoring a policy of adequate national defense based on a small standing army with a trained citizen reserve with a universal obligation to serve in time of war and a universal obligation to be fit to serve—"the direct opposite to militarism."

Favoring immediate repeal of all emergency legislation so far as relating to business and enterprise and "the bureaucracy at Washington."

Opposing nationalization of industry and favoring fair competition in trade under proper government regulation.

Favoring victory over communism of law "against any alien who at any time after entry shall be found teaching or practicing sabotage or advocating anarchy or the overthrow by force or violence of the duly constituted government in this United States, and demand that such persons be deported; and where citizenship has been acquired by such persons that the same be revoked."

Favoring enactment of a law for protection of cattle, mining and agricultural industries of the state and the denial to aliens of the right to use and acquire the public domain.

Pledging support and influence to obtain passage of legislation by congress making possible construction of all feasible reclamation projects in Arizona.

Favoring an unstructured delegation to the Chicago convention.

Advocating immediate passage by congress of laws giving preference to ex-service men in acquiring and developing public lands and also advocating state cooperation.

Endorsing the administration of Governor Campbell, the work of National Committeeman Jaynes and that of the Republican state committee.

Favoring construction and maintenance of a national highway system with federal aid to the states.

There were two minor clashes in the afternoon session both precipitated by Thomas Maddock, Maricopa. The first related to the highway clause in the resolutions, which was construed in such form that it was construed by Maddock and some other delegates as possible of interpretation as endorsing the Townsend bill. After some debate, the matter was rectified to meet the objection, there being expressions of approval of the bankhead bill. The second had reference to the peace treaty. Mr. Maddock wanted it made plain that the convention was not hitting Senator Lodge against President Wilson, a clash of personalities. After much discussion, the treaty declaration was rewritten to provide for the Lodge reservations as adopted by a majority of the senate.

State Chairman Albert M. Sames, Douglas, will be chairman of the delegation to Chicago, it was announced tonight.

## BRITISH RIDICULE COMMUNIST PLOTTING

CLYDE—Thirteen soviet have been founded in various parts of Great Britain. The "Soldiers and Workmen's Council" here holds regular meetings in which the overthrow of parliamentary government is advocated. The authorities do not regard the soviet as representative of the working-men and pay no attention to them.

Russians who are religious do not eat pigeons, because of the sanctity conferred on the dove in the Scriptures.

## CAN TUBERCULOSIS BE CURED?

Dr. Glass has positive proof in his new method to cure Tuberculosis by inhalation, in any climate. For further information, address T. F. GLASS, INHALENT CO., SUITE 612, MARINE BUILDING, LOS ANGELES, CALIFORNIA.

# French to Appear For State Monday

(CONTINUED FROM PAGE ONE)

prosecution of the cases from the methods of French. The changed policy of the prosecution since French was forced to give up his post two weeks ago on account of illness, has been particularly noticeable in the attempts on the part of Roark to retain as jurors Mannus and P. C. Haynie of Douglas, both charged with disloyalty.

Mannus is charged by the defense, with having frequently expressed the wish, during the war, that Germany would defeat the United States. Haynie, the defense alleged, urged his four sons to go to Mexico during the war to avoid selective service. This testimony was given against Haynie yesterday by his son-in-law, Owen Hush of Douglas.

One of Haynie's sons, summoned as a witness for the state, denied having heard his father make these remarks, but admitted, during cross-examination by the defense, that one of his brothers had registered under the draft and then gone to Mexico and was still there.

It is not considered probable that with the consideration of the charges against Stevenson and the challenges of Mannus and Haynie, the actual hearing of evidence in the case against Wootton will start before the latter part of next week.

The arrest of Stevenson on the perjury charge has brought about a distinct tenseness in the deportation cases hitherto not noticeable. Defendants and their attorneys are making no attempt to conceal their indignation over the charge. Witnesses for the state and other actively interested in the prosecution consider the situation decidedly favorable to the prosecution. Stevenson is one of the best known attorneys in the county. By many directly interested in both sides of the deportation cases, it is considered probable that the charge against Stevenson will be practically settled one way or the other when the Wootton case comes up again Monday, the first day of the fifth week it has been in progress.

Should the challenges against the two jurors charged with disloyalty be sustained by the court Monday, further examination of prospective jurors will be necessary. When the jury box was filled yesterday morning, there remained on the sixth panel about 15 men. Pending his decision regarding the two challenges made by the defense, these men were excused by the court, with instructions to report again Monday.

## I. O. O. F. Lodges Hold Convention

A district meeting of the I. O. O. F. lodges in Cochise county was held at their hall in this city last night. Representatives from Douglas, Tombstone and Tucson were present.

A collection of several hundred dollars was taken up for the benefit of the Odd Fellows home to be built at Safford. A cake, supplied by Mr. Privett of the Phelps Dodge store, was knocked down for \$50 to the Bisbee lodge bidding in competition with the others, the money to go into the home fund.

E. A. Watkins of Bisbee, past grand master, acted as chairman, and spoke of his trip to the sovereign grand lodge at Baltimore on the occasion of the 100th anniversary of the order in America.

L. V. Russel of Tucson, state grand master, spoke on the progress of the order in the state. Rev. Fowler of Douglas spoke of the Odd Fellow and his duty to his fellow men. E. A. Putnam of Bisbee spoke on the Odd Fellow and his duty to his country, and Mrs. Dickerman of Tucson, president of the Rebekah assembly, spoke on the Odd Fellows' home to be built at Safford.

The meeting was largely attended and the I. O. O. F. hall was crowded with local members of the order and their guests. Supper was served.

## American Legion To Meet Thursday

The American Legion has laid plans for a big time at its next regular meeting Thursday evening. The program has not been definitely made up yet, but will include speaking, singing, boxing and music by the orchestra. Refreshments will be served. A delegation of the Legion post at Douglas is expected to attend.

Part of the business session will be devoted to making further arrangements for the bazaar that will start on April 5.

SACRAMENTO, Calif., Feb. 28.—C. M. Goethe of Sacramento has donated \$10,000 to establish children's playgrounds in China and thus help establish American educational ideals there.

## ARMENIANS DIE BY THOUSANDS IN MASSACRES

WASHINGTON, Feb. 28.—The massacre of several thousand Armenians was reported in a cablegram received here by Professor Der Hagopian, vice president of the American national delegation to the peace conference, who is in Washington on a special mission. The message was from Patriarch Seaven at Constantinople and said in part:

"Cilicia covered with blood. Several thousand Armenians massacred. The existence of all our compatriots in those regions in danger in consequence of the recrudescence of Turkish attacks. Several Armenian localities evacuated or besieged. We are making the necessary political representations to the peace conference."

MADRID, Feb. 28.—The young society of girls and youths of Madrid have taken to the American habit of chewing gum and their elders have been much exercised as a result. That staid conservative journal, the A. B. C., devoted recently a column to this practice which it denounced in strong terms.

## WILSON SIGNS RAILROAD BILL

(CONTINUED FROM PAGE ONE)

6:30 o'clock and after it had been assumed that Mr. Wilson would not act before tomorrow.

At 12:01 a. m. Monday, the government will hand over to their owners 249,000 miles of main line railroad and terminals and equipment, valued at approximately \$20,000,000,000, over which its direct authority has been decided since December 28, 1917.

The properties will go back, leaving the government with a deficit of \$715,500,000 for its 26 months of operation. But while the deficit appeared large, "federal operation has cost the public considerably less under the conditions, through rates and taxes than would have been the case under private control," Director General Hines declared in a statement of government management.

Mr. Hines believed that the nation and railroads as well gained benefits of a lasting character from the period of unified operation.

The railroad corporations will start work with an important psychological asset, Mr. Hines said, pointing out that the public holds to rigid responsibility any agency performing a public service, "without regard for the difficulties of the situation." He declared the company officials resume direction of their properties under "the most favorable conditions of public sentiment."

The railroad administration will still have a definite work to do after the roads are returned. In addition to providing transportation service, it has been charged with administration of contractual relations between the government and the roads, Mr. Hines explained. The government was obligated to pay \$917,000,000 annual rental to the corporate owners. This, and the other fiscal relations which involved the purchase of great quantities of supplies and equipment, will require a continuation of part of the railroad administration indefinitely. Mr. Hines, however, expects to be able to turn over a practically completed task shortly after May 1.

Answering directly assertions that the roads would be returned "wrecked," Mr. Hines declared they would be restored in a condition which "compares favorably" with that in which they were taken over and in his opinion in better shape to meet demands upon them than they would have been after the two such strenuous years, under private management.

The administration, he said, had made every effort to observe the contractual obligation to maintain the properties in substantially as good condition as it received them. He pointed to the expenditures of approximately \$1,200,000,000 for improvements, repairs and rebuilding as proof of this.

# FAIL TO PROVE ALLEGED PLOT

(CONTINUED FROM PAGE ONE)

was insufficient as a prima facie showing.

When Elmer Kirian, a Centralia railway passenger agent, started to testify about a meeting in the Elks' Club October 20, court sustained an objection and the witness was excused until next Wednesday. The defense attorney said he was still confident of connecting Grimm with the alleged attack on the hall.

"One of our witnesses has the mumps," defense counsel explained to the court, "and we have not produced all the testimony on this point that we expect. However, I take the position that we have already introduced testimony that Grimm was shot when in an entirely different place than the state contends."

The first ex-service man to be called by the defense who was an eye witness testified this afternoon. This witness, who marched in the parade, detailed a raid on the I. W. W. hall and declared that one of the soldiers later wounded had mentioned a raid before any trouble started.

On cross examination, he admitted that his particular platoon was marching at half step when shots began and "he could not see other platoon."

C. W. Green, 32, a railroad employee of Centralia, was perhaps the most important witness summoned on behalf of Eugene Barnett, who is offering an alibi to refuse the theory of the state that he fired on the parade from the Avalon hotel and later hid his rifle under a sign post half a mile from town.

Green testified that he was cutting wood within 40 feet of the sign post in question on the afternoon of the Armistice day and that he continued this occupation until 6:20 p. m. He said he saw no one approach the sign post. By a net work of testimony, the defense previously has sought to establish that Barnett was seen leaving Centralia on horseback about 3:30 o'clock and was seen entering Kopiai where he lived, by six o'clock.

The supposed "murder weapon" was found behind the bill board November 23. Barnett denied he ever saw the rifle.

"Do you mean to say," cross examined special prosecutor W. H. Abel, "that no one could have slipped the gun under that sign without you seeing him?"

"I don't believe he could," said the witness.

Defense counsel said he would later introduce photographs of the scene and attempt to prove that the witness view would have been unobstructed.

In China there are no policemen except in the cities controlled by foreign experts and in the foreign compounds of the Chinese cities.

## COULD NOT WALK UP THE STAIRS

Los Angeles Woman Suffered Six Years from Rheumatism—Soon Relieved by Tanlac

"I had rheumatism so bad that life was simply miserable for me, but Tanlac and rebuilding overcame my troubles," said Mrs. Martha Ashcraft of 222 1/2 Duane St. Los Angeles, Cal. "For the past six years I was in such a wretched condition I can hardly understand how I held out as long as I did," she continued. "I had rheumatic pains in my knees so bad that it was impossible for me to step up or down the stairs, and my hands were so swollen and stiff it was all I could do to hold the broom or dishes. At night I simply ached all over so bad I could not sleep, and, in fact, I suffered all the time night and day. I became very nervous and worried so much over my condition that I became very despondent."

"I tried all the medicines I could hear of but none of them did me any good until I got Tanlac. I was overjoyed to find that it more than met my expectations. All signs of the rheumatism has left me and I am back doing my housework for the first time in several years. My nerves are as steady as they can be and I sleep all night long and never wake up till morning. I haven't felt so fine in years and it certainly is a pleasure for me to tell everybody about Tanlac."

Tanlac is sold by J. M. Ball and all other druggists in every town.

## STIFF JOINTS SORE MUSCLES

Linger Up Quickly Under the Soothing, Penetrating Application of Wizard Oil

In cases of rheumatism and lame back it penetrates quickly, drives out soreness, and limbers up stiff, aching joints and muscles.

Wizard Oil is an absolutely reliable, antiseptic application for cuts, burns, bites, and stings. Sprains and bruises heal readily under its soothing, penetrating qualities.

Get it from druggists for 30 cents. If not satisfied return the bottle and get your money back.

Ever constipated or have sick headaches? Just try Wizard Liver Whips, pleasant little pink pills, 30 cents. Guaranteed.

# FAMO

(CONTINUED FROM PAGE ONE)

After the first application of Famo, you should not have a flake of dandruff.

If the case is stubborn, a little may remain, but not for long.

The germs will be dead and dying—the new growth begun.

Your hair will be like the hair of healthy children; your scalp like a baby's scalp. All itching will be gone.

FAMO Will Win Fight

If it is falling out, your hair is fighting for its life.

FAMO will win that fight by killing the bacilli which kill the hair.

Dandruff is a disease which scientists call Seborrhea.

Freed from the bondage of that disease by Famo, the hair leaps into luxuriant new growth.
