Man wants but little here below,

But, be it understood,

No matter whether high or low,

That little must be good;

Which may explain why men of taste,

Who always get the best,

Their heads by Newton's hats are graced

When they would be well dressed;

For Newton blocks, the critics tell,

In style and texture all excel.

Henry Garben, Proprietor, Minerva Mineral Springs, Cary, Ill.:

Dear Sir—On the 31st of January of this year I visited your spring at Cary, Ill., and personally took samples of water from it. From the very favorable results of my examination and tests, and from the additional fact that Prof. Wheeler found neither nitrates nor nitrites in the water, I am led to the conclusion that the water from your spring is practically free from organic matter and is one of great purity.

When I visited your spring I noticed with much interest the use of your patented device for protecting it from surface contamination, and I believe, as the results of my observation and tests, that the object is fully accomplished.

Yours respectfully,

WALTER S. HAINES.

O. Gilbert Wheeler, chemist, 148 Lake street, says: "Minerva Spring Water is entirely free from organic matter, is of unusual purity, and is especially adapted for table use."
