The change in the basis of payment for the two departments, it was estimated at the conference, will cost the city about \$760,000, of which \$530,000 is in the police department and \$230,000 is in the fire department.

The Republicans will have a majority in the lower house, according to the figures of the Legislative Voters' League, based on the last returns received Monday. The league figures the house alignment to be: Republicans, 85; Democrats, 65; Independents, 2, and Prohibitionists, 1. Gov. Deneen's supporters claim that he will have a working majority for his measures, even if some of the "old guard" leaders refuse to go into the caucus.

Sheriff Christopher Strassheim desires to give an account of his stewardship as custodian of the court house, the Criminal Court building and the jail, so he asked the county board yesterday to select a committee of six to inspect these buildings and make report as to the condition they find the buildings in.

"I do not know what the Democrats are going to do in the next four years," he said, "so I want a report as to how I leave these buildings of which I have had custody. The county building is spotless, the Criminal Court building is as nearly spotless as it is possible to make as old a structure as it is, and the jail is a palace. I have worked hard to get these buildings in the condition they now are in, and I want a record of this condition." Mr. Strassheim's term of office will

The Sunday closing issue is up again, but the fanatics are quarreling among themselves as to whether they will petition for Sunday closing alone, or for county option.

A good chance is offered between now and spring to look over the record made by your alderman and decide whether he is worth voting for again, or not.

The Mayorality fight is on.

A clean sweep of some of those council seats is now in order.

think over that Aldermanship.

The idle rich and their sons have a new pastime and Chicago is the only city which tolerates it. This game is the organization of "leagues" to pick to pieces the characters and destroy the futures of young men, who refuse to be the willing tools of corporations in the council and the legislature.

There is a general demand for the bolition of boulevards.

They are maintained exclusively for the rich at the expense of the poor. They are used exclusively by persons owning automobiles and are kept up by the taxes of people who do not live upon them.

When people of moderate means were enabled to own and enjoy the

People who live upon streets that are not boulevards can only have them improved by putting their hands in their pockets and paying for the improvements themselves.
