LANGSTON AND VIRGINIA.

HIS COMBINATION WITH MAHONE HAS KILLED HIM.

The general impression among the Virginia Republicans is that the recent combination that Hon. John M. Langston made with ex-Senator Mahone, will defeat him for any thing that he may run for in the

State. A prominent Virginian said to a BEE representative Tuesday that Langston made a blunder in making a combination with ex-Senator Mahone.

THE LIBERIAN MINISTER DEAD.

HON. ALEXANDER CLARK TAKEN AWAY BY THE FEVER.

It is reported that Hon. Alexander Clark, formerly editor of the Chicago Conservator and recently appointed minister to Liberia is dead. He died at Monrovia June 1st, of African fever. There is now a vacancy, which will be sought after by aspiring politicians.

THE GIRLS WIN.

There has been a great deal of speculation going on for some time between the genial cashier of the Capitol Saving Bank and Mr. Wm. Harris as to whether females were stronger than males (i.e.) physically. The genial Mac was knocked out a few days ago by being presented with a bouncing baby girl. The appearance of the girl was a surprise to Mac which of course caused Mr. Harris to laugh. It is a very long lane, remarked Mac, that has no turn. The result is Mr. Harris had a baby girl presented to him this week which caused a compromise between the two contentants, by going out and having both babies thoroughly ducked.

PITH AND POINT.

When men are prosperous they are in love with life.

The secret of being loved is in being lovely.

One of the saddest about men is that he may guide others in the path of life without walking in it himself.

It takes a good many trials to make some folks faithful.

Nothing is more refreshing than true politeness.

All that remains of life is death, all that remains of death is a handful of ashes.

THE BEE WOULD LIKE TO KNOW.

How much did Casino Bill and Iago get for their information?

If their records confronted them, if Mrs. M., didn't sit down on him when he was on the school board?

If Capt. Meredith will be turned down for blacklegs?

Will honest men get their dues?

How long will Iago run the Recorder's office?

If young republicans intend to permit their rights and liberties to be taken away from them.

FUTURE EVENTS.

Cardoza will be removed.

Henry Johnson will be recorder of deeds.

The colored public schools will be reorganized.

The ring republicans will be defeated in the next convention.

The history of the treasurer of South Carolina under republic rule will be published in pamphlet form.

People in glass houses will be able to throw stones.

Fools will turn wise.

District republicans will control District affairs.

WHAT THE BEE WOULD LIKE TO SEE.

Prof. H. M. Browne principal of the High School.

A reorganization of the public school system.

Prof. J. T. Layton, musical director of the colored schools.

The colored trustees with more backbone.

More normal school graduates appointed.

Prof. Gregory's accusers above suspicion.

Precursors, libertines and gamblers take less interest in female teachers and the public schools.

Negro men marry respectful white women, especially when they become weak on white women.

Young colored ladies discard all such Negro men.

The genial and accommodating cashier of the Capitol Savings bank made president.

Major Revells supported unanimously by the first separate battalions.

Less back-biting among the colored militia.

The Capitol City Band the great-

est in the world.

The BEE a daily paper in two months.

Rev. Robt. Johnson a D. D.

Some of those with D. D., attached given to those who are entitled to it.

More brain and less empty titles awarded to so called Revs.

Negro editors more independent.

HARNESS ATTACHMENT

Patented

NOVEMBER 13TH, 1888.

J. S. Coolidge's Harness attachment is the best thing of the kind ever put on the market. It is so arranged that any one can secure it to any harness, in three minutes, without cutting the same in any way, right out in the street. It can be taken off the harness in two minutes, and the harness returned to its former style without the least trouble or exertion. It saves time in hitching and unhitching as a horse can be attached to the vehicle in less than 30 seconds and extricated in less than 5 seconds. It is an ornament to the harness and contains nothing in its parts to get out of order, the case being so constructed that the straps can be lengthened or shortened as is required. The Bolt is removable secured so as to allow the spring to be removed when worn. The particular advantage this device possesses over others consists in the construction of the case and arrangements of the straps, whereby the same may be attached to any harness without cutting the same, as has been heretofore necessary in order to use devices of this character.

To the loop of the Bolt may be attached lines 23, said lines being connected with the driver by suitable means, so that if the horse runs or becomes unmanageable, the tightening of the lines will draw the bolt 12, and the spring 24 will cast the plate 16 a-side and release the animal from the vehicle. Any woman or child can hitch or unhitch a horse without the slightest trouble. Thousands of the attachments are being used every day.
