

Chicago Clothing Co

A GOOD STORY.

NOT LONG SINCE A GROUP OF WISE MEN met in council to discuss the stringency of the times. Subject after subject was discussed at length by these representatives of the different marts of trade. The subject,

THE ORIGIN AND Birthplace of Legitimate Business, One Price, COURTEOUS TREATMENT

Was handled in a masterly manner. It being the most important of all the arguments it provoked the most intense excitement among these intelligent people. It was finally decided to loosen a carrier dove, and they watched and watched until the midnight hour, Lo! she returns with something in her bill upon which is inscribed the

So at last this of all subjects was answered. Henceforth the "Banner of Excelsior" will be carried by

CHINESE MATTERS.

Expected Trouble Which Did Not Occur.

Almost every day since the murder of Fong Ah Lung there have been rumors of an impending riot in Chinatown between the members of the two rival factions into which its inhabitants are divided. Last night the report was bruited about that the matter had come to a crisis, as the high-binders had notified the storekeepers to close their stores unless they wished them to be looted. The news reached police headquarters, and was evidently deemed worthy of investigation, as the whole detective force was detailed to patrol Chinatown with the view of discovering the truth of the rumor.

It was found, however, that as usual the report hinged upon a very trivial circumstance, and that there was no probability of a riot or bloodshed in the immediate future. A number of Chinamen from each of the factions happened to meet face to face in the Chinese theater during the evening, and glared at each other in a belligerent manner; but neither party made any other demonstration of hostility, and in a few moments there was not the slightest intimation of anything unusual. The matter has been much exaggerated on several occasions of late, but the probabilities are that no danger of a riot in Chinatown may be anticipated.

BEAR VALLEY.

A Railroad to Be Built into the San Bernardino Mountains.

The San Bernardino *Times-Index* declares that within a short time a railroad will be constructed from San Bernardino up into Bear valley. It is stated that a survey has been in progress for some time and is about completed. It has been done at the expense of a prominent Michigan lumberman, whose name is not given. He has also bonded a good deal of timber land along the proposed route. It is expected that the work will begin some time in August. The track, cars and engines which it is proposed to use will be brought out from Michigan, where they were formerly used in a lumber region now denuded of trees.

The Bear valley region, besides being rich in timber, possesses scenery of incomparable beauty, and is a popular resort for hunters and tourists. At present it is accessible only on burros, and for that reason has only a small number of visitors. If a railroad should be built up into the valley it would soon become a very popular camping ground during the summer months.

Gus Knight, who is one of the proprietors of the hotel in the valley, and a famous sportsman of those parts, while in San Bernardino recently, announced that the fishing in all the streams that flow out of the valley would be unusually good this year. The heavy rainfall of last winter caused the lake to overflow the dam and the large volume of water washed out of the lake a great number of the trout and carried them down the stream. The head waters of the Santa Ana will probably furnish excellent fishing clear through the summer.

ASTHMA

It is a common error to suppose every disease which is attended by oppressed breathing to be Asthma or Phthisis. We have shortness of breath in Consumption and Pneumonia just as we do in Asthma, only that in these diseases it is always present, whereas in Asthma it occurs in paroxysms. Asthma is a spasmodic disease of the lungs, which manifests itself in periodic attacks or "fits." It comes on suddenly and is attended with great difficulty of breathing while it lasts; but when the attack is over the patient breathes almost as well as in health. Nervous, Humid and Dry Asthma are names given to different forms of this disease. Emphysema is another and more inveterate kind of Asthma, while Hay Fever or Rose Cold is a peculiar variety of Asthma which occurs at a certain season of the year. Each of these forms of disease differs somewhat from the others in symptoms, but practically these distinctions are of very little value. It does not matter to the patient which form of Asthma he has, since his sufferings are the same in all. In one case the expectation becomes yellow, and we call it bronchial. In another it is light, and we call it dry. When he coughs up clear water, with a white froth on the surface, we say he has Humoral Asthma. In Nervous Asthma there is very little expectation of any kind. Hay Fever always begins as a crying cold in the head or influenza, and a clear water runs from the nose and the eyes before the Asthma fit comes on. In Emphysema the expectation is generally thick, and continues so in the interval between the fits, while the shortness of breath is increased on the slightest exertion.

Without courage and perseverance nothing is curable. But with these, aided by proper and skillful treatment, Asthma can be cured even after the lungs are exhausted.

Persons desiring treatment by this system of practice can use the remedies at home as well as at our office, and which will cause no inconvenience or hindrance from business whatever. Every case of Asthma is curable. Eastern visitors and invalids will be wise in being cured before they return home.

Those who desire to consult with me in regard to their case had better call at the office for an examination, but if impossible to visit the office personally can write for list of questions and circular, both of which will be sent free of charge.

The Natick House.

NEW MANAGEMENT.

The Natick House, one of the oldest and best known Hotels in the city, has lately changed hands. M. S. Kowell has retired from the management, and the House will hereafter be conducted by Mr. H. A. Hart, a Hotel man of experience. Mr. Hart has already made a number of changes which will prove of benefit to his patrons, and adds very much to the convenience and comforts of the House. The Table and Dining Service especially has been greatly improved.

During the past few weeks the Natick has been in the hands of the painters and decorators. A commodious office is one of its good features. Electric Bells with return calls and Fire Alarm have also been added, and altogether the House is in better condition than ever before for doing business.
