CITY TRUSTEES AND THE PRO-HIBITION MATTER.

Insinuations Against Two Members Arouse Indignation-Will the Ordinance Hold Water?-News Notes and

Special Correspondence to the HERALD.

Pomona, Feb. 22d. Messrs, Elliott and Gallup, the two high license members of our board of city trustees, are indignant at a statement which has been published in reference to them. Since the proceedings against W. M. Woody began it has been said that proceedings of some kind were to be commenced against Elliott and Gallup to oust them from office by the no license people. The statement referred to was to the effect that the grounds upon which these proceedings were to be commenced were such that if the no license people were to "hold up their finger" that Elliott and Gallup would resign and get out. As these are both gentlemen of standing and large means and responsibility, their friends naturally resent the insinuation that they have been guilty of any dishonest or dishonorable act. It is said that on Tuesday a large number of arrests are to be made of persons for visiting "cinegas." It is claimed by a majority of our people that this part of the ordinance will not stand the test of a judicial decision in the higher courts. Mr. Sumner, city attorney, informed your correspondent Saturday, however, that this part of the ordinance was just as constitutional as any part of it. We will doubtless know more about it in the sweet by-and-by, for there is no question but what it will be carried up. were to be commenced were such that Some of the most prominent attorneys of Los Angeles have given it as their opinion, after investigation, that it would not "hold water."

The weather is again genial and pleasant, with floods of glorious sunlight.

The city council will meet tonight, when, it is understood, some radical amendments will be made to ordinance 80, making it still stronger than it is at present

it is at present.

It is said that prosecutions are to be inaugurated against the "cienegas" of this city for failing to procure county

Currier's four-horse team ran away Saturday in town, or rather came into saturday in town, or rather came into town on a break-neck runaway. The driver was unable to control tnem, and soon after entering the city one of the horses fell down and was dragged some distance before the team was stopped. The driver threw himself off the wagon about this time, but was miraculously not hurt.

The wires for the San Antonio Electric Light company are to be erected at once in this city. It will be sometime near midsummer, however, before the whole machinery and paraphernalia of the electric company will be in working order. But it is coming and then will follow other enterprises.

The Los Angeles county district lodge.

The Los Angeles county district lodge of the I. O. G. T. was in session yesterday and last night, and a royal time was had. Large delegations came from Los Angeles and other places. A special train brought the Los Angeles delegates, who brought with them a band of music, and on their arrival marched from the motor through Second street to the hall, headed by the band. A number of the grand officers were present, including Grand Secretary W. P. Netherton.

An effigy was suspended from Mc-Comas's building Monday night. It, was labeled "King of five thousand." Such work is not endorsed by the highlicense people of this city, who regret that this thing was done and condemn it. demn it.

It is expected that when spring shall have fairly opened the trail to the summit of Old Baldy will be widened and much improved, so that ladies can ride up with comparative ease.

REDONDO.

Yesterday, Washington's birthday, was appropriately celebrated at the seaside. The stars and stripes waved from all available points and many visitors from the Angel city took advantage of the hol-

iday to spend it at the beach. After lunch the dancing hall was thrown open and the light fantastic was tripped till about 4 o'clock. All present decided the afternoon could not have been more pleasantly spent, and appreciate the thoughtfulness of Manager Prussia in kindly contributing to their pleasure. CHAT.

Little Interviews Which Were Noted Yesterday.

R. M. Shearer, representative of Gast-Paul Bank Reporter, St. Louis-I have been making a tour of this section of the country and find that the banks here will compare favorably with any section of the country. As a rule they are in a very prosperous condition, and their methods of conducting business are sound, conservative and far sighted. In fact, I have met with bankers here, who could give valuable pointers to their confreres in the east. They are thoroughly in line with the spirit of progress and enterprise which I find everywhere in Southern California, and the day is not distant when they will be able to induce eastern capitalists to pour their millions in here for investment purposes. Yes, sir, your bankers in Southern California are a pushing,

in Southern California are a pushing, wide awake set of men.

Bob Eckert—Among the surprises which California has in store for eastern tourists, and especially Englishmen, is the California cockle. Britishers have grown so accustomed to the tiny bivalve which in England is served as the cockle par excellence, that when they are served with the large and fat and well flavored California cockle they go into frenzies of epicurean delight. The California cockle is in the front row, and is another element that adds luster to the elevier of this blessed state.

another element that adds luster to the glories of this blessed state.

Clerk Bray, of the county clerk's office—Quite a number of persons who apply for marriage licenses supplement the application with the request that the same be withheld from the newsthe same be withheld from the newspapers. Of course we can do nothing in the way of suppressing the information, but they think we ought to do so. As a rule we grow suspicious of the person who wants to suppress the fact that he or she is about to be married. There is generally something wrong. It may be that there is a decided discrepancy in the ages of the couple, but as a general thing the man or woman who wants to keep the marriage license out of the papers, has done a wrong in the past and is afraid to let the marriage be known. My word of advice to any lady whose intending husband seeks to suppress the publication of the license, is to go slowly, and take a few days to inquire into the past life, the hidden antecedents of the past life, the hidden antecedents of the intending groom. It may save a good deal of trouble later on.

william Llewelyn, iron founder—It is only a question of time until a great manufactured iron producing center is located somewhere in Southern California. With the constant demand for heavy structural materials arising from heavy structural materials arising from the steadily increasing growth of the building industries there will have to be a great increase in the number of mills and foundries. When the road from Salt Lake enters Southern Califor-nia, tapping the immense iron ore beds and coal fields lying along the route, we will certainly have to establish some will certainly have to establish somewhere in the western foothills a city of smelting foundries, a second Pittsburg

here in California. Manager Lehman of the Grand opera house—It pays to bring first-class at-tractions to Los Angeles. Mr. Jefferson is well satisfied to come here, and his business can be taken as an indication. In four performances he played to over \$6000, certainly a splendid average for each performance. Jefferson will return here in March 1893 and play Rip Van

THOSE ORANGE TREES.

Mr. Marks Says They Were Chopped Down by Mistake.

Mr. Marks, whose men chopped down the orange trees on the newly purchased property of J. Gager on Central avenue, states that the tree cutting was a mistake. He says that he sold the entire lot of trees for \$60, but that they were covered with vermin. He further says that he has offered to buy seventy-five new trees for Mr. Gager. He also claims that there was no fence around the

On the other hand, Mr. Gager claims Marks's lots by a roadway, a high evergreen hedge and by a row of eucalyptus trees. He proposes to get satisfaction for his 12-year-old trees whether they were covered with vermin or not.
