Forecast for Southern California: Fair Forecast.

John Freeman, who was elected constable at Downey, was stated recently in the papers to be a Republican. This was an error. He is a square-toed Democrat and does not desire being

called by any other name. There will be a People's party meeting at Banquet hall, Downey avenue and Chestnut street, East Los Angeles, this evening. Candidates will be present. Every one invited.

On Sunday, the 27th, the Santa Fe route will change its time, and it will put on a new fast first-class train to Chicago, which will make the run seven hours less than the present overland and 30 hours less than any other line to the east. The management of the Southern California railway deserves credit for the inaguration of this new service. The train will be called the Ohicago and Los Angeles limited.

Dr. C. E. Smith of East Third street wishes to state in regard to the statement in Thursday morning's HERALD that his son took about two grains of atropine by mistake and that he or Dr. Talcott not having a hypodermic syringe at hand sent for Dr. H. B. B. Montgomery on Twenty-ninth street, he being the nearest physician in the vicinity who had a hypodermic syringe and battery, and that proper credit is due to Dr. Montgomery for his timely aid and service and kindness in assisting to save the young man's life.

#### ANOTHER REPUBLICAN.

He Gives More Forcible Reasons Why It Should Be Mayor Rowan.

"I noticed an interview in the HERALD a few days ago where a Republican said he would vote for Thomas E. Rowan for mayor." So said a well-known Springstreet merchant to a HERALD reporter yesterday. "I want to indorse that man's views, and add some more myself. I have known Mr. Rowan for many years. He was educated in a many years. He was educated in a political way by ex-Gov. John G. Downey, a man who saved California several million dollars by refusing to join in a steal which would have multiplied his fortune several times over. I fully believe that since the American occupation of California no better man for mayor has been presented to the people of Los Angeles than Thomas E. Rowan. I know myself that no honest man has gone to him at any time for help in need and been refused A little incident I happen to be aware of will help people who do not yet know how they will vote to appreciate Mr. Rowan's character. An estate was to be settled and appraised, and a bitter quarrel existed between the parties as to what should be done. It was finally agreed by both sides that the matter should be left to arbitration; one man was to be chosen by each side and he was, if necessary, to choose another. When the report was made it was found each side had chosen Thomas E. Rowan and they left it to him to decide, agree-ing no third man was needed. I don't know how others might feel, but I would rather have that compliment paid me than be mayor of Los Angeles. "No voter knows much about Mr. Tufts. His official actions in the council seem to indicate that he may be a sort of Jabez Banbury statesman. It appears that Mr. Banbury's queer ideas of turning a penny, as shown in the HERALD, left him a long way behind his ticket. As Abraham Lincoln put it neatly, 'you can't fool all the people at

"But with Thomas E. Rowan for mayor there are brighter days ahead for Los Angeles city. All the qualities which have led the people to vote for Henry T. Hazard for mayor Mr. Rowan has and some of Mr. Hazard's faults you will not find in Rowan's case. I shall be disappointed if Mr. Rowan does not pull through, but if the people show their usual good sense he will beat his opponent two to one."

changed.

Holliday and Burton won some money from a miner who was visiting the city, and that Burton, who seemed to hold the mutual winnings, refused to make an equal division. Whether this be true or not it is, however, stated by others that the shooting was brought on by a prior misunderstanding about some gambling transaction.

At 112 West Second etreet is a cigar stand about 10x12; in the rear is a "poker room," shut from the public gaze by a screen door. In the little poker room are three tables and several chairs. At about 9:30 last evening Burton and seve al others were seated around a table, just having finished a game. Holliday entered the cigar stand and walked back into the poker room, saying to Burton that he wished to speak to him. Burton replied that he did not wish to talk with him. Mr. Wright, one of the proprietors of the room, stated that as soon as Holliday entered he anticipated trouble and finally succeeded in backing Holliday to the screen door but that Holliday persisted in talking with Burton and gave expression to some "fighting talk." Another witness stated that Holliday

on reaching the street fired five shots in rapid succession at Burton. Holliday then turned and ran up the alleyway between the cigar store and South Spring street. While discharging these five shots rapidly from a hammerless Smith about the center of the sidewalk opposite the cigar stand. The distance beeight feet. One of Cleveland's Baking Powder

There was a fusilade of pistol shots last evening about 9:30 o'clock on West Second street, between Spring and Main. The firing took place in front of Wright & Burton's cigar stand, adjoining Meleted's restaurant. The principals were Buck Holliday and J. P. Burton. It is known that six shots were ex-A witness to the affray stated to a

and the marksmen stood within about

eight feet of each other. It appears from the statements of several people who were present that the difficulty was brought on in consequence of a former misunderstanding between Burton and Holliday. This quarrel seems to have arisen over a game of cards. Some one who is evidently posted on the ins and outs of the "poker room" in the rear of the cigar stand kept by W. S. Wright and Burton, stated that a short while ago Holliday and Burton won some money

struck Burton and after several blows were exchanged, Holliday struck Bur-ton on the head with his revolver. Holliday retreated towards the door and to the sidewalk, thence into the street, and & Wessen revolver, Burton was standing tween the two men was not more than ran up the alley he ran to the entrance darkness. However, it is claimed by several of the employes in Melsted's restaurant that more than six shots were fired. One man states that he heard 10 shots, and that five were fired in rapid succession, as if by one man. One of the waiters rushed out to see what was the matter; he felt something strike his shoe, and he rushed back to see what that was. A flying bullet had knocked off a portion of the heel of his

alleyway, as if making for the 10:45 Mrs. Nettie Harrison north-bound train. A telephone meseage was sent to the central police station and Clerk Cottle telephoned to the train master at the Commercial-street depot, asking him to hold the train. Detective Bosqui and others went to the station and looked closely through the cars, but evidently Holliday was not on the train. Officer Huswho was in the vicinity at the time of the shooting, arrested Burton and took him to the station. On Burton's person was found a 32-calibre Smith & Wesson hammerless pistol. Only one barrel had been fired. There was a scalp wound on the top of his head, where he had been struck by Holliday's pistol. The wound is slight. Burton went out with an officer to secure bail, but soon returned had his wound dressed in the receiving hospital. where he remains until the disposition of the case this morning. No charge

At a late hour this morning Holliday had not been found. It is hardly possible that he left on the 10:45 train, as the alleyway through which he ran was very dark, and besides he had scarcely

use of the foot.

Many persons are unable to sleep on their left side. The cause has long been a puzzle to physicians. COMPOUND & OXYGEN,

—As prescribed by—

DR. M. HILTON WILLIAMS

137 S. Broadway, Lov Angeles

Is the most successful remedy now employed by the medical profession in the cure of Head, Throat and Lung affections.

Ozona is the professional or technical name given to an advanced form of catarrh, in which ulceration has eaten through the membrane lining of the nose to the cattilage of the bone. Any case of catarrh may end in ozona, but it most frequently occurs in those who are naturally scrofulous. The discharge takes place through the nostrils or the throat, and is venerally of a yellowish or a greenish yellow color, frequently tinged with blood, and almost always attended by an offensive small. In the language of Dr. Wood, of Philadelphia: "The disease is one of the most obdurate and disagreeable which the physician has to encounter. In bak cases the breath of the patient becomes so revolting as to isolate him from society, and render him an object of disgust, even to himself"

In some in tances pieces of bone become separated and slough off, leaving deep. un-

even to himself"

In some in-tauces pieces of bone become separated and slough off, leaving deep, unhealthy ulcers, which secrete a bloody matter, and are extremely difficult to cure.

After ozema has continued some time the sense of smell becomes impaired and often loct.

Deafness is one of the most common consequences, and results from its extension through the eustachian tube to the internal Pains in the head and over the frontal sin-uses, impairing memory, and even insanity frequently springs from its extension to the brain.

irequently springs from its extension to the brain.

The great danger, however, because the most common, is that it will extend downward and affect the lungs. In most cases of pulmonary disease catarrh is present to some degree, and in many instances it causes a large share of the patient's discomfort.

Besides these grave consequences, all of which are liable to spring from scrofulous catar hor ozena, there are others which, if less dangerous, are sufficiently unpleasant. It occasions great unhappiness to thousands of both sexes by isolating them and preventing their settlement in life. An offensive running from the nose, with foul breath, is about as great a calamity as can befall young people. Every disease of this kind can be cared by our new system of practice. Consultation free, and prices within the reach of all.

Those who desire to consult me in regard to their cases had better call at the office for an examination, but if impossible to visit the office personally can write for a list of questions and circ lars, but of which will be sent free of charge Address
