swindling him gets the worst of the game himself, as the few instances given below will show.

The neighborhood of the Astor house and the City Hall park is a favorite resort for these "crooks," owing to the proximity of the Jersey ferries. Not long since a gentlemen was noticed by one of the fraternity of swindlers cross ing the park, and, as he stopped to inspect the architectural monstrosities of the postoffice, the operator approached

and said: "Can I be mistaken? Is not this Mr. Edwards, of Boston?" "No, sir, I am not," was the reply," "My name is Andrews, I'm from Chicago." The opertor begged his pardon. The likeness to his friend Mr. Edwards, of Boston, was so remarkable it misled him, and he withdrew. The gentleman had hardly gone fifty feet from the spot where he had been accosted when a well dressed man of perhaps thirty five slapped him on the back and said: 'Why, An-drews, old boy, how are you? What drews, old boy, how are you? What are you doing so far East as this? How are all the boys in Chicago? Come in and have a drink and tell me the news? Mr. Andrews accepted the invitation, and bottle after bottle of champagne was ordered and drunk, always at the expense of the operator. Mr. Andrews explained that he had only about \$10 in his pocket and a check for \$8,500 that he was going to cash at the bank the next morning. This he showed his friend, and the sight of that and the diamond studs and gold watch and chain he were were enough to make the "crook" determine to "play" him. Mr. Andrews dived with his "old friend," went to the theatre and then on a spree all over the city, the friend paying all expenses, and at 4 o'clock in the morning they parted, after Mr. Andrews had made an engagement to meet his companion at 9:45 the next morning and go to the bank, get the check cashed, and then "own the town." As he stepped into the hack the "crook" called and paid for, he said, feeling in his pockets:
"By the way, some one in the last dive must have picked my pocket of that \$10 bill. Lend me \$50 till morning, as I haven't a cent in my pocket." tainly, here it is. Remember 9:45 tomorrow, or, rather to-day, sharp. Good-

Mr. Andrews has not yet shown up He has probably returned to New Orleans, where, under his own name, he runs a very popular and well-paying

P. T. Barnum was picked up a few weeks ago at the corner of Fifth avenue and Twenty-third street by a gentleman who insisted that he knew him. and that his name was Robinson and came from Scranton, Pa. It was not till Mr. Barnum had convinced him that he was from Bridgeport, Conn., that he was induced to depart.

Not long since a man, loosely put tosauntering down the Bowery, when he know him well and treated him to a drink for old acquaintance sake. Then a visit was proposed to one of the many side-shows, where a gambling establishment is the "raison d'etre." Both men joined in a game known as the "envelope game," and the countryman won | there is certainly no place for its clabsome four dollars. The dealer thought he oration in these columns. had encouraged him sufficiently, and be gan to win back from him. The supposed countryman stopped playing and pocketed what was left of the winnings. The proprietor tried to persuade him to continue playing, and he finally consented, saying, "I guess I will, but we will adjourn to police headquarters for the continuation, so as to give the superintendent and commissioners a chance." Then throwing open his coat, he showed his credentials as a central office detective, and took the implements of the game as well as the dealer, the proprietor and the "capper" to the stationionse.

A well known club-man in the city was approached by one of these operators on Fourth avenue, near Twentysixth street, one morning as he got off the street-car. "My name is not Johnson," said the intended victim, and then added: "It's Thompson, and I don't come from Flushing, L. I., but from Kingston, Ulster county, N. Y."
The operator of course begged his pardon and departed. But as the gentle man from "up the river" neared the fountain in the center of Madison square on his way to his club confidence-man No. 2. a partner of No. 1. met him and said: "Well, Thompson, upon my soul I'm glad to see you! How's all the folks up in Kingston?" "They're pooty well. How's your

folks?" "Good, thank you; what's the news

up in Ulster county?"

"Well, there ain't much news, 'cept I've been gitting married lately," and here a deep blush and a genial smile spread over the elderly gentleman's

"You don't mean it; who did you

"Little Katy; you know she lived two houses below the hot..." Why, certainly I knew her; lived just below the hotel. So you married little Katy?"

"Do you know my little Katy, my little girl, my dear little wife ?" said the intended prey, as though delighted at meeting some one who knew his beloved Katy. Then encirling the operator with his arms, and getting a grip with his right hand on his left wrist, he began to hug the slim figure of the "crook" with the vigor of a polar bear, at the same time expectorating a miniature Niagara of tobacco-juice over the expanse of shirt bosom displayed by the lowcut vest of the swindler, scraping in a paroxysm of delight his muddy and heavy shoes down the irrepreachableclad shins of his new-found friend, and landing on his neatly shod feet with the weight of an elephant. Finally the operator was turned over to the tender mercies of a park policeman.

An amusing case was that of a young An amusing case was that of a young companions as on the enemy. Some of stockbroker, who was standing late one the long swords of the middle ages night in front of the Firth Avenue bote!, finishing his cigar before going to bed, when he was spoken to by a very gentlemanly-like man, who, after speaking of the weather, suggested a drink by way of a nightcap. The offer was accepted, and while the drinks were being poured out the nice looking man he would thought go round to play faro for half an hour. Would the young broker like to go and see him play and perhaps make a little money himself? The young broker extends 3,300 feet below the surface.

said that he would, and together they went to a well-known gambling house in the neighborhood. As they entered the room the proprietor said to the young broker: "Good-evening, Willie; could you sell that Lake Shore for me to-day ?"

English Journalism.

The first weekly newspaper was established in England, we are told, by one Nathaniel Butler, in 1622. Before that time English gentlemen who lived on their country estates a portion of the year, clubbed together and employed a news writer, who gathered the gossip of the day and sent it to them at regular intervals. These writers were sometimes retired captains, sometimes printers, sometimes men who made this work a profession by itself. A peer kept his special correspondent and paid him a handsome salary. Milton, Dryden, Andrew Marvel and Defoe were all contributors to the weekly news paper press during the Commonwealth The first daily paper in London was called the Courant. It appeared in 1702, three days after the accession of Queen Anne. It was about the size of a single page of the Spectator, was printed only on one side, and contained nothing but a few scraps of intelligence that would hardly pass for news at this Till the year 1729 there was no day.

such thing as parliamentary reports, and these were made at first against the wishes of the house of commons and the house of lords, whose members thought the press had no right to discuss political questions. The plan of reporting was for two or three persons to steal into the gallery, listen attentively, then retire to an alchouse, where they compared memories and wrote out the result. This was for several years the labor of Dr. Johnson, who did the work in a garret or behind a screen at St. John's gate. The right of the press to criticise the royal speeches and the conduct of parliament came through the North Briton and the arrest of Wilkes, before which time such liberties had not been attempted. To the love of freedom may be ascribed the letters of Junius, which were published soon afterward by Sampson Woodfall in the Public Advertiser. This newspaper had at the time a circulation of 75,000 copies monthly. It thereby increased in popularity, and took a position at the head of the London press. The Morning Chronicle was started about the same time, and greatly changed the character of parliamentary reporting, principally through the re-mathable memory of William Woodfall, who, it is said, could walk down to the house of commons with a hard-boiled egg in his pocket, and then returning without a single scrap of paper write out fifteen or sixteen short columns of speeches. A story somewhat similar is told of Coleridge, who, having to report a speech of Pitt, fell asleep

from others, he proceeded to write out a brilliant oration, whose authenticity was only discovered some time afterward. The Morning Chronicle invented the leading editorial, which, through the skill and learning of Coleridge the Morning Post gether, and wearing clothes that did not Courier, was developed into fit him particularly well, so that he a work of art. This was near the close looked like a well-to-do farmer, was of the eighteenth century, about which time English journalism began to take was accosted by a man who claimed to the shape it has at present, with editorials, public reports and other departments covering every branch of news.

and only heard a few words of the end

of it; yet having received a few hints

But as Charles Peabody, the author of this interesting volume of Cassell's Popular Library, remarks, the story of English journalism is yet to be told, and

" Lynch Law." This term, as commonly in use in the United States, is a personification of violent and illegal justice. According to some authorities, the term was derived from a Virginia farmer named Lynch. But it can be traced to a much carlier date in Ireland. When, in 1493 James Fitzstephens Lynch was mayor and warden of Galway, he iraded largely with Spain, and sent his son thither to purchase a cargo wine. The young man squandered the money intrusted to him, but succeeded in running in debt for a cargo to a Spaniard, by whose nephew be was accompanied in the return voyage to Ireland, where the money was to paid Young Lynch, to conceal his defalcation, caused the Spaniard to be thrown overboard, and was received at home with great honor. But a sailor revealed to the mayor of Galway the crime which his son had committed. The young man was tried before his own father, convicted and sentenced to be hanged. His family and others' determined to prevent the execution. The father, finding the sentence could not be carried into effect the usual way, conducted his son o a window overlooking the public street, with his own hands fastened the halter attached to his neck to a staple in the wall, and acted as his executioner. In the council books of Galway there is said to be a minute that James Lynch, mayor of Galway, hanged his own son out of the window for defrauding and killing strangers, without martial or common law, to show a good example to posterity.

Two-Handed Swords.

The claymore, once famous in Scot tish history, was a very long sword, with a hilt so large that it could be grasped by both the hands of the warrior who wielded it, and when the tremendous weapon was swung around by any of the brave

"Scots, wha ha' wi' Wallace bled, Scots, wham Bruce has aften led,

there was every reason for the opposing soldiers to want to get as far away as possible. Long two-handed were in use in various parts of Europe during the middle ages, but it is from Scotland that we have heard the most about them.

Some of the German swords, used by the soldiers in the French religious wars, were enormous two-handed weapons, with sharp points, jagged edges, and great spikes near the base of the blade; but these heavy swords were used only by soldiers who were uncommonly strong and skillful; for any awkwardness on the part of a man | Guiteau's body and brain. According to an swinging such a tremendous blade was apt to inflict as much injury on his were used more forshow and ceremony than for actual service. The sword of Edward the Third, which is preserved in Westminister Abbey, is seven feet long and weighs eighteen pounds. This, it is said, was carried before the king in processions, and was probably never used in any other way .- St.

Nicholas. The deepest mine in the world is the

NEWS OF THE WEEK.

Eastern and Middle States.

Tax inquest into the accident to the train from Long Branch resulted in the coroner's jury finding the New York and Long Branch Rathroad company guilty of gross carelessness

General Grant was one of the witnesses. A FIRE at Oregon, N. Y., destroyed Hoffman's paper mill. Three young men-Theodor Gardner, Albert Hadden and Frank Lamareux -who had been on a spree and gone into the building to sleep off its effects, were burned to death.

THE Hon. Ichabod Goodwin, the first war governor of New Hampshire, died the other day at Portsmouth, aged eighty-six years.

WILLIAM KREAMER, of Philadelphia, 6f years old, was flogging his sixteen-year-old step-son in a terrible manner, at the supper table, when the boy seized a carving knife and plunged it into the man's neck, inflicting a

wound which resulted in almost instant death. A "National Educational Assembly" is to be held at Ocean Grove, N. J., on August 8 and 9. The President and his cabinet have been invited to attend. Senator Blair, of New Hampshire, chairman of the committee on education and labor, in the United States Senate, and Commissioner Eaton, of the bureau of education, will make addresses.

South and West.

OFFICIAL returns give Moody, the Republican candidate for governor of Oregon, 1,428 majority, and George, Republican candidate

for Congressman, 3,365 majority. Two horse thieves-Jack Hite and Mike Chambers-were shot dead near Oregon City, Or., while attempting to escape from a posse of officers.

COLONEL L. W. R. BLAIR, leader of the South Carolina Greenbackers and their gubernatorial candidate in 1880, was shot and killed by Captain Hail during an altercation at a political meeting at Camden, S. O. Hail was put under

Particulars of the Fourth of July disaster to an excursion boat on the Ohio river showed that the catastrophe was of an appalling character. The steamer Scioto, with a party of 500 excursionists on board, came in collision with the steamtug John Lomas about 8 o'clock P. M. near Mingo Junction, Ohio. The Scioto sank within three minutes in fifteen feet of water. The tug was only slightly injured, and saved a great many of the passengers of the Scioto. The Lomas ran her bow, which sat low in the water, under the guard of the Scioto, and broke a large hole in her bow. She sank in eighteen feet of water within one minute, and went down like a lump of lead, leaving about of the wildest confusion followed. The collision was entirely unexpected, and many who sat on the guards were thrown overboard. None in the engine-room and lower deck had time to escape. Men, women and children were all struggling together in the water crying pitcously for help, and it was at first supposed that at least 100 lives had been lost; but many of those reported missing were found to have escaped. On the day after the disaster fourteen bodies were recovered, and about thirty persons who had been on board

were still missing. Ar the North Carolina Democratic State conrention in Raleigh a full ticket, headed by Thomas Ruffin, the present incumbent, for supreme court judge, was put in the field.

L. P. SHERMAN, internal revenue collector. and brother of General W. T. Sherman and Senator Sherman, of Ohio, fell from the roof of his house in Des Moines, Iowa, sustaining probably fatal injuries.

GREENBACKERS and Independents of Alabama, at a convention in Birmingham, nominated a State ticket headed by J. L. Sheffield for governor, and it was adopted by the Republicans at their convention, held in the same place on the same day.

THE Arkansas Republicans have nominated

Colonel W. D. Slack for governor. A woman and two children were found starved to death in a lonely place in Van Buren county, Ark., in the mountains. It is believed that the woman fell sick, and the children being too young to secure aid for her, perished miserably. A third child was still alive and had gnawed a piece of flesh from the arm of one of her dead sisters. It died soon after the discovery was made.

A CYCLONE in Arkansas killed twenty head of cattle near Van Buren, and of three men who were herding them one was killed outright and the other two fatally hurt.

NEAR McAllister, Indian Territory, the Rev. W. J. Spaugh, a Methodist minister, who had incurred the enmity of some young Indians whom he had corrected in school, was set upon in a lonely spot, and after a determined struggle, killed.

AFTER all the missing had been accounted for it was found that the number of lives lost by the sinking of the excursion steamer Scioto in the Ohio river, was not far from one

GUY SMITH, the thirteen-year-old son of a well-known citizen of Kirkwood, a suburb of St. Louis, quarreled with his grandmother about his food at the breakfast table and threw the dishes around, whereupon he was whipped by his father, After a crying spell Guy went into his grandfather's room, and in a minute returned with a double-barreled shotgun, and walking up to his father he deliberately placed the muzzle of

the weapon within a few inches of his body and fired. Mr. Smith sank to the floor and expired. The boy was arrested. DISPATCHES from various points state that the Western wheat crop has fulfilled all expectations. It is one of the largest that has ever

been grown. A WATERSPOUT in Taney county, Mo., extended over half a mile in width and swept away many fields of corn and wheat and much

From Washington,

THE advices of the agricultural department about the crops are of a very encouraging character from every section of the country. The wheat and oat crops are turning out even better than was expected a month ago. The reports in regard to corn are improving every day. In the main it is coming on rapidly and most favorably in spite of the backward start. The returns of the grass crop show it to be un-

usually heavy. Duning the fiscal year just ended there were 46,632 agricultural patents issued from the general land office. This is an increase over the issue of the previous year of 20,022 pat-

ente. An official account has been given by Dr. D. S. Lamb of the post-mortem examination of agr. ement with the Rev. Dr. Hicks, the custodian of the body, the brain was to be removed and examined without being cut into, and then taken, "properly guarded and protected," to the Army Medical museum, where it would be photographed and a cast taken. Then the internal structure of the brain was to be observed and parts of it set apart for microscopical examination. The entire operation was to be completed as far as possible in one day, and notes were to be taken in duplicate. The examination was conducted by Dr. Lamb, assisted by Drs. Hartigan and Sowers and Mr. Schafhirt. Dr. Lamb said in his report that no disease of the brain had been discovered by the dissec-

FURTURE nominations by the President William E. Stevens, of New Hampshire, to be consul of the United States at Smyrna; Stephen

H. Smith, of Tennessee, to be consul of the United States at Nuevo Laredo, Mexico-THE Senate, in executive session, confirmed the following nominations: John Davis, of the District of Columbia, to be assistant secretary of state; John M. Francis, of New York, to be minister resident and consul general to Portugal; Eugene Schuyler, of New York, to be minister resident and consul general to Rou-

mania, Servis and Greece. SECRETARY CHANDLER has telegraphed Engineer Melville, of the Jeannette, to return home rom Siberia.

THE department of agriculture will hence forth publish a monthly bulletin of freight rates for the information of farmers,

THE census bureau has issued a special bul letin showing the number and size of the farms in the United States in 1880 and the kind of tenure by which they were held. The number of farms was 4,008,907. Of these 2.984,306 were occupied by the owners, 322, 257 were rented at a fixed money rental, and 702,244 were rented for shares of the products Of the total number of farms, 4,352 were less than 3 acres in extent, 134,889 were above I acres and less than 10, 254,749 were between 10 and 20 acres, 781,474 between 20 and 5 acres, 1,032,910 between 50 and 100 acres 1,695,983 between 100 and 500 acres, 75,972 be tween 500 and 1,000 acres, and 28,578 con tained 1,000 acres and upward.

The census bureau has issued a special bul letin showing the extent and value of the fishing industries of New Hampshire, Rhode Island and Connecticut, as follows : In the fish eries of New Hampshire 414 persons and a capital of \$209,465 are employed, and the value of the products is \$176,684. The Rhode Island fisheries employ 2,310 persons and \$596,678 capital, and the value of the products is \$880,915. The fisheries of Connecticut employ 3,131 persons, and \$1,421,020 capital, and the value of th products amounts to \$1,456,866.

FORTY-SEVENTH CONGRESS.

The river and harber appropriation bill was further discussed....The House bill to reduce internal revenue taxation was finally agreed to by the Senate finance committee, and, as by the Senate finance committee, and, as amended, was subsequently reported to the Senate by Mr. Morrill. The committee struck out the proviso which allowed a drawback on all unbroken packages of checks, matches, cigare, cheroots and cigarettee, and amended the bill so as to provide that the reduction shall not take effect till after the 1st day of May, 1883.

The House joint resolution to allow to the employes of the government printing office pay for time lost during the Garfield obsequice. was passed.... The Bollins bill providing for a commission to inquire into the subject of constructing from or steel steamers for commercial purposes, convertible by the government into ships of war, was reported favorably and placed on the calendar.... Messrs. Hawley, Miller, of New York, Hill, of Colorado, Bayard and Hawnton, were appointed to attend the and Hampton, were appointed to attend the Newburg, N. Y., celebration.

House.

Mr. Robinson introduced a resolution of in-quiry as to the report that the British minister had called upon Secretary Frelinghuyeon and criticised remarks delivered in the House... A substitute for the sandry civil bill was reported ...Bills were passed making appropriations or public buildings at several places.

In discussion on the naval appropriation bill a fierce personal passage occurred between Messrs. Robeson, of New Jersey, and Whitthorne, of Tennessee, and the House for a time was thrown into uprosr. Mr. Robeson replied to certain charges made against his administration of the navy department by Representawas thrown into uproar. Mr. Robeson replied to certain charges made against his administration of the navy department by Representative Whitthorne, who, as chairman of an investigating committee in a previous Congress, conducted an inquiry into his management of naval affairs. During his speech Mr. Robeson intimated that Mr. Whitthorne had made away with the school fund of the State of Tennessee, whereupon Mr. Whitthorne sprang to his feet, dashed into the area and strode toward Mr. Robeson with uplifted arm and clenched fist, exclaiming at the same time with a votee trembling with anger, "That is a lie, and whoever repeats the statement is a liar." At once the house was in a tumult, members hurrying from all sides to the scene of impending conflict. A collision between the two men was averted, however, and Mr. Robeson went on with his speech. Afterward Mr. Whitthorne replied to Mr. Robeson, concluding as follows: "I have without fear gone on in the discharge of my duties. And having done that duty when accused of improper motives, or improper conduct, I stand in the face of the country with all the responsibility which belongs to me, and attach to the forehead of that member 'falsehood and perjury.'" Mr. Robeson in rejoinder said that he was willing to leave the matter to Congress and the country, 'without regard to any suggestions from a man who recognizes Congress and the country, "without regard to any suggestions from a man who recognizes himself in the portrait I have painted." The bill was passed by a vote of 119 years to 75

On motion of Mr. Hiscock, of New York, the On motion of Mr. Hiscock, of New York, the Senate joint resolution was passed, authorizing the payment temporarily of certain employes of the war department...The speaker an-nounced the appointment of Messrs. Beach, Ketcham, Curtin, Burrows, of Michigan, Knott, Townsend, Ellis and Ranney as the se-lect committe on the Newburg centennial cele-bration. SCIENTIFIC NOTES

A seed of radish, fifteen years old, has grown freely on being planted. Oysters of a green tint are said to be infested by a vegetable parasite. Nerve-depressing and sleep-producing properties have been discovered in

A Prussian manufacturer has found that treating the woods with ozone greatly adds to the durability of pianos used in warm climates.

The largest telescope ever designed is now in process of construction at the works of Alvah Clark & Sons, at Cambridgeport, Mass. The instrument is intended for use at the Lick observatory, California, and will cost \$50,000. It will have a thirty-six-inch object glass. The largest one previously designed was a thirty-inch glass for the Poltowa observatory, Russia. The government observatory at Washington has a twentysix-inch instrument.

Analyses have been made by Professor C. Virchow of the amount of water and extract in the flesh of differ ent animals, with the view of obtain ing some general data for the introduc tion of a method whereby the value of meat might be determined. The differences were so slight, however, that no results of any value were secured. Veal contained more water than beef, lean beef had less than well fed beef, and unhealthy meat a greater amount than sound meat. The same holds good for the extract.

Mr. Edward Muybridge predicts that in the near future the aid of photog-raphy will be sought to determine the result of all important horse races. With an invisible thread stretched across the track to operate a camera slide, it is a simple matter to photograph the animals in the twinkling of an eye as they pass the winning post. In the operation of this system there could be no "dead heats" on account of the disagreement of judges, as the record of the photograph would show with unerring accuracy the winner of the race.

Rubbing it Out.

The editor of the Courier, Mr. W. F Cook, was seized a few mornings ago by a terrible pain in the left shoulder and neck. Having been favorably impressed for some time with the virtue of an article recom mended for all sudden pains, and especially rheumatism, we rubbed the offending part and in less time than we can write it, relief came. That article is St. Jacobs Oil .- Cana joharie (N. Y) Courier.

Of 185 Methodist churches in Vermont nine have a membership of over 200 each. Total members in full, 15,-The number of additions by confession during the last year was 600. The Sabbath-schools number 17,751 scholars, 2,531 officers and teachers in 228 schools. Few of these churches date back more than fifty years,

"I believe St. Jacobs Oil to be the very est remedy known to mankind," says Mr Roberts, business manager of this paper Milwaukee (Wis.) Sentinel.

The people of Geneva, Switzerland, xpend more money for wine than they to for bread, the average amount spent by each person for this article being 300 francs yearly.

WATERTOWN (MASS.) CATTLE MARKET. WATERTOWN (MASS.) CATTLE MARKET.		

CARD-A handsome set of cards for Sc. stamp.

Dr. B. V. Pience, Buttalo, N. X.: Dear Sir—My wife had suffered with "female weaknesses" for nearly three years. At times she could hardly move, she had such dragging pains. We often saw your "Favorite Prescription" advertised, but supposed like most patent medicines it did not amount to anything, but at last concluded to try a bottle, which she did. It made her sick at first but it began to show its effect in a marked improvement, and two bottles

cured her. Yours, etc.,
A. J. Huyck, Deposit, N. Y. LOUISIANA boasts of a man who weighs 427 pounds. He is sixty years of age, enjoys the best of health, and has a wife who weighs 145

Suicide Made Easy.

Let your liver complaint take its own course and now'r take Dr. Pierce's "Golden Medical Discovery." Sold by druggists.

The British patent office received 5,751 applications in 1881, 2,139 from foreigners, of which 745 came from the United States. Dr. Pierce's "Pellets," or sugar-coated gran-

ules—the original "little liver pills," (beware of imitations) - cure sick and bilious headache, cleanse the stomach and bowels, and purify the blood. To get genuine, see Dr. Pierce's signa-ture and portrait on government stamp. 25 cents per vial, by druggists. Our of thirty-seven specimens of coffee re cently purchased in London, only two proved

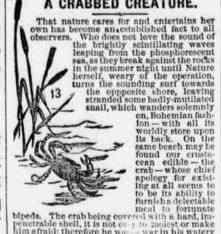

be genuine on analysis. One remedy for \$1. There is but one way to cure baldness, and that is by using Carboline, a deodorized extract of petroleum, the natural petroleum hair renewer. It will positively do the work—the only article that will.

25 Cents will Buy a Treatise upon the Horse and his Diseases. Book of 100 pages. Valuable

to every owner of horses. Postage stamps taken, Sent postpaid by NEW YORK NEWSPAPER UNION, 150 Worth Street, New York. Nervous Debility, Wenkness, Etc.

A CRABBED CREATURE.

bipeds. The crab being cove netrable shell, it is not emy to a mafraid; therefore he was a wes him afraid; therefore he was war in his watery world unceasingly when once attacked. Although tiny, he cannot be said to be devoid of understanding, having ten legs to assist his locomotion; this, however, avails him little, for, when conquered, he never tarms his back to his enemy, starting into a bold run, but, like many politiciams during election time, slips off sideways. There comes a time in the lifter this purancious fellow when the years bring him more bone and muscle than he can dispose of with comfort, and he finds himself in a very tight place; his shoes pinch him and he begins to realize the practicability of applying to hame Nature for more room or a house in proportion to his increasing size. Nature slowly responds to the call; but in her own good time provides a new home, so that the enterprising little creature does not wander about homeless, but is provided for suitably, as was the old sailor, who dropped his rheumatism and crabbedness when he applied the Great German Remedy, Sr. Jacons Oh. This last, however, may sound rather fishy to the skeptical reader, and to such we would reply in language too plain to be misunderstood—in words illustrating faces that even the waves of time cannot wash away or sealy epithels affect. Sr. Jacons On. to-lay has rendered the lives and homes of myriads of sufferers brighter than ever the ciectric light can, which people pause to admire along the way. Still more happily served than the old sailor was an invalid, who wrote thus concerning his case:

"CROOKED HAERTEL."

Accept a thousand thanks for that "golden remedy." I suffered for many years with rheumatic pain in my limbs. My legs were drawn together, and people cailed me "Crooked Haertel." I used St. Jacons Oil, and was cured, and now feel so well that I think I could dance, as in my young days.

Merchant's

for human, fowl and animal fiesh, was
first prepared and introduced by Dr.
Geo. W. Merchant, in Lockport N. Y.,
U.S. A., 1828, since which time it has
steadily grown in public favor, and is
now acknowledged and admitted by the
trade to be the standard liniment of the
country. When we make this amouncement we do so without fear of contradiction, notwithstanding we are aware
than are many who are more or less
prejudiced against proprietary remedies
especially on account of the many humbugs on the market; however, we are
pleased to state that such projudice does
not exist against GARGLING OIL. We do not
claim wonders or mixicles for our liniment, but we
do claim it is without an equal. It is put up in betfies of three sizes, and all we
sak is that you give it a fair
trial, remembering that the Oil
put up with white wrapper
(small) is for human and fowl
fiesh, and that with yellow
wrapper (three sizes) for animal feesh. Try a bottle.

As these cuis indicate, the Oil is used success-

mal flesh. Try a bottle.

As these cuts indicate, the Oil is used successfully for all diseases of the human, foel and animal flesh. Shake well before using.

our testimonials date from 1833
to the present. Try Merchant's
Gargling Oil Linimont for internal
and external use, and tell your
neighbor what good it has done. Don't fall to follow directions. Keep the bottle

ne, Foul Lers, in Cows, Farcy, i Teats,

81,000 REWARD for proof of the existence of a better liniment than "Merchant's Gargling Oil," or a better worm medicine thin "Merchant's Worm Tablets. "Man. affactured by M. G. O. Co., Lockport, N. Y., U. S. A. JOHN HODGE, Sec'y.
