Concerns Fishing Right

London, Aug. 14—The correspondent of this paper in London reports that the case of the French fishermen, who have been engaged in a dispute with the British Government, has been settled.

The fishermen, who are employed on the Grand Banks, have been working for the last several months, and have been successful in catching a large number of fish.

The British Government has refused to recognize the rights of the French fishermen, and has been demanding payment for the fish caught by them.

The case has been referred to a tribunal, which has now decided in favor of the French fishermen.
