JUSTICE WRIGHT DENOUNCES LAWYER

Charges Attorney Peyser With Disgracing Calling.

TRIED TO DECEIVE COURT

Incident Result of Habeas Corpus Proceedings Entered in the Kupperberg Case.

Attorney Scored by Judge

You have practiced a deception upon the court which is most dishonorable.

And by your action in this case you have disgraced your calling as a member of the bar.-Justice Wright, presiding in Criminal Court No. 1, to Attorney Julius I. Peyser.

Probably the severest arraignment of an attorney in the local court ever wit-nessed in this jurisdiction, was that of Lawyer Peyser, by Justice Wright, in Criminal Court, No. 1 today.

The justice said that Peyser had prac ticed deception, and had disgraced his calling as a member of the bar.

This sensational incident was brought out at a preliminary hearing looking to the setting aside of a sentence imposed on Kupperberg ten days ago.

It was probably the severest arraignment of an attorney in the local court ever witnessed in this jurisdiction.

Knew It Was Improper.

Continuing Justice Wright said Mr. Peyser showed greatest discourtesy and disrespect of the court in permitting an order to be passed by the presiding justice which the attorney well knew was

The criticism of Attorney Peyser's action is the result of Justice Wright sentencing Kupferberg, who was convicted in his absence and without pleading to the indictment against him for co spiracy to defraud a local street rail way company.

On the day of Kupferberg's trial he left the jurisdiction. A month age he was captured in St. Louis, Mo., and brought back to Washington for sen-

When he was haled into court Mr. Peyser appeared and made a plea for hercy for Kupferberg. After listening to the plea for mercy the court sentenced Kupferberg to four months in

tenced Kupferberg to four months in the workhouse. A day or two later Mr. Peyser commenced habeas corpus proceedings to procure Kupferberg's release on the ground he had not been arraigned for trial nor had he pleaded to the indictment against him.

Justice Wright in no mistaken terms criticised the action of Mr. Peyser for appearing it. Kupferberg's behalf and making a plea for mercy without informing the court that Kupferberg had not pleaded to the indictment upon which he was convicted. In doing this he said the attorney had knowingly permitted the gourt to pass an order which he, Mr. Peyser, knew was wrongfuily made.

Attorney's Disclaimed.

Mr. Peyser disclaims any intention to mislead the court. He says the District Attorney's office was well aware of the state of the docket in the case and knew it showed Kupferberg was never called upon to plead to the indictment before being placed upon trial. in his absence.

Now that the court has set aide the

sentence against Kupferberg it is not known what the next move will be in the case. District Attorney Baker has not yet decided what steps he will take. on habeas corpus proceedings was argued Friday last before Chief Justice Clabaugh and was taken under advisement by him. Now that the sentence imposed upon Kupferberg has been set aside it practically makes the habeas corpus proceedings a moot court question.

Germany's New Tariff Will Hit America Hard

Rate on Fresh Beef Raised From 15 to 200 Per Cent—Countries With Special Agreements to Fare Better.

According to the monthly summary of the Bureau of Statistics of the Department of Commerce and Labor, American trade will be hard hit by the rates Germany will give to those nations with whom she has tariff agreements.

These conventional tariffs are to go into effect March 1, 1906, and those nations that are party to them will have an immense advantage over America as far as mineral oil products, agricultural products, food stuffs, and typewriting and counting machines are concerned. On other commodities there are either no changes at all or small ones that will not affect American trade so seriously. For instance, the present tariff on fresh beef is 15 per cent. After March 1, 1906, it will be 290 per cent on the beef from those countries which have. In other words, the American beef will strike a duty of 120 per cent above that sent to Germany by governments which have a reciprocity agreement with the Kaiser's land.

Under the present tariff the duty on bacon is 23 per cent; on pork 21 per cent, and on ham 13 per cent. Under the new tariff the duties are increased to 80 per cent for bacon, 176 per cent for pork, and 218 for ham. The convention provides higher rates on those articles with a heavy excess of duty to face.

Wheat, flour, corn, and rye meet with the same fate at the hands of the new tariff, but they are not quite so badly treated as the meat products. Corn, on which the present duty is 17 per cent, has, however, a new duty of 212 to face unless it is protected by a reciprocity treaty, in which case, even, there is an increase of 87 per cent.

EASTERN RESIDENTS KEEP AT SWARTZELL

Citizens' Association Asks What Effect His Retention Has Had on Decreasing Attendance at High School. Take Up Disparity in Numbers.

That the prominent citizens of East Washington are far from satisfied with the outcome of the Eastern High School tangle is evidenced by the fact that the East Washington Citizens' Association will again take up the matter at its meeting tonight. The association wishes to know if M. F. F. Swartzell's reinstatement by the Board of Education has caused the comparatively small attendance at the Eastern High School.

Some of the questions which will be will again take up the matter at its meeting tonight. The association wish-
