

## COMMERCE BOARD CHARTERS STEAMER FOR AN EXPO. TRIP

Organization Will Be On Hand to Participate On District Day.

President Robert N. Harper and the committee of five directors of the Chamber of Commerce arranged yesterday afternoon for the trip of the Chamber of Commerce to Jamestown on June 10. Arrangements have been perfected for the charter of the steamer Newport News, of the Norfolk and Washington Steamboat Company. The members will leave Washington at 8 o'clock on the evening of June 10, arriving at Jamestown the following morning.

The day of June 11 will be spent upon the exposition grounds in attendance upon the exercises connected with the celebration of District of Columbia Day. Special quarters have been reserved in the Auditorium for 300 to 400 members of the Chamber of Commerce who are to be present.

### Will Visit Norfolk.

The party will leave Jamestown at 4 o'clock in the afternoon for Norfolk, where the members will be the guests for a short time of the Norfolk Chamber of Commerce. Leaving Norfolk in the early evening, the return to Washington will be made by 8 o'clock the following morning.

President Harper said last night that, although all the details for the trip had not been completed, it was the intention of those in charge to make the occasion a most enjoyable one, and that a representative attendance was anticipated. Further details regarding the movements of the boat, he said, had been left in the hands of D. J. Callahan and Secretary W. J. Goodey. An elaborate musical program will be arranged, this feature being in the hands of E. H. Droop. President Harper said that arrangements had been made to have meals served to members on the boat.

### Send Notices Tomorrow.

Formal notice of the excursion arrangements will be mailed the Chamber of Commerce members tomorrow with request to advise the committee in charge as to whether they can attend. "We are going to strive to make this excursion a feature for the benefit of the Chamber of Commerce," said President Harper, "and at the same time we want to participate actively in the celebration of District Day at Jamestown. I trust that every member who can possibly attend will do so."

## "DIAMOND QUEEN DEMANDS REVENGE OF FORMER LOVER

(Continued from First Page.)

cution. Hillman, who, the jury says, gave the girl the diamonds and jewelry, had evidently heard of Charles Robinson as a rival to himself for her affections and had devised this way of squaring himself.

She was in New York enjoying herself in company with Robinson when she first heard of Hillman's placing a charge against her. When arrested at the metropolis, she stoutly denied having obtained her jewels under the false pretense of owning valuable properties, as Hillman had averred.

After spending twenty hours in the Tombs at New York and fighting extradition proceedings, she came to Wheeling, expressing confidence that she would be acquitted.

### Trial Was Short.

On last Tuesday she was arraigned before Judge Jordan. On Wednesday she was declared "Not guilty." Everyone had anticipated a long drawn out trial, and up until after she had told her sensational story there had been many who hoped to see "that woman" punished. But her tale turned everything against Hillman, and the crowd that was in the court room when the verdict was returned cheered and stamped lustily, though all were threatened by the judge with a day's imprisonment for "such unseemly conduct."

Bessie Burton is now living with her mother. It is understood that she has already consulted her attorneys, T. M. Garvin, David A. McKee, and Capt. B. R. Dovenor, relative to instituting retaliatory proceedings against Hillman, and legal action in the case is expected at any moment.

In speaking of the matter today, she said she "rather fancied" her title of "Diamond Queen." "Moreover," she added under her breath to a friend, "I intend to live up to my station in life in spite of that little unpleasantness." But she soon found out that the "hello" girl's position is not the most remunerative, so her ambition prompted her to become a clerk in a millinery store; for she was deft with her fingers and made an excellent model to "try" new hats on.

According to the story she told on the witness stand, it was while she was in the millinery store that she and Hillman first became acquainted. It was with evident emotion and shame that she told the jury that, in 1901, when she was only sixteen years of age, Hillman had enticed her to his apartments—with his diamonds.

"He made me presents of diamonds and jewelry and he gave me money," she declared, in telling to the jury her Evelyn Nesbit Thaw story, in which she pictured Hillman as a second Stanford White, "and so I did what he wanted me to do and often paid visits to his place, even though I was married."

### Went to New York.

It had been exactly one year from the day upon which Oscar Burton had led the blushing girl to the altar that she had suddenly left Wheeling the last of February and gone to New York city. Mrs. Burton's married life had proved a failure. The wealthy and fiery which she, as a child, had pictured, were lacking, and she and her husband had been living apart for three months before the public was startled by the accusations, made by Jeweler Hillman, that Mrs. Burton had robbed him of \$2,100.

It was then that it developed that there was another man figuring in the case. He is the unknown Charles Robinson, of Pittsburgh, Pa., of whom Bessie Burton refuses to talk. "He's a jolly good fellow, but I don't know where he is just now, though he has some of my pretty diamonds," she is quoted as saying.

## FIND MAN DYING; WOUNDED IN EYES BY PISTOL SHOT

VINELAND, N. J., May 25.—Great excitement was occasioned here this afternoon over the finding of a dying man in a strip of woods near the town. An examination by Dr. George Cunningham showed that the man had been shot through both eyes from the left side of the head.

When he was brought to town it was learned his name was Joseph Hussotti. He came here from Paterson and is a wealthy retired liquor dealer. A revolver was found by his side, but there were no powder marks on his face it was believed that the wound could not have been self-inflicted.

The authorities are investigating all the circumstances surrounding the case.

## GARNER, SOU. PAC. CLERK, IS CAUGHT IN GEORGIA

NEW ORLEANS, La., May 25.—Officials of the Southern Pacific railroad here have been notified that R. F. Garner, a former clerk, charged with embezzling \$38,700 from the office of the company at New Orleans, has been arrested at Cartersville, Ga.

Garner is alleged to have obtained this sum by fraudulent sales of railroad tickets to the company, made by himself under an assumed name.

## KINGS HELP THE KAISER TO BUY MONACO STATUE

PARIS, May 25.—The Emperor of Germany has opened up a subscription among his "cousins," the sovereigns, for the purpose of erecting a statue to the Prince of Monaco, whose studies on geography have placed him at the head of that science. The King of Portugal, the Emperor of Austria, the Czar, the King of England, the Kings of Italy and Sweden—in fact, all the crowned heads of Europe, have responded generously to the appeal.

## COAST ARTILLERY CHANGE FORECAST

In the appointment announced yesterday of Col. John M. K. Davis, of the Coast Artillery Corps, to be brigadier general, vice Constant Williams, who has been placed on the retired list, there is forecast a new arrangement for the organization of the coast artillery.

Instead of giving the new brigadier an assignment as a line officer he will be detailed especially to the supervision of the coast artillery, which is now under the general command of Brigadier General Murray. Eventually, it is the intention of the Secretary of War to divide the coast artillery into three divisions, placing an officer of high rank at the head of each.

In view of the fact that it will be impracticable to have brigadiers under the command of another officer of the same rank it is believed that the plan in contemplation involves the elevation of General Murray to the rank of major general and making the coast artillery an entirely separate organization outside of departmental control and beyond the jurisdiction of the chief of staff.

## SUES FOR \$20,000; DAMAGE TO PROPERTY

Sarah H. Pritchard, of Washington, has filed suit for the recovery of \$20,000 damages against the Baltimore and Ohio Railroad Company, the Washington Terminal Company, and the District of Columbia for alleged damage done her property at 711 street northeast. The declaration is filed by Attorney Wilton J. Lambert.

## CAPITAL \$7,800,000, FOR VIRGINIA COAL CO.

RICHMOND, Va., May 25.—With a maximum capital stock of \$7,800,000 and a minimum of little less than that amount, the Pocahontas Consolidated Coaleries Company, of Rosedale, was chartered by the corporation commission. Isaac T. Mann, of Braxville, is president of the company, and all of the other officers are from Virginia and West Virginia, with the exception of Charles T. Shorne, first vice president, whose home is in New York.

## KAISER NOW SIGNS TARIFF AGREEMENT

The German embassy yesterday notified the State Department of the signing by the Kaiser of the new commercial arrangement recently negotiated between the country and Germany and ratified by the German reichstag.

This was the last step necessary before the issuance by President Roosevelt of his proclamation putting the agreement into effect, and it is expected that the proclamation will be made early next week.

The new tariff schedules will not go into effect until July 1 by the terms of the agreement itself, but the Treasury regulations modifying the administration of the customs laws at United States ports in the matter of invoices, etc., will be issued and become effective immediately.

## SUBJECT FOR GILBERTIAN SATIRE

No one but W. S. Gilbert could really do justice to the lord chamberlain's inhibition of "The Mikado." Obtuseness in high stations has always been his favorite sport, yet none of his lord chancellors or locas of the admiralty, major generals, magistrates, or police constables, the entire house of lords, ever gave him more delicious opportunity than is offered by this monumental British blunderer.—Philadelphia Ledger.

## CHEATING U. S., CHARGE AGAINST FRUIT IMPORTER

BALTIMORE, May 25.—John H. Seward, of J. H. Seward & Co., fruit importers, was today indicted by the Federal grand jury on the charge of conspiring to defraud the United States Government by means of alleged excessive refunds on decayed fruit. With him the jury also indicted former Welcher Robert M. Whiteford, of the customs house, and Mr. Seward's employee—John A. Little, Edward Satterfield, Stephen Evans, Thomas Jackson (colored), Joseph Banks (colored), and George Lewis (colored).

There are eight counts in the indictment against Mr. Seward and his employees, while additional indictments against Messrs. Seward and Whiteford, containing seventy-three each, were returned. June 12 has been set by District Attorney Rose as the date for the trial.

The fruit company is charged with increasing the weight of what is known as "slush" or decayed fruit. The United States Government permits a refund of 1 cent a pound on all fruit which is imported in a decayed condition, and it is said that the indicated company increased the weight by wetting and filling in with sawdust.

TARIFF AGREEMENT  
AWAITS KAISER'S NAME

There has been some confusion as to the exact time when the tariff changes involved in the recent commercial agreement between this country and Germany are to go into effect. The State Department today received notification from the German government to the effect that it is its understanding that the changes will go into effect immediately. As soon, therefore, as this Government is notified of the signature of the Kaiser to the agreement, which was recently ratified by the minimum tariff to American imports into Germany, the Treasury Department will issue the necessary regulations to customs officers and exporters.
