and her parents or guardians.

"Signatures to these pledges will be insisted on by the principals of every high school in the city," said Mr. Schneider. "If they are not signed by all high school pupils next week, wholesale expulsions will follow."

The news that the suspensions or expulsions had begun caused a sensation among high school pupils and teachers. By many it was construed as a move intended to terrorize the fraterinity and society members who have been planning to apply for an injuction to restrain President Schneider and Superintendent Cooley from suspending or expelling them.

The vallreads have cut off and down on ux-penses in order to meet the decreased tonnage, and now with business re-viving, they must rehabilitate their rolling stock and their trackage, and the mprovements will be reflected in that depression has existed-in the steel and
