Washington Turfmen Plan Attractive Program at Burke Track on Thursday.

By L. D. SALE.

The eyes of horsemen were again focused for the week on the events at Detroit Slugger Still Has Columbus, and the results for the two weeks have been all that were previously anticipated in these columns. It is doubtful whether, in all trotting

turf history, a more interesting lightharness meeting has been given in the United States. The highest class horses in the country gathered from differen sections to contest for the liberal purses and the records garnered show a decided uplift in the light harness breed. Many of the results achieved comprise a new world's record. A world's four-year-old record for trotting filles was chalked up in a race, when Ruth Dillon trotted her first mile in 2:06%, beating ten high-class horses, including the great race mare Spanish Queen, the largest purse winner of the year.

victory of the four-year-old daughter of Sidney Dillon came as a distinct shock to the wisest horsemen. In the first heat she was hardly considered, as she only brought 10 to 1 in the books. Spanish Queen ruled as favorite, with the great four-year-old stallion Aquin ruling as second choice. Nevertheless, in the most formidable field in which a four-year-old filly ever field in which a four-year-old filly ever leader of the league batsmen, but his faced, she won with impressive ease, hitting record is much lighter than last and displaced the record of Beuzetta. 2:06%, which had stood for upward of twelve years. Plans track is at a razor's edge as far as speed is concerned. In addition to the above, he has had the turns of the track thrown up so that motors and horses can negotiate them at the highest possible maximum of speed.

The match race between J. J. O'- N. Keefe's L. J. K., 2:17%, and Copperthite's Ada D., 2:15¼, promises to produce more tabasco sauce for onlookers then appears on the surface. When the bay gelding beat the mare impressively Labor Day, she did not wear hopples, as was her custom, and was driven by a person who never before sat behind her in a race. It will be different on Thursday. She will wear the straps, and a man will be behind her who can make her do her best; and, those who have recently seen her perform say that she will make the gelding stretch his neck to beat her.

The entries for the 2:40 trot and pace are rapidly filling, as are the running race entries. In the motor race, over twenty-five entries have already been received and great interest in the two everts is being taken by motorcycle enthusiasts in this and other cities. The thite's Ada D., 2:15%, promises to pro-

VETERANS REPORT FOR WORK AT YALE

FIRST GUNS FIRED

OF FOOTBALL YEAR

Forward Pass Likely to Play

Prominent Part Again

This Season.

Draper Back, and Penn Has Nu- / cleus of Strong Line-Grid-

NEW YORK, Oct. 3 .- While the first uns in the annual football war have een fired, none of the heavy artillery, has yet gotten into action, and it is therefore impossible to size up the

iron Gossip.

One thing, however, is pretty certain in the way of play. The forward pass will be as popular as it was last season, and while it will be restricted by the new rules so that it cannot be used with the same recklessness as marked last season's work, it will probably be all the more effective as a ground gainer for that reason.

All along the line football practice has now developed. Harvard, Yale, and Pennsylvania varsity candidates are ready for a line-up against the scrubs. Tentative elevens have been picked at all three, Harvard having finally reached that stage of development. With only a few changes, the first teams as they now stand are about the same as they will be when the early games are

Harvard, as usual, will have a team that will compare favorably with any of them in point of weight. Browne and Cutler, the two candidates for quarterback, tip the beam at close to 170, and Smith and Kennard, the former a halfback and the later the present varsity fullback, scale over 180. The most recent line-up was: L. Crowley and Houston, ends; McKay and Forscheimer, tackles; Burr and Hoar, guards; Nourse, 193 center; Browne, quarterback; Corbett 193 and Smith, halfbacks, and Kennard, fullback. Pat Grant, last year's center. has joined the squad, but will not try for a place on the team. He will coach the varsity candidates and play with the second string men.

Regulars Back at Yale. With the exception of Arthur Brides, all of last year's regulars who are still eligible have returned to Yale. Cooney, center and left guard last fall, was out last week for the first time. He will be used at left guard on the second team for a few days, when he will be shifted for center on the varsity. The Pennsylvania coaches are already

attempting a little advanced football. The first and second teams' linemen were lined up last week for a few minbacks were drilled in the triple forward pass. The varsity eleven was practically unchanged.

Penn Prospects Bright.

Draper, the University of Pennsylvania's All-American tackle, is back in college, and a heavy load was lifted off the minds of the Quaker coaches, He climbed into his football togs and

joined the squad on Franklin. Now that Draper has returned to the fold, Billy Penn has the nucleus of a strong line. The backs are not causing nearly as much worry as the advance works.
