

## FUN OF KIDDIES IN GOOD WILLERS CAMP NEARS END

Eleven Days More, And All  
Are Making Most  
Of Time.

Camp Good Will has but eleven days of its 1911 season, and those women and children who are so fortunate as to be there now are almost feverishly trying to crowd into the last little time all the joys that the woods of Rock Creek Park and its swimming pool and the good food of the camp can give.

And quite equally those in charge are seeking to make the last part of their work the most helpful and joyful of the summer.

For they are not tired from their efforts. They have made this summer's camp the most successful since the venture was started. They have given happiness and health to more than 900 women and children, and they have managed the camp with an ease that has come of long practice. There has not been an accident beyond a stubbed toe or a scratched finger, and the health of the Camp Good Willers has been so remarkable as to surprise even those who are accustomed to making and keeping people healthy.

"No sickness, no accident," has been the daily report.

The co-operation of the public has been especially pleasing to the officials of the camp and of the Associated Charities, by which the camp is maintained.

During the month of July—the camp was opened on the first day of that month—more than 200 people went out to see what Camp Good Will was like, and hardly any one of them departed without giving some assistance. Some gave money, others took tempting foods or toys, and yet others turned over their carriages and motor cars for the use of women and children whose only previous concern with such vehicles had been to get out of their courses.

Even greater numbers, have visited the camp in August and corporations with big-hearted men as their managers have loaned great wagons and motor-vans, given watermelons and done many other things that afford simple but memorable pleasures.

The camp has accommodated an average of 160 persons a week. They go out in parties of eight each, so that there are always eighty new and eighty old campers. They are selected by the agents of the Associated Charities out of the "districts" into which the District of Columbia is divided by the Associated Charities.

Before they enter the camp they receive medical examination. This has proven especially beneficial to children, who, during their fortnight in camp, were given treatment for such ailments as enlarged tonsils or diseased teeth so that the helpfulness of the camp has in many cases been made permanent.

The moral tone of the camp has been enlightening for the children, too, the spirit of fairness being held to the fore, and the quality of unselfishness being advanced. There has been, however, absolutely no effort to inculcate anyone to acceptance of any creed or church.

The Lord's Prayer is the only form of service that those in charge of the camp have used. Religious services are conducted on Sunday evenings by volunteers, and attendance is equally voluntary. In the same way the children are allowed to attend any of the Brightwood Sunday schools; but they are not directed or persuaded.

Mrs. E. K. Briscoe is the superintendent of the camp, and Miss Anna Hogan her assistant. Miss Eleanor Keene has charge of the girls, and Miss Sylvia Brendle and Miss Helen Wright are her assistants; Edwin LeFevre has charge of the boys, and Bruce Webb and Harry Gilbert are his assistants.

The volunteer workers are Roswell Ehrenkrantz and Mrs. E. Ray Keene. Miss Mary Silcott is the trained nurse.

The program for the Camp Good Willers today comprises a ride for the mothers to the Soldiers' Home and a series of games for the children. A delegation of young people from the First Presbyterian Church will have charge of the Saturday afternoon entertainment of the children.

### Kinmacolor Continues Next Week At Belasco

The great success and widespread interest manifested in the remarkable Kinmacolor pictures of the coronation festivities, at the Belasco Theater this week, has induced the management to make arrangements for a continuation of the engagement next week.

Kinmacolor means motion pictures in natural colors—that is, the motion picture camera photographs the natural color of any scene or object within the focus of its lens.

For next week the most important of the beautiful and striking scenes exhibited this week will be repeated with the addition of many new films of equally interesting importance, the subjects of which will be announced later.

### Mississippians Go To Chesapeake Beach

The outing of the Mississippi Society today forms part of the carnival week program at Chesapeake Beach, and scores of Mississippians are there. Important pending business in Congress prevented a large attendance of the Congressional delegation.

The craft feast, that was spread early this afternoon, was one of the pleasant features of the day. The attractions of the beach and neighborly sociability among the members of the party it is expected will serve to make the excursion one of the most successful in the history of the society.

### New Commander For Fort Monroe School

The Chesapeake bay artillery district and the coast artillery school at Fort Monroe are to have a new commander, Col. Clarence P. Townsley being transferred from Fort Monroe to Fort Williams, Me., and being succeeded by Col. Frederick S. Strong, now at Fort Totten, N. Y. Colonel Strong will be succeeded by Lieut. Col. Adelbert Cronkhite, coast defense office of the Eastern division.

Col. Warren P. Newcomb, now at Fort Williams, will go to Fort Stephens, Ore., relieving Col. Stephen M. Foote, transferred to Fort Howard, Md., to relieve Col. Adam Slaker. Colonel Slaker will relieve Col. Robert H. Banks, Massachusetts, soon to be retired. Lieut. Col. Charles A. Bennett will go from Fort Terry, N. Y., to Fort Caswell, N. C., to relieve Col. Henry H. Ludlow, who will command at Fort Moultrie, S. C.

### CASTORIA

For Infants and Children.

Bears the Signature of *Dr. J. C. Watson*

## BARTHOLDT GOES TO PRESENT STEUBEN STATUE TO GERMANY

Representative Is Accompanied By Wife, Who Has Recovered From Illness.

Representative Richard Bartholdt of Missouri, who is to present to the German empire a duplicate of the statue of Baron von Steuben which the empire donated to the United States and which was placed on the northwest corner of Lafayette Square, left the city this morning. Mr. Bartholdt was accompanied by Mrs. Bartholdt, whose illness had delayed him from departing, but who was today regarded as sufficiently recovered to travel.

Mr. Bartholdt had been previously delayed by affairs of importance in the House. He will be given a joyous godspeed, however, for the peace societies in New York will give him a reception tonight, and on shipboard tomorrow the Daughters of the American Revolution will give him a reception, and the allied German singing societies will give him a serenade.

The presentation of the statue is to be made at Berlin September 2. Mr. and Mrs. Bartholdt will return in November.

### Kentucky Horseman Gone

LEXINGTON, Ky., Aug. 18.—A county-wide search has been instituted for W. E. Bidwell, secretary of the Kentucky State Racing Commission, who has not been in his office here or attending to any business since early in June.

## EXPORTS FOR YEAR SHOW INCREASE IN MANY DIRECTIONS

American Invention Plays Large Part In Growth Of Foreign Trade.

Inventive genius is responsible for the vast increase noted within the past two years in the exports of the United States.

According to the Bureau of Statistics, manufactures ready for consumption increased \$10,500,000 in the export trade of the present year, while manufactures for further use in manufacturing increased \$41,500,000 over the preceding year. Machinery in the various forms to which this term may be applied supplies the larger share of this total increase.

Of the finished manufactures ready for consumption exported, automobiles and parts thereof show a growth of from \$1,000,000 in 1910 to \$15,500,000 in 1911.

Among the other exports, cotton goods increased from about \$25,000,000 to practically \$41,000,000; builders' hardware and tools, from \$4,000,000 to \$17,000,000; boots and shoes of leather, from \$12,000,000 to \$13,750,000; lubricating oils, from \$2,750,000 to \$22,000,000; photographic goods, composed largely of motion picture films, from \$4,750,000 to over \$7,000,000; typewriters, from \$3,250,000 to \$3,750,000; sewing machines, from \$7,500,000 to over \$8,000,000; structural iron and steel, from less than \$4,000,000 to \$3,500,000; agricultural implements, from \$28,000,000 to practically \$36,000,000; locomotives, from \$2,500,000 to practically \$4,000,000; stationary engines, from \$3,000,000 to \$4,000,000.

### Hot-Weather Diarrhea

In the summer people of all ages are very subject to "running of the bowels." Germs get into the food or water, find their way into the intestines, and keep irritating them so that there is a constant desire to have movement.

USE DR. CALDWELL'S SYRUP PEPSIN. It is very weakening, destroys appetite, disturbs sleep, and produces an itchy feeling that many suppose to be piles. There are many "quick cures" for this aggravated form of dysentery, but they usually contain a narcotic, and that is dangerous.

Others try salts and laxative waters, but they have no permanent effects. It takes a remedy with ingredients such as are combined in Dr. Caldwell's Syrup Pepsin to drive out the trouble-causing germs, to clean out the intestines, to strengthen the stomach, and enliven the liver. Ordinary remedies cannot do this, but it is a well known fact that Dr. Caldwell's Syrup Pepsin does do it. Thousands use it every summer for this very purpose. Go to your druggist today and buy a 50 cent or \$1.00 bottle and see what it will do for you. It is guaranteed to do what we claim or money refunded. It has enabled thousands of families to cure themselves of simple ailments. If you have never tried it send your address for a FREE SAMPLE BOTTLE TO DR. W. B. CALDWELL, 400 Caldwell Bldg., Monticello, Ill.

# OVER 150% GAIN

FOLLOWING is a comparative statement of Display Real Estate Advertising carried in The Washington TIMES during the month of July, 1910, and July, 1911.

Agate Lines

July, 1911 - 26,755

July, 1910 - 10,675

Gain, 16,080

### And a Big Gain in Classified Real Estate Advertising

This great display gain of over 150% is backed up by a gain of over 29% in classified for the month of July, 1911, over the same month a year ago.

## The Reason for This Gain of Over 150%

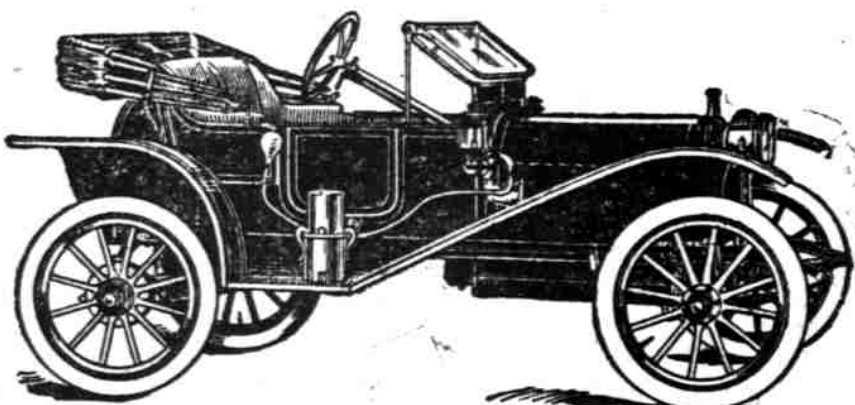

Is because of the fact that The Washington TIMES gives results to real estate advertisers.

People who buy real estate are in the market for everything else that the merchants of Washington have to offer.
