# **WILSON HAS TOLD** NO ONE HE IS TO CABINET BERTH

President-Elect Has Talked With No One on Subject and Has Made No Slate.

PRINCETON, Jan. 19.-There is not a man in the United States who knows that he is to be a member of President Wilson's Cabinet. There is not a man n the United States who has discussed being a Cabinet officer with President- 1c. noon elect Wilson. There is not a man in the country who has been tendered or promsed a Federal office by the Presitent-elect.

Governor Wilson himself is authority for these statements, which should put stop for the time being, at least to the reports from Washington, New York, New Rochelle, Seatucket, and Painted Post that it is all over but the shouting concerning one big Federal job, at least.

When the governor was asked whether he could give a few hundred thousand waiting Democrats any further light on possible Cabinet appoint ments, he said:

"You gentlemen don't seem fully to understand my ability to keep my mind open. I may have a man in mind for a time and consider it and then some hing may come up and I lay it aside I do not intend to close my mind until I consider it necessary. Then I shall nake up my whole slate all at once. I shall not announce appointments piece

Admits It Takes Time.

"It will be necessary, of course, to consult with these men first, so that you may know they will accept," was

"Oh, I can consult with them any Former Congressman's Withtime, and I will make no announce ments until they have consented to serve."

"That may take some time." Yes, I may. I don't suppose shall be able to make the announcements at once, even after I have compieted my slate.

"Isn't it possible, then, that it will be near March 4, before the announcement is made?" Yes. I understand that the rule has

been to announce the Cabinet a few expires, former Congressman Levin Irvdays before March 4. It is possible that I will not make public the slate until sometime after it is made up, "In the past," he was reminded, "some of the Cabinet places were promised before election."

Yes," replied the governor, laughing. "I know all about that. It certainly simplified the work of the President

Governor Wilson was asked whether he could give any estimate as to the number of names that had formally been placed before him. He replied in the negative. He also said he did not know of a single instance in which a name had been presented with a pe-lition, though many had been received

have not conferred with any man who may be in the Cabinet?" "Oh, no. What I mean is that I have not conferred with any individual as to

his serving in my Cabinet. I have conferred with men who may posisbly be on my slate eventually. "How about officers other than Cabi-

"The same thing applies. I have not talked with any one about his accept ing office, though I have discussed various men with many of my callers, both with regard to Cabinet and other offices. But I have kept my mind open and have made no decisions whatever." In the course of the conversation the governor expressed his opinion of a

Cabinet position: "A Cabinet position," he said, "is a hard one and an important one. For his successes, a Cabinet officer gets Mattle or no credit, while for his mislittle or no credit, while for his mis-takes he catches it good and hard."
"Yet, men don't seem afraid of it any more than they do of getting large wealth, which also brings large responibilities," spoke up a questioner.
"But a man can do as he likes with large wealth," said the governor with a Cabinet office he cannot."

### Milk and Bottles Spilled Into Gutter

The gutters at the corner of Thirty-sixth street and Prospect avenue northwest, ran white with milk this morning, when a wagon of the White Cross Milk Company was overturned by a runaway horse.

The animal became frightened at Thirty-sixth and P streets, and dashed down Thirty-sixth street, where it turned in the face of the embank-ment and steps leading to the Aque-duct bridge, and upset the wagon. Milk and glass were strewn over the

### Woman's Titanic Defense Is Declared Unfounded

CINCINNATI, Jan. 19.-Attorneys for Percy Procter, a wealthy manufacturer, who are contesting efforts of Mrs. Procter to have a divorce granted the former set aside, stated in court here vesterday that they had investigated the claim of Mrs. Proctor that she was in the Titanic disaster and found it un-

true.

Mrs. Procter was formerly Baroness Nadine von Klifus, and is said to be ill in New York. Procter was granted a divorce on June 8 without a contest.

Mrs. Procter claimed she was prevented from appearing, as when the Titanic went down she was picked up and went down she was picked up and taken to London.

The bill to give the committee power of visitation over national banks in order to probe certain phases of national banking deals of interest in the Money trust investigation, came up on the calendar. Senator Smoot blocked it by objecting to consideration. He pointed out that Chairman Penrose, of the Finance Committee, was absent, and the committee had reported against the bill. Senator Williams charged Senator Smoot with thwarting an important Congressional investigation.

It is generally admitted, however, that the evidence uncovered already affords plenty of basis for no end of important legislation.

# WAR OVER TARIFF WILL BE WAGED ON UNDERWOOD ISSUE

eader Has Launched "Competitive" Plan and Aroused Opponents to Battle.

The war over the tariff, which is to be renewed in the extra session next spring, and the pattering of the skirmgoing to be waged around a new phrase. No longer will much be heard of free trade, no longer will discussion be so largely confined to protective tariff and tariff for revenue. In the coming struggie, the "competitive tariff" is going to hold the boards and be in the lime

Neither in 1909 nor before that, nor in the almost unceasing tariff troubles in Congress since then, has there been talk worth while of a "competitive tariff." But from this time forth, the country is going to have this phrase dinned into its ears. It is going to be served up to it for breakfast, lunch, and dinner and any other incidental meals.

Leader Oscar Underwood, chairman of the Ways and Means, is the man who is responsible for this new expression. He may not have been the first man to use it, but he is the first man to give it wide currency. Mr. Underwood has been talking much of late about a "competitive tariff." It has broken into the dispatches, into the tariff hearings before the Ways and Means, into all the fore the ways and Means, into all the current arguments in the newspapers and journals on the subject, and it looks as if it had come to stay.

Mr. Underwood may get wholesale criticism for his advocacy of a "competitive tariff," but the linguists and lexicographers will at least be inclined to give him gradify for heaving surjected.

That Revenue Officer Be and some time before that.

The doctrine Mr. Underwood is advancing is that he wants, not a prohibitive tariff, but a competitive tariff, and wants it "all along the line."
