OBJECT TO BLIND IN PUBLIC SCHOOLS

Sightless Men and Women Will Protest at Plan To Commisioners.

OFFICIALS of the District of Columbia cataract association notified the city council yesterday that they will oppose any plan to omit cataract work in the city's public schools.

This action is taken to prevent a situation that will result in the city's public school system not providing the necessary medical care for the cataracts.

The association is a non-profit organization that provides medical care for the cataracts of the school-aged population. They have been successful in providing medical care for the cataracts of the school-aged population for many years.
