Germany Cuts Loose From Civilization

'Having begun the European war by an act of perfidy, the German Government now seeks to end it by an act of criminal insanity. In a mad lurch away from the efforts to bring about peace by reason and negotiation, the German authorities announce that they will begin this day to run amuck on the high seas. A Malay pirate could not have made the announcement more brutally." The New York Evening Post thus indignantly characterizes Germany's determination to wield an unrestricted submarine warfare on neutrals as well as foes in a new war zone, while other newspapers are scarcely less outspoken.

In severing diplomatic relations with Germany as a result of that country's new attitude, President Wilson has not done the unexpected. Even Count Von Bernstorff, the German Ambassador, is quoted as saying: "I am not surprised. My Government will not be surprised either. The people in Berlin knew what was bound to happen if they took the action they have taken. There was nothing else left for the United States to do."

President Wilson finds the country solidly behind him. Racial lines have practically disappeared, and, to quote the words of the New York Globe, "If war comes, it will be a holy and

righteous one—a war on war, a war for peace, a war for a better world."
In this week's LITERARY DIGEST (dated February 10) there is an illuminating description of the effect of Germany's note upon the people of the United States and elsewhere. Editorial comment representing public opinion from every section is given. Other articles of special interest and importance in this number are:
