

TELEGRAPH BILL MAY SIDETRACK PROHIBITION RIDER

(Continued from First Page.)
reference to wine be stricken from it. This motion was not voted on.
"The amendment simply amounts to confiscation of the grape crop," said Senator Foblan.

World Save Industry.
He will make a strong effort to save the wine and grape industry.

The Senate voted 26 to 32 to overrule a ruling of Senator Sausbury, as presiding officer, that the point of order raised by Senator Penrose was well taken. Had his ruling been sustained, the dry amendment would have been knocked out. The vote was taken last evening and was preceded by a long (4 1/2) on the parliamentary question.

The vote on the question of sustaining the point of order was:
Democrats—Gerry, Gore, Hitchcock, Jones of New Mexico, King, Lewis, Martin, Phelps, Pomeroy, Ransdell, Reed, Simmons, Smith of Arizona, Smith of Georgia, Smith of Maryland, Swanson, Underwood, and Wolcott—total, 38.
Republicans—Baird, Brandegee, Calder, Franco, Frelinghuysen, Harding, Johnson of California, Kellogg, Knox, New, Penrose, Smoot, Wadsworth, Warren and Watson—total, 15.
Total for—53.

Against Sustaining.
Against sustaining the decision:
Democrats—Ashurst, Bakhhead, Beckham, Benet, Chamberlain, Fletcher, Henderson, Kendrick, McKellar, Myers, Nugent, Overman, Pittman, Shafroth, Sheppard, Shields, Smith of South Carolina, Thompson, Trammell, Vandaman and Walsh—total, 21.
Republicans—Borah, Colt, Curtis, Fernald, Hale, Jones of Washington, Kenyon, Lenroot, Nelson, Norris, Pennington, Sherman, Smith of Michigan, Sterling, and Sutherland—total, 15.
Total against—36.

Absolute shutdown of the brewing industry of the United States, cutting off the manufacture not only of beer, but of all substitutes as well, has been ordered by the Fuel Administration, to save coal. This means that the manufacture of all beer and all beer substitutes will be halted.

Under this order, the whole nation will go dry, as far as beer is concerned. There are no great stocks of beer, as there were of whiskey when distilling was stopped.

It is stated by Dr. Garfield that the action taken is purely a conservative measure designed to save coal. All of the brewing industries of the country consume a little over 3,000,000 tons of coal a year, and the Fuel Administration, unable to make production from the limitless stores under the ground to meet consumption, has decided that this step is necessary to save coal.

First 100 Per Cent Cut.
The brewing industry is the first one to face a 100 per cent curtailment under the Fuel Administration program, which aims at the cutting of all of the less essential industries of the United States.

Before taking action with respect to the breweries, Dr. Garfield conferred with Chairman Baruch, of the War Industries Board; Food Administrator Hoover, and Vance McCormick, of the War Trade Board. The order had their approval as part of the plan to save consumption of raw materials, food, labor, and transportation.

The breweries will be allowed to continue only until present stocks of malt and other grains are consumed. Those concerned in issuance of order believe that it will save much grain.

Will Get Jobs for Men.
The Public Service Reserve and employment service of the Department of Labor will co-operate in getting jobs in essential industries for the thousands of men who will lose their employment. The supply of beer will disappear long before the whiskey supply is exhausted, though whiskey distilling was stopped nearly a year ago.

It was just a little over two weeks ago that the brewers of the United States reached a voluntary agreement with the Fuel Administration to voluntarily curtail their production approximately 50 per cent, but committing themselves to use of only half as much coal during the year as had been previously used. In this way they would save their organization, their credit, and capital and keep their men and women employed.

A country worth fighting for is a country worth saving for. Buy war savings stamps with your savings.
