The Truth—and Nothing But the Truth

Save Money Now On Your Spring Suit

The present Clearance Sale of our very finest suits has an added inducement: We actually purchased a large number of suits at this late date in the season, but they're comparatively light weights—light enough for spring wear. They're up to our highest standard in quality and the price was irresistible.

For your accommodation we'll gladly accept a small deposit on any of these suits and lay it aside until you wish to make the final payment. In this way you can buy a handsome spring suit for just about one-half what it will cost later on. There are plenty of blues, browns and oxfords in the different lines—all models that are correct for spring wear, including conservative styles for those who do not fancy the extreme features.

LID GOES DOWN ON TOILET WATER RUM

Dry Agents Hunt for Liquor
Sales Made Under Non-
Beverage Permits.

The "lid" was put down tight today to prevent illegal diversion of whiskey through permits issued for non-beverage buyers. Prohibition Commissioner Kramer issued to all his subordinates explicit instructions to require of all purchasers of non-beverage alcohol or intoxicants ample proof showing that liquor supplies are devoted to the uses prescribed by the law.

Large corps of examining officers were authorized to be appointed by Commissioner Kramer for the several supervising districts to prevent permits falling into the hands of fake "hair tonic" factories or other fictitious concerns that might be used by bootleg rings. Such abuses of permit privileges recently brought to light in a number of cities caused Commissioner Kramer to draft still more rigid prohibitions and to raise the requirements under which permits are issued.

Mr. Kramer today instructed supervisors that all nonbeverage plants holding permits for the purchase and commercial use of whiskey or other intoxicants shall be subjected to minute inspection by inspectors carefully chosen.

ST. PATRICK'S TOMB GIVEN TO ORANGE BY IRISH BILL

DUBLIN Feb. 26.—Catholics all over Ireland are announcing determined opposition to the new Home Rule bill introduced in the House of Commons yesterday.

They point out particularly that Cardinal Logue is placed under Orange rule by the new measure.

St. Patrick's burial place and other historic spots dear to Irish hearts will be cut away from national life and placed under Ceresite sway.

Added obligation is placed upon manufacturers in new regulations issued to see that the finished product is "in reality sold, distributed, and purchased in good faith as either a medicinal or toilet preparation or a flavoring extract."

Examining officers will acquaint themselves with the size and frequency of orders of individual customers. The character and business of purchasers of the finished products will also be closely scrutinized.

SUSPECT CANADIANS GOT 'MISSING SHIP'

Rumor Chicago Firm Acted for
Dominion Buyers in Sale
of Navy Vessel.

The former navy merchant freight ship "Avalon," of 1,600 tons, sold to a private purchaser recently, is missing.

Apparently she is no longer under American registry, despite the fact that the law expressly provides against the changing of registry of any American ship during the war emergency.

A tracer has been sent out after her by the Bureau of Navigation of the Department of Commerce, and collectors of customs and other marine officers have been asked to help in the search.

The ship is said to have been sold to a Chicago firm. Suspicion is entertained in some circles that this firm was acting for Canadian purchasers and that the "Avalon" now, under a new name and possibly camouflaged otherwise, is in service as a Canadian vessel.

The Senate Commerce Committee has heard stray bits of testimony regarding the "Avalon," and probably will call upon the Navy Department for a full report regarding her. The suggestion is advanced that a large number of small ships may have been diverted in this way, inasmuch as the Navy Department, according to the information given to Congressional

committees, makes no provision for the maintenance of its ships at the time of sale in American registry. A resolution has been reported favorably by the committee providing an investigation of the sale of ships by the Navy Department. It will be passed in the next few days.

The Public Has Accepted

With Great Praise and Appreciation

The Glass Burial Casket

—AND HUNDREDS OF WASHINGTON MEN AND WOMEN HAVE ALREADY BECOME STOCKHOLDERS AND PART OWNERS OF THE COMPANY.

The GLASS BURIAL CASKET

A combined Casket and Vault, made of two solid pieces of glass, so constructed that it can be hermetically sealed. It is impervious to air, water, mud and vermin, and will for all time resist the action of every destroying element to which burial caskets are exposed. And the cost of the Glass Casket will be no more than the average wood casket.

LEGAL COUNSEL

CRANDAL MACKAY
Former Commonwealth Attorney for Alexandria County, Va.

They Have Done This Because—

The Glass Casket is beyond all comparison with caskets of other materials, and is in every respect the fast word in both quality and appearance in burial cases.

The company controls patents that give it an exclusive field in five States and the District of Columbia.

The company is officered and directed by well-known Washingtonians.

The company issues only Common Stock, thus insuring that purchasers will share in EVERY dollar it earns.

The company has every prospect of quick, large profits, and offers the SAFETY that is part of every investment founded on a manufacturing enterprise conducted by experts.

The small investor is amply protected against domination by the larger investor, through a clause incorporated in the by-laws providing that no stockholder shall under any circumstances vote more than 10 per cent of the issued stock.

An Object Lesson

The immense earnings resulting from small investments in successful enterprises is generally known. Here are a few typical cases. The men and women who invested in the first issue of stock of these companies, when most people were belittling their possibilities, are wealthy today. And bear in mind that the original prospects, in many instances, were not nearly so bright as those of the Crystal Glass Casket Company.

\$100 invested in Burroughs Adding Machine returned \$41,340.
\$100 invested in Welsbach Mantle returned \$50,000.
\$100 invested in American Radiator returned \$49,000.
\$100 invested in Westinghouse Air Brake returned \$47,856.
\$100 invested in Bell Telephone returned \$201,000.
\$100 invested in Janney Coupler returned \$18,680.
\$100 invested in National Cash Register returned \$42,870.
\$100 invested in Duplex Rubber Tire returned \$125,000.

An investment of \$100.00 each in the above companies meant a total return of \$575,746. Yet men who predicted such enormous profits at the outset would have been condemned as either crazy or dishonest.

The Crystal Glass Casket Company, like all these big money makers, opens a NEW industrial field, with every chance for enormous dividends.
