

# "SAFETY WEEK" CONSERVES CHILD LIFE

None Hurt Since Sunday, Against Estimated Daily Average of 7 Last Year.

SCHEDULE OF ACCIDENTS.

Number of traffic accidents from 8 a. m. to 11 p. m., November 28, to 8 a. m. November 29:	0
Number of deaths:	0
Number of persons injured:	12
Number of property damages:	12
Total number of accidents:	15

One of the many splendid achievements of the "Safety Week" campaign is the fact that not a single injury to a child has been reported since last Sunday. While it is impossible to make a check of injuries to children for any stated periods in the past, officials of the campaign are confident of the opinion that this is conclusive proof of the efficiency of the campaign.

From a review of the records in 1921 it is probable that there were more than 2,000 injuries to children during that period, or a daily average of seven. The fact that the record during the campaign shows a clean slate so far as injuries to children is concerned, is most gratifying to those in charge of the work.

So far not a death has been recorded during the campaign as against an average of one daily during 1921; injuries reported to date total twelve as against an average of twenty during the same period in 1921.

Incorporating the Washington Safety Council, a permanent organization to promote safety here, are busy engaged in laying plans for the future. It is anticipated, however, that more funds are needed with which to carry on the work and an appeal is made to the business men of Washington for contributions.

In the Treasury, besides watching over Uncle Sam's money coffers and checking up pay rolls, employees are preparing for their demonstration in the safety week parade to be held Friday. Shoulder to shoulder with the men, women employees have entered the spirit of the occasion and are using every spare moment to carry the "Don't Get Hurt" slogan into every room of the department.

Subcommittees, comprised of two members, a man and a woman, have been appointed to direct the work of the several branches of the safety campaign. They are: Motor transport, Charles A. Fenner and Mrs. Myrtle J. Holgort; speakers, John G. Herndon and Minnie Thompson; posters, E. C. Washington and Adam Smith; group of marchers and the best float, L. J. Heath and Marietta G. Deane; parade, Platt H. Birch and Mrs. D. R. Willoughby, and representatives in charge of department, W. G. J. Jabs and Mrs. Pauline B. Jabs.

Eighty marchers, dressed in white uniforms will represent the Treasury Department. At intervals during the parade a special chorus will sing a song composed for the occasion by the Treasury Department. Keen competition is expected between the Government department marchers, and each unit is making special preparations for the event. Three prizes awarded are to be for the best division, the best group of marchers and the best float, and the best band among the Government units represented.

A call has been issued by Ralph Jenkins, chairman of the District of Columbia Chapter, American Red Cross, for members of the life saving corps in the District and vicinity to participate in the parade. This includes junior life savers, the women's saving corps and the senior men's corps.

More than 500 school children attended a special showing of the safety week campaign film, "Don't Get Hurt," at Crandall's York Theater, yesterday afternoon. Dr. David R. Covell, of Trinity Community House, delivered an address. A similar meeting was held today at 2 o'clock in Crandall's Apollo Theater, Seventh and H streets northeast.

Safety Week exercises were held today at 2 o'clock in the assembly hall of the Columbian Junior High School when more than 500 pupils from the Henry and Polk schools will march into the hall in three battalions, directed by pupil "Traffic Cops" and with "Stop," "Go" signs. An exhibition of slogans and posters made by the children was held this morning in the Henry School building.

## SABATH SEKS RETURN OF SMALL ALIEN ESTATES

Return of approximately 30,000 small estates and properties to alien owners seized during the war and held in trust by the government, a bill introduced in the House today by Congressman Sabath (Dem.) Illinois.

These estates are of \$10,000 or less, and the amount involved in the proposed restitutions are the properties of Austrians and Germans who failed to obey citizenship laws of their respective countries requiring them to report annually their whereabouts to consular representatives of their government.

The South Georgia Railway Company was authorized today by the Interstate Commerce Commission to issue \$199,000 of preferred capital stock consisting of 1,990 shares valued at \$100 each. This stock is to be exchanged at par for \$199,000 of first mortgage bonds maturing January 1, 1923.

## IGNORES 36 STITCHES Resulting From Craps Game

What are eighty-eight stitches for cuts about the face among friends?

Nothing, in the estimation of Jacob Swan, colored, of 1815 Seventh street northwest, and Howard Gordon, also colored, of 607 N street northwest.

A crap game was running smoothly in Gordon's house, when Swan, one of the losers, began arguing about a quarter. During the argument Swan got both cheeks cut, which took fifty-two stitches, and Gordon, who "slipped" against Swan's knife, got thirty-six.

Oscar W. Mansfield, Second precinct detective, arriving on the scene, arrested the negroes. Swan was charged with assault with dangerous weapon, on an alleged confession, and Gordon put up \$50 collateral on a charge of running a gaming table. The money was forfeited.

Today, in Assistant United States Attorney Ralph Given's office, Gordon appeared and declared that he would not prosecute the case against Swan, who was charged with assault with dangerous weapon, and Gordon put up \$50 collateral on a charge of running a gaming table. The money was forfeited.

Today, in Assistant United States Attorney Ralph Given's office, Gordon appeared and declared that he would not prosecute the case against Swan, who was charged with assault with dangerous weapon, and Gordon put up \$50 collateral on a charge of running a gaming table. The money was forfeited.

## CHANGES IN DRY LAW OFFICIALS IMPEND

New Directors in New Jersey and Pennsylvania Held Probable.

Prohibition officials plan important changes in the official line-up of State enforcement offices, following President Harding's declaration favoring "stricter enforcement," it was learned today.

Several important wet strongholds are affected in proposed changes. A new prohibition director for New Jersey to succeed Charles H. Brown is expected soon. Rumors today that John T. Davis, of Pennsylvania will resign were not confirmed at the prohibition unit, but Davis like to be relieved.

Other shifts indicated. Charles Gregory, director of Illinois, soon will be succeeded by another man yet to be agreed upon by prohibition officials. The names of other directors were linked up with reports of early shifts in personnel.

Immediate efforts will be made by Haynes and his executive assistants to install new blood in those States where enforcement is recognized as most difficult. The New York situation is entirely in the hands of E. C. Yellowley, acting State director, who is supplanting the old with new forces of agents.

The work of reconstructing the enforcement offices in other States is to proceed rapidly, officials declared. Readjustments will be made with the aid of personal representatives sent into the localities affected by Commissioner Haynes.

Seek State Co-operation. A special effort will be made by Federal officers to establish closer co-operation with State and municipal authorities. Officials supervising enforcement said today this is one of the difficult phases of law enforcement. They charged that in States where sentiment is divided over prohibition, it is almost impossible to get active enforcement officers. They asserted a great increase in violations of the law is partly due to the lack of support from the State authorities.

Heavy artillery of the United States Public Health Service will be concentrated on the gulf port and Southern border States near the epidemic of yellow fever, Surgeon General Cummings said today.

Thousands of cases of dengue or "breakbone" fever have been reported in Louisiana, Texas, and other Southern States and while not often fatal the epidemic is alarming because it presages the deadly yellow fever peril.

The epidemic means the public health service will have to be on its guard against yellow fever, which may be expected in parts of the South during the coming summer.

Warns of Smallpox. Surgeon General Cummings also issued warning of necessity of a general vaccination because of a widespread epidemic of smallpox in the West. Urgent measures are taken the health department fears a serious spread of smallpox.

Dr. Cummings recently returned from Europe where he brought about the adoption of new forms at the international sanitary convention in Paris.

"It is conceded that conditions in the Near East are grave from a health as well as political standpoint," the surgeon general said. "Typhus and cholera are a grave menace than in a century past."

"To prevent the carrying of these diseases to the United States the government has established an international quarantine port. Emigrants are forced to remain therein about two weeks undergoing medical inspection and treatment. Steamship companies must maintain these camps, under federal supervision, and their vessels may be given clear bills of health."

International control of the quarantine at the Dardanelles and similar supervision of the famous Mohammedan religious pilgrimages through the Red Sea country to the Holy Land, are also under consideration, said the surgeon general.

Since returning to the United States Dr. Cummings has been drawing up plans for an extension of the public health service investigation of "occupational diseases."

"While the bureau's present appropriations seriously cut down for this year, the health service will make important investigations looking to the protection of the health of men and women in industry," Dr. Cummings said.

International control of the quarantine at the Dardanelles and similar supervision of the famous Mohammedan religious pilgrimages through the Red Sea country to the Holy Land, are also under consideration, said the surgeon general.

## LETTER LIQUOR THEFT CASE FAILS

Not Enough Evidence to Proceed, Says Fairfax County Prosecutor.

Wilson M. Parr, Commonwealth attorney of Fairfax county, has nolle prossed charges against the seven men arrested and indicted in connection with the \$150,000 liquor theft from the home of Joseph Lett, near Green Falls, Fairfax county, Va., more than a year ago.

Farr declared he lacked evidence to prosecute the men. The men were arrested at a home on K street, near Twenty-sixth street northwest, several months after the robbery. Liquor was found in this home which was identified as that stolen from Lett's home.

The arrest of the men followed the arrest of Frank R. Cady, 2505 Pennsylvania avenue northwest; William P. Cady, 2512 K street northwest; Joseph Waring, 2811 K street northwest; Leo P. Connors, 1423 Meridian street; Edward Farnham, 2034 E. Capitol street; and Earl Blundon, of Fairfax county, and Leroy Bradley, of Philadelphia.

Mrs. Winifred Mason Hucks, new Congresswoman from Illinois, paid her respects to President Harding at the White House today.
