court meets again, this morning, Acced Ext-Run Over by a Street Car

Yesterday, about noon, some children were going home from school for their dinners, and just after they had passed the wooden bridge this side of fourths of the leading dress makers are fluchiétowu, a street car came along. One of the children, about ten years daughter of Mr. George Meyer. old, daughter of Mr. George aleyer, barber, doing business at Ritchietown, heedlessly caught hold or one of the projections on the side of the car, and, as it was moving at a rather as it was moving at a rather graphed pace, was afraid to let go rathe therefore held on as long as she She therefore held on as long as she could, but her strength finally failing she was thrown to the ground, one wheel passing over both her feet. The right foot was the most severely injured. There was a deep gash in the reft and two of the toos turned back over the top of the foot. Pr. Hazlett, of Ritchletown, who was called in to attend her, says that she will soon be about again.

IMPROVEMENTS.—If any one wishes to form an idea of the material prosperity of the city, let him or her walk through East Wheeling and the Island, and observe the evidences that force theminto notice in the shape of new dwelling and other houses already tuilt, and in process of construction. On the Island and in Centre Wheeling the additional dwellings built within the additional dwellings built within the year and now going up, are particularly numerous. They are mostly of small size and intended for the faunties of working men. In East Wheeling several substantial brick houses are receiving the finishing touches. We hope to see the day when the frame hints that now disfigure that locality, will have saven piaces to respectable brick dwellings. North Wheeling is not behind, but stendilly keeps made with the other. out stendally keeps pace with the other

If James Brown, for buying a lot of peaches from a countryman on Friday evening last, and selling them at market on Saurday morning, was brought in and fined \$10 and costs. The presention was condusted successfully under a section of the "Market Ordinates"—a section which was inserted by the ancient law-makers of this city under the fallacious impression that prices ought to be, and can be regulated by Jegal emocraments. It is high time it was stricken out of the statute book.

There being no further business, the Court adjourned until this morning, at nine o'clock.

AGRICULTURAL FAIRS.—The time of year has come for fairs, agricultural, hornenltural, horsicultural, &c. and we are happy to notice that the North West Virginia Company have begun to make preparation for theirs in the early part of next month. The public may rest assured that the managers will rest assured that the managers will leave no stone unturned to make the coming one the best of any yet held on Wheeling Island. Though the famous 'lexter' will not be there to show his wondrous speed, there will be an ample supply of other objects fully as interesting to the generality of visitors, and better calculated to impress them with the rapid atrides we are making in all the arts.

The fair will be a delightful holiday for recovered of the country appells we can be supplyed to the control of the country and of the country appells with the country and of the country appells we have the control of the country appells with the country and of the country appells with the country appe

The fair will be a delightful holiday for young and old, country people and citizens. The example of O. lo county should be copied by the other counties in the State. Every one should have its agricultural society and its agricultural Nothing will give such an im to farming matters. Nothing the best breeds of eattle, horses, sneep, hogs, etc., or in making the farmers acquainted with the merits of the best plows, cultivators, harrows, reapers and mowers, faming mills, cider mills, and in fact all kinds of farm machinery, even down to churns. Every department of industry and mechanism will, or ought to be, exhibited—and thus farmers deto be, exhibited—and thus farmers de-rive the greatest benefit. Well-to-do farmers will go to other counties, or farmers will go to other countles, or other States even, to buy good stock, so, as to exhibit and take premiums—and thus good stock will be introduced that would not have been otherwise. The ladies, too, will compete with one mother in making superior articles of butter, cheese, lard, preserves, pickles, etc., or in specimens of their needle-work. A healthy emulation is thus cultivated. People meet, form new acquaintances, arquire new opinions and more enlarged ideas, get the roughcorners knocked off, and become better litted for society. All encouragement fitted for society. All encouragement to agricultural Fairs.

OBITUARY.—Mr. and Mrs. Gray Hairs, two old and highly esteemed offizens of America, departed this life a few days since, while using a bottle procured at the Drug store of C. H. Odbert, labelled Odbert's Vegetable Ambrosis, which always restores gray hair to its original color, and cures baldness.

The tar used is put through a process that frees it from oil and benzole, and no matter now oil and benzole, and no matter now great the heat, it will not run. It is equally efficient in roofs of every conceivable pitch. Mr. Crumbacker keeps on hand roofing cement and cement for tanks and sidewalks of the best quality, and for sale at the lowest rates.
