Che Intelligencer. The Fire Brick Business in Han

Prou the New Cumberland Independent.]
It is about forty-seven years since the brat clay was taken from the banks of Mr. John Gamble, by Thomas Freeman, and made into bricks in the city of Pitts-burgsh In the spring of 1822, Mr. Javies S

Porter, then a young man, moved to a small house near the present site of W B. Freeman's brick works, and commenced the making of bricks, the first made in this county. Two years afterwards Mr

of Pittsburgh were supplied with bricks and clay from this county, and probable that much less than 200,000 served to supply all their demand Ten thousand more would have filled all orders from here to Cincinnati, and a

all orders from here to Cincinnati, and a couple of French creek flat-boats with 30,000 bricks each would have glutted the market of the "Queen City" for a year. Pittsburgh, although at that time, known as the "fron City," had but commenced the wonderful development of the iron trale, and the deft hands and vigorous minds that in later years have made the "Nail City," were but modest workmen in the still small mills of Pittsburgh. About the year 1827, Mr. James 8. Porter and Philip Beatl formed a partnership, under the title of Porter & Beall, at what is now Thomas Anderson's yard. Thomas Freeman and Messrs. Porter Beall for several years supplied the whole market.

load of 12,000 to 20,000 brick was considered ered quite a vessel, but would have appeared rather insignificant alongside of our modern keel-boat or model barge freighted with 100,000 to 150,000 bricks These served to carry on the trade with Pittsburgh, while wheeling obtained her supply by small flats, propelled from that city to Freeman's Landing in about two days by horse power, or the more

Opening of the Electoral Votes

liters Intelligencer: Much has been said and written on the power and right of the President of the Senate to open and count the electoral vote. The whole controversy now pend-ing between the two political parties is based upon that question, as though that was the all-important, vital question to be settled, and upon which the declara-tion as to who is elected President deds. But is that the vital point? Any ool boy could count the vote when electoral votes, with the accompany ertificates, one from each State, are

the votes and ascertaining the result, but in opening and exposing to view the true vote for each State. Upon this point the following five propositions are offered:

1. The President of the Senate, and he conly, is empowered by the Constitution to open the sealed packages containing the votes of the electron of the various States entitled to a voice in the election of a President of the United States.

2. The President of the United States.

3. The President of the Senate can not evade that duty, and he can no more stop short of it than he can exceed it, nor can he any more exceed it than he can stop short of it.

3. There can be but one true electoral vote from the same State, and the sealed vote from the same State, and the Sealed was the result President of President of

vote from the same State, and the scaled package containing that vote the Presi-

dent of the Senate must open.

4. A solid package purporting to contain the electoral vote of a State is not, on account of such porport merely, entitled to be opened and counted an such rate. 5. The President of the Senate must

5. The President of the Senate must know, in some way, when he has completed his duty of opening the true vote of each State, and he must know when he has opened the true votes of all the States entitled to such vote.

Corollary to Prop. 1.—A vote not opened cannot be confided.

Corollary to Props. 2 and 3.—The President of the Senate having opened the true vote of a State cannot be required to open any other package purporting to contain the vote of that State.

Should the bill of the joint committee on counting the electoral vote fail to become a law the above propositions may be of some interest to some of your readers.

Manufacts of the Nickley C. S.

Pirating on the River.

Phttsburgh Commercial.] The owners of boats and barges swept away by the late ice gorge in the Monon-gahela and Ohio rivers, experience considerable difficulty in getting possession of the crafts which were floated off but not the crafts which were floated off but not destroyed. There are a set of "jayhawkern" along the river who resort to every device for the purpose of levying extortionate charges upon the owners of this speakes of property, and they are too often aided in their extortion by those clothed with official anthority. A few days ago, the steam tag Veteran No. 2. Captain McFeeter's, caught several boats aften to property Marietta, and landed them at St. Marys, on the West Virginia side. There was one barge and one flat belonging to S. Clark & Bons, a barge belonging to John McCloskey, and a flat owned by Francer & Frey. These boats were floating near together, but were not secured in any way. There was a man on one of them, who said nothing until they were landed and tied up, and then he informed Captain McFeeters that they could not be removed; as he had a claim on them. Fearing that they might be taken without his consent, he hastened off to the Sheriff's office (St. Mary's being the seat of justice for Pleasants county) and obtained a paper signed by the Sheriff, commanding him to appear there on the first Monday in February, and answer such matters as might be required of him by the court. Those who destroyed. There are a set of "jayhawk-

assist in saving floating property are en assist in saving floating property are en-titled to reasonable compensation for their labor, and all such demands are generally promptly met by our coal mer-chants, but how one man, as in this case, could have such a claim against the four boats mentioned, as to enable him to hold them against the commander of the boat who had actually caught and landed them, is a question that will nuzzle all them, is a question that will puzzle all others besides Captain McFeeters.

The Tuscarawas Valley Hailroad

(Finshing Letter in the Barnesville Enterprise.)

The people of this vicinity are being agitated by the railroad question again. Most of your readers will remember the xcitement of last winter, about the location of the road. There was a meeting held here last Saturday, in the interes of the proposed railroad. It was largely attended and was an interesting meeting.
Stirring addresses were made by Hon.
Isaac Holloway, Dr. L. Voorhies and
Mr. Wm. Smith, urging upon the people
the importance of prompt action in this
matter. The sum ask for the completion of the road is between \$20,000 and
\$25,000. from Patiers to Tunecano. \$25,000, from Patters to Tippecanoe. As soon as this amount is raised the work As soon as this amount is raised the work will be commenced, and pushed through until completed. We think that this small amount should not bar our way, when the importance of this project is known. On motion of Dr. Yoorhies, a committee was appointed to solicit subscriptions for said road, invested with the power of appointing sub-committees. The following named gentlemen compose the committee: Isaac Holloway, Joseph Morris, Smith Hirst, Jacob Holloway, sr., Joseph Balley, Dr. L. Yoorhies, Frank Conrow, Mark Kirk, Calvin Pollock, James Price, Dr. J. Lafferty, Henry Cash and Thomas Lodge. The committee meet at Isaac Holloway's office on Wedtresday evening, for the purpose of determining the best mode of raising the desired amount. We hope to have the desired amount. We hope to have the pleasure of announcing to your reader the news that the railroad is coming.

Schenek's Pulmonic Syrup, Sea Weed Tonic, and Mandrake Pills.

These deservedly celebrated and po-Iness deservoiry celebrated and popular medicines have effected a revolution in the healing art, and proved the fallacy of several maxims which have for many years obstructed the progress of medical science. The false supposition that "Consumption is incurable" deterred physicians from attempting to find remedies for that disease, tempting to find remedies for that disease, and patients afflicted with it reconciled themselves to death without making an effort to escape from a doom which they supposed to be unavoidable. It is now proved, however, that Consumption can be cured, and that it has been cured in avery great number of casses, some of them apparently desperate ones) by Schenck's Pulmonio Syrup alone, and in other casses by the same medicine in connection with Schenck's Sea Weed Tonic and Mandrake Pills, one or both, according to the re-

Schenek's Sea Weed Tonic and Mandrake Pills, one or both, according to the requirements of the case.

Dr. Schenek himself, who enjoyed uninterrupted good health for more than forty years, was supposed at one time to be at the very gate of death, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and, since his recovery, many thousands similarly affected have used Dr. Schenek's preparations with the same remarkable success.

Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenek unless patients wish their lungs examined, and for this purpose he is professionally at his principal office, corner Sixth and Arch streets, Philadelphia, every Monday, where all letters for advice must be addressed.
