there were also expenditures on account of Lights, Health, &c. The year 1878 omits

each year comes and goes in the Annual Statement. Last year it showed under the head of Loans, "for interest, exchange, and expenses of loans," \$28,127 69. The " for interest, exchange, year before it does not appear anywhere, miscellaneous expenditures. The statement seems never to be made un ment seems never to be made up any two years alike. Sometimes it any two years alike. Sometimes it is a little fuller than others, but never self-explanatory and satisfactory. A stuself-explanatory and satisfactory. A stuself-explanatory and satisfactory. A stuself-explanatory and satisfactory. self-explanatory and satisfactory. A student needs a special glossary in order to get much information out of it. This results from the blind system long followed and aquiesced in. An annual statement should show how much interest the city paid, on what bonds, and how many bonds she retired. All this should be set out separately. Indeed an important docu-ment of this kind, so full of interest to tax payers, should be exhaustive in its details as far as possible. As published, however, it is the very reverse of this. It simply exhausts the patience of the searcher after information without giving him any satisfaction that is worthy of the name, We presume that few citizens have any

idea of the amount paid out every year for salaries, fees and commissions. We can not gather the accurate amount, but we can pick out items that amount to over \$40,000. This is two-thirds of the whole amount reported as collected on the real estate and personal property of the city. It looks like a case where entirely too much of the cheese disappears with the pairings. It would be well for citizens to look into these reports, and educate themselves in city matters with a view to possible reforms.

The National Banks-A Possible Strin-gency in the Money Market.

There was an important debate and a still more important vote in the House at Washington on Monday, on the subject of assigning a day for the consideration of the report of the Committee on Banking and Currency looking to an extension of such National bank charters as will expire carly in the coming year. There are two ways open to the banks to proceed—one is to have their charters extended and thus keep right on, (as proposed by the committee and the other is to wind up their present organizations and to reorganize under the existing law. This latter procedure, how-

ent organizations, and this means the with-drawal of their bonds at Washington, and, as a condition precedent to this with drawal, the depositing of the necessary money to retire their circulation. The Comptroller of the Currency has in the vaults of the Treasury \$75,000,000 in United States bonds, which secure the circulation of the banks whose charters expire within

tofore, it may be a matter of interest to taking \$70,000,000 of lawful money and de many readers to look back over the ground for the last few years, and observe where are not renewed, and the banks thus the bulk of the money has come from and gone to, outside of money borrowed and debts paid. We confess that there is not much satisfaction in looking over the an- drawal of such an amount must be a very nual statements of the city, as published, serious circumstance. It may produce a in order to glean items of information. The severe stringency—a stringency that may

The possibility of such a disaster invests been a great lack of system and detail in the report of the committee with great imthese exhibits. They contrast to very great disadvantage with the exhibits of other to have the consideration of the report tice in our exchanges. Tax payers do not and cannot derive much satisfaction from until disposed of. This was opposed by them. We venture that the tax payers of Belmont county, Ohlo, or Washington Hoge and Wilson, of this State), and they county, Pa., understand much more mi- were powerful enough to defeat the assignment of a day. Their Intense hostility to

and outgo of 1 their public money the banks cropped out at every stage of the do the people of the city of proceedings. The idiotic and notorious Wheeling or the county of Ohio Bland, of Missouri, based his opposition to For instance, our city statements never the resolution upon his general opposition to the National banking system. He was on real estate and personal property. And in favor of substituting silver for National once and a while, as in 1878, the tax from both bank notes until silver was on a parity is lumped with water rents, and given in a with gold. As a Democrat he proclaimed

Mr. Hardenburgh, of New Jersey, de does a tax payer know as to where \$50,000.

300 of public money has gone for Streets and Alleys, from seeing two or three items and Alleys, from seeing two or three items \$5,000 to \$10,000 or \$20,000. How little do we know of what may be and is covered up under such "glittering generalities."

And the same thing is true in regard to the Fire Department. The tax payers of was whether they should be disrupted at the state of the seeds of dishonor and discovered and the seeds of dishonor and discovered that the spoke from the standpoint of a Democrat when he asserted that the only under that head, running each from \$5,000 to \$10,000 or \$20,000. How little down the spoke from the standpoint of a Democrat when he asserted that the only under that head, running each from \$5,000 to \$10,000 or \$20,000. How little down the spoke from the standpoint of a Democrat when he asserted that the only under that head, running each from \$5,000 to \$10,000 or \$20,000. How little down the spoke from the standpoint of a Democrat when he asserted that the only under such that the spoke from the standpoint of a Democrat when he asserted that the spoke from the spoke from the spoke from the standpoint of a Democrat when he asserted that the spoke from the standpoint of a Democrat when he asserted that the spoke from the standpoint of a Democrat when he asserted that the spoke from the standpoint of a Democrat when he asserted that the spoke from the spoke from the standpoint of a Democrat when he asserted that the spoke from the standpoint of a Democrat when he asserted that the spoke from the standpoint of a Democrat when he asserted that the spoke from the standpoint of a Democrat when he asserted that the spoke from the standpoint of a Democrat when he asserted that the spoke fro the city know next to nothing at all once, and the seeds of dishonor and diswhere their money goes in that direction, or any other direction or any other direction, or any other direction or any other direction or any other direction. the good example that prevails among our sider an interest so vast as this, connected neighbors, on both sides of us, shall pre- with hundreds of millions of dollars, should never find honor or success with the Amer can people.

city and county fluances when we consider the loose and irresponsible way in

sider the loose and irresponsible way in which the accounts have been kept and published. Publicity is needed. Publicity; we might almost say, in the language of stump oratory, is the palladium of our liberties. Or, better still, as Hamlet said about the play:

"The play's the thing—Wherein Pileatch the conscience" of the Ring."

So we may say of publicity: it is the thing to "catch the conscience" of the public servant. There is nothing equal to it. If the amount of taxes paid by every taxpayer of this city was set opposite his name in print every year, it would be a great thing for the city. So, also, if something like a detailed schedule of receipts and expenditures were prepared and published every year, it would be a great thing for the taxpayers. Publicity is first necessary in order to get the proper amount of taxes, and next, it is necessary in order to guard the public against waste and fraud. This much by way of preliminary to training the fellowing tables showing the voted to jeopardize. I arree and important that they should know, whether these bank charters is not a question which alone increasts the banks, but it is a question which alone increases the banks, but it is a question which alone increases the banks, but it is a question which alone increases the banks, but it is a question which alone increases the banks, but it is a question which alone increases the banks, but it is a question which alone increases the banks, but it is a question which alone increases the banks, but it is a question which alone increases the banks, but it is a question which alone increases the banks, but it is a question which alone increases the banks, but it is a question which alone increases the banks, but it is a question which alone increases the banks, but it is a question which alone increases the banks, but it is a question which alone increases the banks, but it is a question which alone increases the banks, but it is a question which alone increases the banks, but it is a question which alone increases t

This much by way of preliminary to this district that in voting as he did he voted to jeopardize large and important interests in his district. The coal and iron interests already feel the impression of dis arbed confidence in values, and let it be nown that \$70,000,000 of currency is to be etired in the next few months and they rill be made to feel this impression still nore decidedly. A man who cannot see his result under such circumstances has a ery contracted vision indeed.

he Election at Mt. Pleasant-Republican Generally Speaking. Mt. Pleasant, Ohio, April 5.

Ellions Intelligencer:

The election here on Monday, passed off pleasantly. The result so far as the corporation is concerned, is as follows:

Mayor—John F. Mitchell — Democrat; Clerk—Milton King—Democrat; Treasurer —W. R. Dilworth—Republican; Council—J. K. Ratcliffe, H. Wilkinson, D. McHugh, J. J. Bashore, and C. D. Mercer—(all Republicans) and J. P. Maywood, Democrat. The township officers elected were as follows.

THE CURE OF PAIN! FOR TWENTY DAYS

CINCINATI, Feb. 16, 1882.

Dr. O. E. Newton, Physician and Surgson, No. 69 West Ninth Street—My Dear Sir—Having been severely taxed throughout the day yesterday in giving attention to my domestic duties, in the evening I found myself prostrated and sick from a periodical attack of nervous headache. So sick was I, that I would have been glad to have rushed to my room for rest, but necessity required that I should give attention to many that were stopping with me in my house of thirty-two rooms. In this state of anxiety and suffering, at 7 o'clock in the evening I applied to you for some relief; and I truthfully say that in less than five (5) minutes, perhaps two (2) minutes, after you had applied your remedies with your Golden Atomizer, I was entirely relieved, and proceeded with my duties, and have not had a particle of pain in my head since. Knowing a friend that was also suffering from a severe attack of nervous headache like myself, I went for her and brought her unsolicited to your office. I also say truthfully that this lady also was entirely cured in less than five (5) minutes from the time she reached your office.

Very Respectfully,

ELLA Moone,

Very Respectfully,

South side of Ninth Street, bet. Vine and Walnut.

CINCIPNATI, O., May 12, 1881. DB. O. E. Newron—Dear Sir—I have for years been subject to regular attacks of sick head sche, which became so severe as to render me unable to be about. Having been advised by a friend to purchase one of Dr. O. E. Newton's Nezal Spray Atomizers, I did so, and it af fords me great pleasure to state that since its use I have been entirely free from the ache which formerly made life almost unendurable. The treatment, while being very pleasant is easily administered, as the instrument is so simple that any child can pick it up and use it.

Dona Miller, No. 50 West Eighth Street. CINCINNATI, May 11, 1881.

Having suffered severely for a few days with excruciating pains in the head, I appealed o Dr. O. E. Newton for advice, and cheerfully testify that with the use of his Atomizer, or said Spray, and liquids contained therein, I was almost instantaneously relieved. I have noe of the Atomizers at home now, and its use is so simple, and its effects so pleasant, than yo child can use it.

ESSET TROST, 345 Vine Street. Dr. O. E. Newton—Dear Sir—Having been recommended by Mrs. Moore to apply to yor for the relief of sick headache, with which I have been troubled very often, I called upyou you yesterday, and to my delight, I will say that after you had applied your medicine with your Golden Atomizer, I was in less than five (5) minutes entirely cured. I will cheerfully recommend my triends, should they be afflicted with a severe pain in the head, to you treatment.

Yours, with great respect,

Assistant to Mrs. Fills Moore.

Assistant to Mrs. Ella Moore. CINCINNATI, January 20, 1882. I called at Dr. Newton's office, telling him how I had been, and was, suffering with head-ache; that I was taken with such a terrible headache at I r. M. the day before, that I could not see and had to quit business, and I was still suffering terribly until I reached Dr. Newton's office at 11:30 A. M., to take my treatment for Catarrh. The Doctor seated me in a chair and used medicine in his Atomizer, he not telling me what he was doing until I was entirely relieved of my headache, or any pain in the head whatever, in less than five (5) minutes. The effect was a pleasant and entire relief.

Cincinnati, O., May 13, 1881,
On last Tuesday afternoon (May 11th) I was suffering so intensely from an excruciating
pain in my head, that it was utterly impossible for me to proceed with my household duties, or to perform any duty whatever, when I applied to Dr. Newton for relief. He used
his New and Radical Discovery, for all forms of pain in the head, with his New Golden
Spray Atomizer, and I ruthfully say that in less than five (5) minutes every symptom of
pain in my head had passed away, and I was fully able to resume my duties. Feeling exceedingly grateful for this immediate cure, I am, Most Respectfully,
Late chambermaid of the steamer Charles Morgan. CINCINNATI O. May 13, 1881

CINCINNATI, May 13, 1881.

Dr. O. E. Newton—Dear Dr.—I think it due you, both as a mark of gratitude from myself, and also for the benefit of others who may desire to avail themselves of this speedy
means of relief, that I can, from practical experience, testify to the remarkable success of
your new discovery in connection with the use of your New Golden Spray Atomizer. You
recollect the day I came to see you, being hardly able to open my eyes from severe pains in
the head. I had also been suffering from it all day, and could find no relief until I made
dip my mind to visit you, and must say that upon application of your remedy with the
Atomizer, I was relieved of all pains in less than five (3) minutes. MRS. FRANK BAKER, 3 Sargent Street. I called at Dr. O. E. Newton's office this morning, being under his treatment for Catarrh and Bronchitis. I had not gotten up until 10 o'clock, on account of a terrible beadache. Upon taking Dr. Newton's headache medicine through his Atomizer, after the application I felt like I had another head on me, all pain baving disappeared, and being entirely cured in less than five minutes, and my head feeling fresh and bright after he had got through with his application. I can recommend Dr. Newton's Headache Cure to any one suffering with any kind of headache or pain in the head.

Respectfully,

Residence, Britzville, Dubois county, Ind.

WILLIAM ENGLEST, Residence, Britzville, Dubois county, Ind.

NEWPORT, Kv., March 2, 1882. DEAR UNCLE—Having suffered for fifteen days with severe and continuous pain of my head, so terribly as to require that I should give up business as clerk on the steamer. Ohio and having heard of your late discovery for the cure of any form of Headache or pain of the head, at 4 o'clock yesterday I applied to you for relief, and in less than five minutes my head was free of all pain, and my previous vigor seemingly had returned. Since then have had no pain, and have taken my place to-day, from which I had been absent for fifteen days.

have had no pain, and have taken my place to day, not a doubt of your ability, may know the desire this to be known, that others who may have a doubt of your ability, may know what relief you gave me. While in your office I heard others say "that they had also previously been as quickly relieved of pain in the head as you had succeeded in relieving me." This information removed the doubt that I had had previously.

I might add that no one could realize my happy change of mind, when only a few minutes before I had feared, etc., etc., and to be instantaneously relieved, and to be made to feel cheerful and confident. I beg to sign myself. Your obedient servant,

OLLA NEWYOK.

P. S.—I am well acquainted in the West, having been an officer of the Pomeroy and Bi Sandy Packet Co. for years.

Dn. O. E. Ngwton—Dear Sir—Having witnessed the immediate relief that you gave a lady, while visiting your office the day before, who was crying from pain in her head, I was induced to try your treatment upon myself, for the relief of periodical attacks in my own case. I cheerfully say that by one simple application that the relief to me was full, and as immediate as the case I had the day before witnessed. I beg to sign myself,
Yours, Very Truly.

Manager of American Union Telegraph Company, Fourth and Walnut Sts.

Dr. O. E. Newton—Dear Sir—Upon Thursday last I was so severely attacked with nervous headache, that I was obliged to quit my business as plasters. Having heard of your treatment being recommended by two patients, who said that you had cured them the day before of pain in the head in less than five minutes, I applied to you, and you cured me in less time, and I have had no pain since the single application that you made. Please to accept my thanks, and believe me,

Your obedient servant,

Lusz I McGlwyn. Plasterer Contractor, bet. Vine and Walnut

Begs to announce that This treatment is successful in Neuralgia of the Face or Head, and gives immediate relief. Treatment and Instrument sent to any part of the United States or the Canadas for a Post-office Order or Banker's Check for Five (\$5.00) dollars. Sent PREE of Express charges.

Directions for Using my Treatment for the Radical Cure of Headache and Neuralgia.

This medicine will be used with my Atomizer thus: Have the patient seated in a chair wash the nose with water inside by insufflation, after which blow all the mucus out of the nose. Then gently and continuously press the bulb until the medicine is tasted in the throat. Then use in the other nostril in the same way; then have the patient draw four long breaths of fresh air; then to be seated in the chair again, and repeat the spray on each side. The patient then to walk across the room twice, drawing in long breaths of fresh air and the patient will be relieved of headache every time. If there be any heat in the head before using the spray lay a dampened towel to the head. In not one single instance, and I have applied it very frequently, have I falled to radically relieve.

O. E. NEWTON, M. D.

Price \$1 75, send free of Express charges.

MY GOLDEN ATOMIZER.

This Instrument, if handled carefully, will not get out of order, but it is not a toy play with. When the patient tastes the spray in the throat, that fact tells him that enough has been used. This is always known by me without one word spoken by the patient, be always moves away from the instrument when he has enough, or can taste it in ituroat. There is just one precaution to be guarded against, and that is not to try to do much. If you do, you may be too long in using it, and get confused. But an even price is sufficient with all.

O. E. NEWTON, M. D O. E. NEWTON, M. D.

THE DOUCHE.

whether customers wish Let the patients charge the bulb, open their mouth, and, while drawing in a long breath, pass the instrument backwards until it touches the back part of the throat, when you will quickly press the bulb. When the fluid reaches the throat, if the patient leans the head a little forward, the wash will come out of the end of the nose, showing that the whole lining membrane of the nose to be washed. Though it is not essential that the medical fluid should come out of the nose in treatment for Catarrh, as the posterior nares only is to be washed by the Douche. The Atomizer washes the front.

The Douche, I said, should be used twice a day, but if you have a very bad case of Naso-Pharyngeal Catarrh, where the patient suffers from accepious and continuous flow from the posterior nares, the Douche in this instance should be used three (3) lines a day.

Price \$1.50, sent free of Express charges.

Price \$1 50, sent free of Express charges.

O. E. NEWTON'S GOLD INHALER AND LUNG DILATOR.

The Inhaler is to be recharged when no strength of medicine is noticed by inhalation to be recharged every other day is generally sufficient. After using, both ends should be closed closely. This instrument acts as a Dilator of the lungs, as, well as an Inhaler for the lungs, it have had patients say they measured one inch more around the chest at the end of one month's treatment in cases of Censumption. ORIN E. NEWTON, M. D. Price \$1 50, sent free of Express charges.
