Last evening the star was 'Squire Schultze, and the investigation assumed the proportions of a light comedy, which was greeted by uproarious laughter. There was good crowd in attendance; all the commiteemen, several councilmen, the lawyers, rosecutor and defendant.

It was just 8 o'clock when Chairman Hilireth called the meeting to order. When the mmittee adjourned at the previous meeting, the defense has just closed the examina on of Chief Eccles. Upon opening last night Mr. Russell stated that before the cross examination commenced, he would like to

examination commenced, he would like to ask a few more questions, and permission being given, he asked Eccles if he had ever applied for duplicates of receipts, for money turned over to the city.

The testimony of Mr. Pendleton about the conversation he had with St. Myers about the reel at the time I brought suit against the Register, I overheard, and Mr. P.'s testimony was correct. St. Myers told him of such an order, and he talked of bringing suit against the Register too. I spoke to Mr. Handlan about feeding my horse, and he said it was all right, there would be no objection."

The witness was then turned over to the defense and testified in effect as follows:

Don't remember when I first got a horse. It was a black pony that I spoke to Mr. Handlan about; I guess it was about six months before Mr. Handland's time as chairman expired. I never brought the matter of feeding it before the committee or

I never brought the natter of feeding it before the committee or Council; supposed Mr. Handlan after I spoke to him would do all that was necessary, I know enough about the ordinance so as to do my business. Did not know there was anything in the ordinance that would forbid by feeding the horse at city expense. Never anything in the ordinance that would forbid fly feeding the horse at city expense. Never had that animal or any other horse of mine shod at city expense. The spotted horse belonged to Dave Henry; he bought oats and can tell how it was fed. I used the horse; my present horse I got last fall. I believe I spoke to Mr. Criswell and to Mr. Kimberly about feeding it, and my impression is, they said keep right on the same as when I had in the past. The remainder of the testimony of this ritness was such as he had before given and which has been reported.
