The Opera House has been secured for February 15th, by the Union Benevolent Society, who will at that date give an entertainment on a grand scale, for the purpose of railing the funds necessary to the carrying on of the enterprise. A varied and interesting programme is under consideration by the committee, though as yet no definite steps have been taken in regard to it. A meeting of committees will be held this afternoon at the house of Mrs. A. W. Kelly, on Twelfth street. In the Fifth ward, the fight between the citizen's ticket, endorsed by the Republican voters, and the straight Democratic ticket, is familiar to the public, having been made for the main part in the mewapapers. Mr. Larkin is circulating circulars opposing Mr. Hoffman's election, and attempting to arouse the prejudices of the workingmen by reiterating the exploded stories of the latter's hostility to the Knights of Labor.

The canvassers of the votes will not announce the result from time to time during the day, as is done in the case of general elections, but owing to their work, the counting of the ballots will be completed much before a late hour of the evening.

Sin.—A report having been circulated that Spaulding K. Wallace, candidate for Mayor, was not in sympathy with the workingmen, I beg leave to call attention to the following facts, which should certainly refute the wifriot misstatements made for election purposes.

All mill men know that Spaulding K. Wallace worked for seven years at a
naif machine in the LaBelle mill. His
decided stand in opposing the reduction of the boilers and heaters and in
favor of the demand of the nailers, at the
manufacturers' meeting of September 19, 1832;
is also well known to the workingmen of this
city. His kindly disposition towards workingmen is shown by the following incident
of the late strike: YESTIRDAY morning about seven o'clock, the chimney of W. A. McClusky's residence, on North Mairr street, was discovered to be on fire. The Vigitant Company being just across the street promptly extinguished the fire before an aiarm could be given. In the afternoon about four o'clock Felber's grocery, on the corner of Eoff and Bighteenth streets, was found to have a chimney on fire. Word was sent to the Atlantic engine house, and the flantes promptly extinguished by that company without taking out the reel.

igmen is shown by the following incident the late strike: Some time after the mills had shut down Some time after the mile had sout down, a worker in one of our mills, at the time living: in a house owned by Mr. Wallace, approached him, and offered to say him part of the rent then due. Mr. Wallace declined to receive it, saying at the same time; "Pay me at another time; wait till the mill starts."

Mr. Wallace is a large owner and director in the LaBelle mill, of this city, and also the Jefferson mill, of Stephenyille. He is also a public-spirited citizen, taking an active increast in all public improvements, cheerfully contributing his time and money. He is at present one of the directors of the Children's Home, a charitable institution whose good works are well known. Buch a record calls for public approval and should insure the election of Spuiding K. Wallace.
