A Natural Gas Boom.

A Natural Gas Boom.

M. Poul Globe.

In celebration of the first lighting of natural gas in the Wheeling mills and factories last Tuesday morning, the Daily Invilligences of that city issued a mammoth sixteen-page illustrated edition, containing a complete history of Wheeling's grand manufacturing industries, and a succinct statement of the advantages to be derived from the use of natural gas. Wheeling ranks as the first city in the world in its nail manufacturing industry, and next to Pittsburg in general iron, steel and glass manufacturing. The largest glass furnace in the world is located there. Consequently, it is easy to imagine what rejoiding the lighting of natural gas in the hundreds of mills and factories of this great industrial center produced. It is the dawring of a new were of prosperity for the city. There can be no competition with natural gas. It is the rock bottom of manufacturing, and the future of Wheeling's industrial prosperity is now assured beyond all possibility of doubt. But it still must be a question of doubt. But it is the biggest boom for the city. There can be no competition with natural gas. It is the rock bottom of manufacturing, and the future of Wheeling's industrial prosperity is now assured beyond all possibility of doubt. But it still must be a question of doubt. But it still must be a question of doubt in the minds of Wheeling people which is the biggest boom for the city. on Wednesday and Thursday-Prepara-People from Abroad Arriving.

People are already commencing to a

rive in the city to attend the great Tri-State Reunion to be held here on Wednes lay and Thursday of this week. The in dications are more and more favorable every day. The crowd bids fair to be at east twice as large as any gathering in Wheeling on any former occasion. The last meeting of the various committees will be held at the Chamber of Commerce this evening, on which occasion the Chief Marshal for the grand parade on Thursday and bis aides, and the other officers of the affair, will be selected, the programme perfected and all the minor details of the arrangements completed. The impression seems to prevsil in some quarters that a ctarge for admission to the fair grounds is to be made on the occasion of the reunion. This is entirely erroneous, The exercises are freely open to everybody, and the public is cordially invited and will be warmly welcomed.

CUSTER'S OLD MEN.

The SUTVIVING members of the troops commanded during the Rebellion by the gallant and lamented Custer, who intend to be here this week in attendance upon the Reunion, can be easily picked out by their neckties. They have decided to wear long, ilaming red scarfs, such as their brave commanders always used to wear. Custer's long, yellow hair and his flaming neck-scarf always helpsd to give that air of dash to his appearance that act the men wild with enthusiasm and made them willing to follow him anywhere.

A NEW DAILY PAPER

Union Printers.

It is officially announced that the Sun day News-Letter will to-day issue the firs number of an afternoon daily newspaper to champion the cause of the compositors lately employed on the daily papers. When the printers stopped work it was said that a co-operative paper would be started by a number of them, using the

started by a number of them, using the Boycotter's plant. It so happened, however, that the present facilities of the Boycotter would not permit the immediate execution of this plan, as that paper is so far without a press. The recent labor demonstration and picuic was gotten up for the purpose of raising money to purchase a press for the Boycotter, and the proceeds were ample for the purpose. A committee was appointed by the Trades Assembly to purchase a press, Mr. W. S. Meek being the chairman. So far, however, the press has not arrived, and the News-Letter publishers embrace the opportunity offered has not arrived, and the News-Letter pub-lishers embrace the opportunity offered to get in ahead of the co-operative scheme and champion the cause of that element of the workingmen which is thought to be in sympathy with the printers who struck.

Mr. Harry B Caldwell has been em-ployed as city editor of the new daily.

The Printers' Case.

The Ohio Valley Trades and Labo Assembly met yesterday afternoon in situation in the daily newspaper offices A resolution was adopted disapproving of the employment of non-union printers in the three daily offices, and a committee appointed to "carvass the situation." A rumor was printed yesterday that Mr. Leper, of the Volksblatt, had signed the Typographical Union's scale. This Mr. Leper says is without any foundation in fact.

Live and Let Live Moundsville Herald.

The Wheeling newspapers are enjoying

the luxury of a strike. Their compositors demand an increase from 35 to 40 cents per thousand. In their reply to the demand the publishers show that Wheeling printers are better paid than those of many cities of double and treble its popu-lation. The papers were able to get out this morping by the aid of cuts, plates, dead "said" ste, horrbly disferred by: dead "ads," etc., horribly disfigured but still in the ring. We hope that the diffi-culty may soon be amicably arranged that cuity may soon be amicably arranged that our worthy contemporaties may come out with their old time vigor. "The laborer is worthy of his hire," but that "hire" should be adjusted at all times with a view to live and let live. It is not best to demand too much of the hand that feeds us, lest by so doing we divest it of its power to feed.

Not Justifiable.

st. Mary's Oracle.

The Wheeling printers are out on s strike. At a recent meeting of the Typographical Union they demanded a raise in price of composition from thirty-five cents per thousand to forty cents. This was refused by the three dailies—the was refused by the three dailies—the Hergister, Intelligencem and Volksblatt—and on Wednesday these typos laid down their sticks and walked out of the offices. Help was summoned, a force of new printers put in, and the newspapers issue as before. In view of all the circumstances we cannot believe the Union men justifiable in their action.

Dr. R. W. Haxlett, of this city, and W. H. It is said that the West Virginia Company will shortly srect a rig and commence boring there. The locality is regarded as exceedingly promising, from the fact that all along the run on Mr. Goering's place surface gas escapes freely and has frequently for a considerable length of time. This fact has been pronounced by many operators an unfavorable sign, as they say it shows that crevices in the rock crust aloperators an unfavorable sign, as they say it shows that crevices in the rock crust allow the gas to escape, and this precludes the possibility of striking a a valuable reservoir. Surface gas was long known to be escaping at Wellsburg before a well was bored. The same thing led to the first prospecting in the Washington field. Many years ago it was noticed that gas was bubbling up through the waters of Chartiers creek, near Washington, Pa, and from this knowledge, when natural gas began to supersede coal, sprang the gas began to supersede coal, sprang the Hess well No. 1, on the banks of the creek immediately opposite the bubbling gas When what is now known as the Gants sand was struck in this well, at a depth of sand was struck in this well, at a depth of over 2,000 leet, a generous flow of gas made glad the hearts of the pioneer projectors It is not impossible that boring or Mr. Goering's place might result in as rich a find as the Heas well's.

The company will in the future require all men em-ployed by them, including the switchmen, who are also obliged to go through the examination to know how to read and the examination to know how to read and write. It is said, strange as it may seem, that a number of the men now holding important positions are very poor readers and writers. A revised code of rules and regulations, comprising changes in signal lights and whistles, is to go into effect on this road on October 3. The code has been arranged in order to have a uniform system of signals over the entire Baltimore & Ohio system, and to prevent mistakes, the whole force of employes will be examined on the code a failure to pass the gar. from an extended pleasure trip to Eastern watering places, and are again at home to their friends at their pleasant home on Col. They were accompanied by Mr. C. S. Terriil, Jr., of this county.

Two young relatives of McNichols' wife called at the Intelligences office Saturday and asked to have it stated that Mrs. McNicholsdenies that her husband knocked her down or struck her mother the evening he was arrested. The two young men admitted that she had said so that vening, but said she desired to take A State Assembly, K. of L.

Hon. B. L. Butcher, who has resided here since 1881, when he came here to fill the position of State Superintendent of Free Schools, will this fall return with his family to their old home in Randolph county. Mr. Butcher is largely interested in real estate in that county, and will, in addition to looking after that, resume his legal practice. The many friends of Mr. and Mrs. Butcher will be sorry to have them leave. At a meeting held at Clarksburg last

week, a State Assembly of the Knights of abor was formed, with headquarters in this city. J. H. Burtt, of Wheeling, was elected president, George L. Muhn, of The "Cyclones" and "Invincibles," two local base ball nines, played a game yesterday afternoon, which resulted in favor of the Invincibles by a score of 21 to 5. The winning club was composed of Hartman.c.f., Walters, r. I., Loomis, p., Bird, Wheeling, secretary, and L. C. Baker, of Valeshing, secretary, and L. O. Baker, of Clarksburg, treasurer. An executive board was elected and committees appointed to draft by-laws and prepare an address to the public.

The next meeting of the State Assembly will be held in Parkersburg, the first Wednesday in May, 1887. c.; S. Walters, I. I.; Sugar, 2 b.; Glessey, 1 b.; Miller, s. s., and Ruff, 3 b. Tony Pastor's Company,

There has not been as funny an enter alnment, nor one with as many meritorious features, on a Wheeling stage for a long time, as that given by Tony Pastor's company at the Opera Honse Saturday company at the Opera Honse, Saturday night. From beginning to end it was enjoyable. The Dare Brother's horisontal bar performance was wonderful, especially some of the feats of Stewart Dare, who is a one-legged man. Flora Moore caught the house as she always does. Tony Pastor was received with a regular ovation, and throughout the evening the large audience was enthusiastic in its demonstrations of approval. The steamer Princess, the popular Bel-laire packet, is to go on the docks at Cin-cinnati and be thoroughly overhauled and painted.

The steamers Harry D. Knox, C. C. Martin, Barnard, Jacob Heatherington and the George Strecker, are in the mouth of the Kanawha at Parkersburg. A large number of empty barges are also laid up at that woist.

at that point.

During the life of the steamer Louise, formerly in the Marietta and Charleston frade, seventeen people have fallen overboard, of whom sixteen have drowned. One only has been saved, and that through the prompt action of the mate, Thos. Blackburn, of Gallipolis.—Marietta Leader, Minstrels To-morrow Night To-morrow evening McNish, Johnson & Slavin's minstrels will hold the boards at the Opera House. The sale of reserved sests commence at Baumer's music store this morning. The company is pro-nounced by many of the eastern papers the best on the road this sesson. That it is a good one may be assumed, for the three proprietors are a show in them-selves. The Fannie Preston is running in place of the Harry D. Knox in the Parkersburg and Marietta trade. The General Dawes is running in a lower Cincinnati trade during the low water.
