ANOTHER practical talk to men will

tisement of I. G. Dillon & Co., published

in this issue, announcing the with-

drawal of Mr. Charles Hancher and the

admission to the firm of Mr. Frank B.

Ross, who will hereafter have charge of

the engraving department. Mr. Ross

has admirable taste and splendid ability

in this line. He has been with Mr. Dil-

lon for several years, practically grow-

ing up in the jewelry business with him,

and his admission to the firm at this

time is an acknowledgment of his

worth that will be very gratifying to

Mr. Ross's friends.

UNSWITTING GROCERS.

How Callow Vendors of Soap and Candles

are Worked by Shoppers.

About three weeks ago two fine look-

ing young ducks worked several grocers

for their wrapping paper and bags. Their

plan was to enter a store, notice the

paper and bags not printed, and

offer to print it free of charge for the

privilege of placing a small card of their

own unimpeachable grocers' goods

under their paper, but they are still long-

ing for it, for it has not returned.

During the present week, another smart

young business man has more effectively

pulled the lower links of a number of

grocers. His scheme was just as simple.

He offered them a splendid article of tea

at fifty cents a pound, in consideration

of the fact that some one he represented

had been caught short. The sample he

showed was fine, and he sold in all about

\$500 worth of tea. It was delivered and

the money collected, but when he had

shipped and the tea was opened was

found to be worth about twenty cents

a pound. Goods are not always like the

samples.

THE OTHER SIDE'S VIEWS

Of the Building Strike and its

Complications.

A PLANING MILL MAN TALKS.

Some Things he Says the Unions do

and Some Things They Don't do.

Meetings of Builders Exchange,

Carpenters and Plasterers.

The Plasterers, Carpenters and Build-

ers' Exchange met last night, but not

together. All three meetings did not

furnish a good time of news, and there

is comparatively nothing to say about

them.

The strike is no nearer a settlement

than it was two weeks ago to-night, when

the conference between the Builders'

Exchange committee and the Building

Trades Council adjourned. Neither

side has offered anything looking to a

settlement since that time and no one

will venture a guess as to when an offer

will be made.

The striking workmen have had their

strike recognized by the Federation of

Labor and their respective national or-

ganizations, and all hands will be draw-

ing strike benefits in a few days. It is

reported that the plumbers are already

getting their benefits.

The Builders' Exchange has promised

to present a full and complete statement

of the case from their point of view for

publication Monday. A committee sent

this afternoon to the city formerly known as

La Grange. Consideration, \$705.

ANOTHER practical talk to men will

be delivered at the Y. M. C. A. building

next Tuesday evening. The speaker

will be Dr. John L. Dickey and his
