Va., as second-class matter.] TELEPHONE NUMBERS: Editorial Rooms 431, Counting Room 416.

The Intelligencer, WHEELING, APRIL 10, 1894.

without-believing it. They were in the habit of wearing roosters in their hats about campaign time and they wore them in 1892. But in the Democratic Congress the theorists are at the helm as they were in the national convention; they make the tariff bill and they confound their associates with the platform. It is true that this platform is made to do duty in the house for one sort of tariff and in the senate for another—for no duty on coal and for a duty on coal—and true that neither bill is in harmony with the platform. This makes no difference. The theorists are determined and the practical men in the party have not shown the nerve to upset them. Only seventeen Democrats in the house voted against the Wilson bill. It is not yet certain whether one Democrat in the senate will stand out against the bill. It is one thing to be against free trade and another thing to vote against it. Republicans are against it and vote against it.

and it should be easy to reach some of it. It occurs to us to suggest in passing that a bottle that cannot be refilled would be useless as a "growler." ACCORDING to Senator Voorhees it is a crime and a national calamity for anybody to accumulate wealth in this country. A man who wants to get ahead in the world should go to England, where wealth is respectable and is often given a title. The governor of South Carolina thinks Congress has nothing to do with the telegraph lines running into his state. The supreme court of the United States thinks it has. Governor Tillman is entitled to another think. NEVER mind what the almanac says. You can't count on the weather at this delusive time of the year. Look at yesterday for a day in a civilized land, fair and smiling in the morning, hail in the afternoon. BREAKFAST BUDGET. The Maple Creek Lyceum of Nebraska discussed the question: "Had the South a Right to Secede?" The affirmative won, but they were pretty nearly as badly used up as the negative, and the furniture was in splinters. Largest of all the residents of Bloomington, Ill., is a young man of twenty-five years and 452 pounds weight, who is locally known as Baby Bliss. He wears a 19 1/2 collar, a 7 1/2 hat and No. 12 shoes. Attention has been called to the fact that of the 55,708,720 bushels of grain exported from the port of New York in 1893, not one bushel was shipped in a vessel flying the American flag. Recent statistics show that about half the population of France live by agriculture, a tenth by trade, a twenty-fifth by liberal professions and three-fiftieths on private incomes. Probably the only "duck farm" of any size and importance in the vicinity of New York is that near Little Falls. Three acres of land are given to the raising of ducks. According to federal law, each state is entitled to a duplicate of the brass Troy pound measure, which is in possession of the United States government. Old Hurd church was built near Harrodsburg, Ky., in 1797, and it is said that weekly meetings have been held there ever since without a single exception. A carload of Kansas sorghum seed was shipped this month to the island of Malaga in the Mediterranean sea and another carload went to Australia. Great Britain proposes to build at once thirteen ironclad warships, thirty-seven cruisers, sixty-four torpedo destroyers and six sloops, expending \$80,000,000 during the year. Vienna has entered upon an extensive scheme of embellishment, and unsightly public buildings are to give place to new ones of artistic design. The old style square pianos are things of the past, there being on demand for them nowadays. John W. Morse married Mary Good in Southampton, England. Oklahoma has a sheriff of the name of Fightmaster.

Senator Hill's Speech. Senator Hill's long expected and much advertised speech has been spoken. He roasts the administration to a turn and calls Senator Voorhees a "blatant demagogue." He denounces the Wilson bill and huris his contempt at the senate amendments thereto. All this is doing quite well for a Democrat speaking of Democrats and Democratic policies. Still Senator Hill does not say that he will vote against the tariff bill. The simple words, "I will not vote for this bill," would have had more weight than the whole of his spectacular and sensational effort. This is precisely what Senator Hill did not intend to say. If he has resolved to vote against the bill he has resolved also to keep the senate and the country guessing as to his intention. It may be that his plan of campaign is to encourage the friends of the bill to believe that with the income tax out he will give the measure his support, and that having gained that point he will go against the bill anyhow. This is only a possibility. It will not do to rely on it. Again it may be that he is convinced that with the income tax out the house will never agree; which would accomplish his desire without having to go on record against his party on a vital measure. The speech is entertaining for its boldness and bitterness as far as it goes. It stops short where the real entertainment and the real enlightenment as to his position might be expected to begin. PRESIDENT CLEVELAND, Judge Graham, Senator Voorhees and Mr. Wilson have just cause to hold a lodge of sorrow over their contemptuous treatment by Senator Hill. No Comfort for Lil Here. It is understood in Honolulu that Elioukalani has sent an agent to this country to demand of the President just what he is going to do about restoring her to the throne. The appearance of the agent on this mission will be embarrassing to the President. He has told the ex-queen that a "great wrong" has been done her and that a great nation would right it. As the head of the great nation spoken of, the ex-queen believed that the President knew what he was talking about and had the power to carry out his programme. Lilioukalani should credit to the President's account his determination and earnest effort to give her back the throne which the people of her country took from her; and if she had been more appreciative of the President's honorable intentions and his utter helplessness in the matter she would not further torture him with "gents and demanda. The one thing that is settled with regard to Hawaii is that the United States will take no steps to restore the monarchy. This country may leave those islands for the present to work out their own salvation, but it will not try to save them through a monarchy. Public sentiment and Congress understand each other on this subject and are in entire agreement. At a later day Hawaii will be incorporated in the United States. Destiny may be delayed but not defeated. SENATOR HILL puts the knife into the President and gives it sundry sharp and malicious turns. We seem to hear the edge thereof grating against the bone. The Way to Oppose. On his way back from the woolly west to the lair of the Tammany tiger Boss Crocker takes time to express himself on the tariff bill. In his opinion the income tax is an outrage. As for free trade, the Democracy of New York is against it. If anybody understands the Democracy of New York Mr. Crocker does. He performs a considerable part of its thinking and more of its doing. It may be said of the New York Democrats as of all others, that in 1892 they went to the polls and endorsed the Democratic declaration in favor of a tariff-for-revenue-only and with their votes approved that part of the platform which denounces protection as unconstitutional. Thousands of Democrats did this who do not believe any such thing. The theorists of their party laid down the doctrine and the others endorsed

REPUBLICAN CLUB Organized at Glen Easton—A Good Start Made Early. Special Correspondence to the Intelligencer. GLEN EASTON, W. VA., April 7.—Pursuant to an announcement a large number of the citizens of Glen Easton and vicinity, met at the school house last evening and was called to order by W. H. Harris who, after stating the object of the meeting, provided to organize a Republican Protective Tariff Club. A permanent organization was made by adopting a constitution and by-laws, and selecting the following officers: President, Bruce Crow; vice president, John H. Hubbs; secretary and treasurer, John W. Crow; sergeant-at-arms, Leroy Enix; janitor, Earl Rickey; executive committee, W. H. Harris, W. O. Grimes, Leroy Enix. After the election a few minutes was given for any present to come forward and sign the constitution to which all present subscribed, after which the meeting was called to order again by the president, who made a short speech and was followed by several others. On motion the following resolution was adopted by a unanimous vote: Resolved, That the club condemn the infamous tariff bill now pending before the United States senate known as the "Wilson bill." The meeting was large and enthusiastic throughout, and the club starts with some thirty to forty members and promises soon to reach a hundred. The club meets every Friday evening at 7:30 p. m. A splendid programme is arranged for the next meeting. If the Republicans of the county are as wide awake as they are here at Glen Easton, you can put old Marshall down for 1,000 majority next fall. PANIC IN A SCHOOL In Chicago, Caused by an Explosion—One Boy Killed and Several Pupils Badly Injured. CHICAGO, April 9.—A panic occurred in the Humboldt public school this afternoon, and in the mad rush of the children to escape from the building one boy was killed and over a score were crushed and trampled. Fourteen children lie in the St. Elizabeth Hospital under the care of physicians while many others were carried to their homes by the police. The children were preparing to leave for a recess when a loud explosion startled every teacher and pupil in the school. A steam pipe had burst in one of the rooms and a moment later the children were rushing pell mell through the halls and down the stairs, shrieking with fear. The stairway became choked with the terror-stricken children, and as they continued to pour out of the rooms to swell the surging mass in the hallways, those in advance were thrown down by the onward rush of those behind. Over the prostrate bodies of the fallen companions the children fled while the teacher strove in vain to check the panic. The fire and police departments were soon on the scene. The firemen soon recovered fifteen children who were hurried to St. Elizabeth's hospital. On the way one boy died. He was David Gunstee, 702 Dana avenue. Among the injured and likely to die is Grace Schubert, daughter of Fire Marshal Schubert. RECOMMENDED FOR PAROLE. Editor Elliott, of Columbus, May be Released—It Causes Some Feeling. COLUMBUS, O., April 9.—Warden James and the new chaplain, Rev. Mr. E. Wingate, of the Ohio penitentiary, have recommended Patrick J. Elliott for release on parole. He and William J. Elliott February 23, 1891, killed two men and wounded nine others on High street on account of a newspaper feud of a personal character. The warden says he is now required by the board of managers to recommend for parole any prisoner who may ask for the same and whose record as to prison conduct is within the requirements, the board assuming all responsibility as to paroles. Patrick was sentenced for twenty years. There is much feeling here upon the subject. Cholera in Turkey. CONSTANTINOPLE, April 9.—Cholera is spreading here in alarming manner. Four Big Successes. We are prepared to move pianos carefully and promptly. Mr. F. W. BAUMER & CO.

OUR MINISTER'S WIFE. Some Things Which She Knows and Tells. The position occupied by the minister's wife enables her to hear many things of great interest, and people are always curious to talk with her. As she is sure to relate facts just as they are, it makes her conversation all the more important. Mrs. Rev. W. B. Worthing of West Berlin, Va., is a most charming and estimable lady. She has lately been besieged to such an extent regarding a certain incident, that she writes the following letter for the public benefit: "Last March I had the grippe, which left my stomach in such a condition that it would not digest anything. I could not eat even baby food without the greatest distress. My nerves were in a fearful weak condition, and I could sleep but little. I was also full of rheumatism from head to foot, and ached awfully night and day. "I was in a terrible state and feared I should never get well. I tried physicians and medicines, but got no better. Having heard the most astonishing reports of the good done by Dr. Greene's Nervura blood and nerve remedy, I determined to try that this time instead of physicians. "I commenced its use and am happy to say that the results most pleasantly surprised me. I received help from the first dose in the digestion of my food. This I know surely, for I left it off for one meal and plainly noticed the difference. "After taking three bottles my digestion was even better than before I had the grippe, and my nerves were entirely restored to their normal condition. My rheumatism left me and I had no more pains at all. "I was entirely cured of all my troubles, and all through the aid of Dr. Greene's Nervura blood and nerve remedy. It is a wonderful medicine, and I advise everyone who is sick or suffering from any cause to take it. It cures me and I am confident it will cure others." What a remarkable inducement to take this medicine. It is the most certain cure known for weakness, nervousness, indigestion, constipation, and all blood and nerve diseases. It is the best thing for kidney and liver complaints. Take it now, in the spring, when you can be cured quickest. Your blood demands a spring medicine, and Dr. Greene's Nervura blood and nerve remedy is the best, because it is purely vegetable and harmless and always cures. It is the discovery of our most successful specialist in curing nervous and chronic diseases, Dr. Greene, of 35 West Fourteenth street, New York City. He charges nothing for consultation, either personally or by letter. If you live too far to call, write him.
