

THE FILTHY CREEK.

A Clash of the Fulton Authorities on the Matter.

THE HEALTH BOARD WAS OPPOSED

By the Mayor, and Nothing Could be Done—A Good Suggestion as to a Plan by Which the Cess Pools Can be Easily Flushed Out—What Right Has Anybody to Dam the Creek?

The efforts of the Fulton council's local board of health to secure better sanitary conditions came to a short stop. Chairman Friesmuth reported to the town council that the board had ordered a number of the butchers to clean up their slaughter houses and premises, and that the order had been ignored. Mr. Otto Schenk then rose and said the butchers had been instructed by the mayor to pay no attention to the order. In this very peculiar condition of affairs, the board felt that its hands were tied.

Mr. Friesmuth asked that council authorize him to summon the state board of health, to view the situation and take action, but the council refused. The exceedingly bad state of affairs therefore remains unremedied. The condition of the creek is rendered ten fold worse by the existence of a number of dams in the creek at Fulton and below. What right anybody has to dam a running stream does not appear, but when the Fulton board proposed to remove them they were defied. Each holds a mass of putrid animal matter, horrible to contemplate, exhaling odors that are offensive an eighth of a mile away.

The people who are responsible for the presence of filth in the creek can easily be reached under the Baird pure water law, and the prosecuting attorney is the proper party to see that its provisions are enforced.

A good suggestion has been made by a citizen. Fulton now has an eight-inch water main from the city. Arrangements could be made to have both the city's pumps run some night, and after nightfall turn the whole volume of the Fulton main into the creek. This would give it more water than it has had at any time this summer, and by morning the creek would be pretty well clear as far as the river. This would do a world of good, not only at Fulton, but clear through the city limits, where the creek is now no better than an open sewer.

SOME VERY GOOD ADVICE.

A Leading Agricultural Paper on the Value of Fairs.

In the current issue of the National Stockman and Farmer there is an editorial advising support of fairs, in the course of which is this paragraph:

"Those who have observed carefully the results which follow where agricultural fairs are properly conducted know the influence which they exert upon the farming interests of the country in which they are held. It is safe to say that the improvement in live stock and agriculture in general in this country is due more to the fairs than to any other one cause. Enthusiasm is contagious, and visitors who inspect the exhibits are liable to become as interested in improvements in all directions as are the exhibitors. Fairs, when conducted as they should be, are great object lessons that can be taught in no other way, and the impressions they make are forcible and far-reaching. Many who have been successful in breeding or farming owe their success to impressions and ideas received at some such exhibition."

It is notable that the West Virginia, Iowa, New Jersey, Vermont and Ohio state fairs all come in the same week this year, as well as the New England fair at Worcester, Mass. It is safe to predict that the Wheeling fair which opens September 3 will be the equal of any of them.

From this date on a committee of ladies will be on the ground daily, in charge of the women's and similar departments. The association's office on the ground is also now open, with J. B. Handlan, superintendent of privileges, in charge, and he can be seen there any day during business hours.

The speed entries close Monday evening at 11 o'clock. Some first-class fast ones are already on the list, and the best horses that ever went on the track are promised.

LOCAL BRIEFITIES.

Matters of Minor Moment in and About the City.

MATINEE at the Grand to-day.

THE GRAND this evening—"The Boy Tramp."

The LaBelle and Warwick potteries will pay off to-day at 10 o'clock.

Holliday's planing mill paid off their mon yesterday and will remain closed to-day—Labor Day.

Mrs. Ott will open a new confectionery at the corner of Twenty-fourth and Market streets in a few days.

Last night Officer Herbert arrested Nelson Berry and Thomas Perkins for fighting in the Second ward.

The German Lutheran church held a very successful picnic at Mozart park on Thursday. A large crowd attended.

The Riverside mill and Bloch Bros. will pay off this morning and remain closed to-day on account of the Labor Day exercises.

A new curb is being laid in front of the Friesmuth property on South Market street, preparatory to laying a new cement pavement.

The Chicago Tea and Spice Company, of 2235 Market street, announce their opening. A present will be given with every pound of goods.

A number of the Spiko Island Fishing Club returned yesterday from their camp at Woodlands to participate in today's labor demonstration.

Trials of seats for the Masonic outing and operatic performances next Friday and Saturday opens at C. A. Hous's music store Monday morning.

Prof. D. BREWSTER, the evangelist, who has rented Odd Fellows hall for one year, will preach in the hall Sunday at 3:30 in the afternoon. All welcome; seats free.

A bunch of keys was found yesterday evening at the corner of Twelfth and Chapline streets. The loser may recover them by calling at police headquarters.

A noise belonging to Dannenberg Bros., and ridden by a boy, became frightened yesterday at the corner of Thirtieth and Edd streets and threw the boy off.

YESTERDAY in Squire Manion's court a peace warrant was sworn out by Mrs. Mandy Robinson for Mrs. Hiram Cole. Mrs. Cole was put under \$50 bond to keep the peace.

The Baltimore & Ohio Railroad Company has made the Glen Dale coal works the coaling station for the fourth division. A company's store has been opened up there, and the works are running regularly.

The railroad people say that the fairs along the Ohio River road are being better attended this season than for several years past. This is a surprising condition of affairs, as it was thought that the hard times would create a decrease in attendance.

THERE is great complaint about ferocious dogs on the Island. On South York street there are two which it is dangerous to pass after dark, and on Maryland street there are three of the same kind. People who are rightly annoyed with them have lost patience, and seriously talk of administering a dose of cold lead.

In the police court yesterday morning Thomas Connors and Ed Combs, charged with disorderly conduct, were fined \$1 and costs each, and in default of the cash both went to the jail. Edward Miller was arrested by Lieut. Lukins for non-payment of his stall rent at the Fifth ward market, but was let go on paying up.

It Was a Mistake.

The special telegram from Martinsburg printed yesterday was misleading. It was not G. W. L. Mayers, who was arraigned in court at Winchester, but his brother, G. F. Mayers.

The case was first taken to Martinsburg for trial, but the judge there was compelled to dismiss it from the lack of jurisdiction. It was then taken to Winchester, Va., for trial and ended on Monday with the compromise between the parties concerned.

Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her, and she says it saved her life. Mr. Thomas, of 139 Florida St., San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else, then bought one bottle Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which there are samples, that prove the wonderful efficacy of this medicine in coughs and colds. Free trial bottles at Logan Drug Co.'s drug store. Regular size 50c and \$1.00.

AUGUST FOR HEALTH.

It Must be Whether You Take a Vacation or Not.

Take Time Now to Strengthen Nerves and Body.

See That Every Part of the Body Becomes Well Fed.

Eleven months for business, for money-making, for absorbing work. Take August for becoming strong and well.

Get back to your proper weight; relieve the tired nerves of their irritability; fill the body with ruddy, vigorous, serviceable blood. You will work to twice the purpose with a clear head and a body undisturbed by aches and pains. Give Paine's celery compound a fair trial in August.

Weariness and lack of strength is a matter of the nerves and brain. It is the exhaustion of the nerve centers that produces the feeling of lassitude and depression.

Digestion and assimilation are the first to become affected by diminished nerve power, and as these functions are so closely connected with every part of the body the entire system shares in their disorder. Men and women about middle age take little exercise, their blood becomes slow and impure and all their important organs sluggish, while a constantly increasing load of anxiety and care keeps their nerves from being properly nourished. Such persons will find a steady gain in health, in vigor and good spirits from Paine's celery compound taken steadily through the month of August.

The reason for the high regard in which Paine's celery compound is held by physicians for building up the weak, the sickly and the nervous, is because all its ingredients are known to medical men to feed the nerves and to provide pure and rich blood for all the weak parts of the body. Every trace of nervous exhaustion disappears when the nerves that govern the functions of the body are thus abundantly supplied with their appropriate food.

The disturbances of the nervous system, whether neuralgia, rheumatism, debility, extreme nervousness or heart trouble, are due to derangement in nutrition. Headache, a sense of weight on top of the head, a feeling of constriction about the forehead; these are very significant symptoms and should be heeded. Better and more complete nutrition is demanded for the nerves and brain. Thin, pale faces, wasted frames, unhealthy skin and low spirits tell unmistakably of blood too thin and poor to properly nourish the body.

Paine's celery compound brings an increased, natural appetite, assists the assimilation of the food and quiets and restores a healthy nervous action.

"The Boy Tramp."

Those Wheeling favorites, Madame and Augustin Nouville, commenced a three nights' engagement on Thursday at the Grand Opera House. They were welcomed by a big and demonstrative audience. Every familiar scene was loudly applauded. The madame is like old wine—she improves with age, and last night was at her best. Augustin could not open his mouth or make a move but he would bring down the house. The company is very strong, with the exception of Mr. Franklin in Pops Giles. He seems to be unfamiliar with his lines. J. C. Fenton, and Miss Ella Cameron deserve special mention. There will be two more performances, matinee and night.
