### Wheeling's Great Ball Player Will Pose as a Colonel.

### THE LOUISVILLE CLUB'S MANAGER

Was Here Yesterday, and Last Night Secured the Signature of "Jack" to a Contract for the Season of 1895 The Races at Oakley, Providence and St. Asaph-Bowling To-night. Other and Late News of Sport.

Yesterday Manager J. J. McCloskey, of the Louisville ball club, of the Na tional League, arrived in town, his mission being to secure the signature of "Honest Jack" Glasscock, Wheeling's greatest ball player, to a contract for the season of 1895. Glasscock has been in correspondence with several clubs since his release from the Smoky City aggre gation, Louisville among them, but had closed with none. McCloskey and the player were in conference throughout the day, and late last night Glasscock affixed his signature to a contract. The figures are, not made public, but they

figures are not made public, but they are entirely satisfactory to the player, and from the fact that Glasscock nevers before signed so far in advance of the playing season, they must have been quite an inducement. Manager McCloskey is confident that he will have a team secured for next season that will not occupy the position of the 1894 gaug-twelfth place. In Louisville Glasscock will once more be with his old time club mate, Danny. When the two were in Indianapolis several years ago they were unquestion-ably the greatest players in the business. Glasscock, having signed with Louis-wille, means that the will not be con-nected with the Wheeling Ohio state league club that has been talked about lately. PLAY IN WASHINGTON.

PLAY IN WASHINGTON.

The Linsly Foot Ball Team to Play Trinity Ball To-day. This morning the Linsly Institute foot ball eleven, accompanied by forty of their admirers, will leave for Washington, Pa., where the team will line up against the Trinity Hall team this after-noon. The following eleven will reprenoon. The following eleven will repre-sent Linaly: Left end, Statler; left tackle, Otto; left guard, Hay; center, Handlau; right guard, Gatch; right tackle, Fox; right end, Sweeney; quar-ter back, Alexander; right hall-back, Wagner; left half-back, Adams; full back, Turner. Foot ball games will be played to-day between the Y. M. C. A. of Martin's Ferry with Bethany College at Bethany; Vigilant Athletic club, of Martin's Fer-ry, with the Stenbenville Athletic club, at Steubenville. Chance of Bules.

#### Change of Rules.

Change of Rules. A meeting of the board of managors of the Wheeling Bowling League has been called for next Monday evening at the Musce alleys for the purpose of ef-fecting a minor change in the playing rules. As now in force the rules pro-vide that two alleys shall be used in playing the championshing games. This has been found impraticable, as on the regulation alleys twice as much time, almost, is consumed in playing the practice and two championshing games. It is proposed to play on four alleys.

#### To-ulght's Game.

To-algut's Game. This evening at Seibert's alleys the La Belle and Pencil bowling teams, of the Wheeling league, will play the concluding games of the first week of the championship season. Much inter-est is taken as the La Belles are picked out as most likely candidates for cham-pions, while on the other hand, their opponents are considered a short shot for a piace near the tail end.

#### TREND OF TRADE.

R. G. Dun & Co.'s Weekly Review-Little Improvement-Reduced Sales of Amer-ican Wools Even at the Low Price Reached in Anticipation of Free Wool. NEW YORK, Oct. 26 .- R. G. Dun & Co.'s weekly review of trade, which issues tomorrow, will say:

Engrossing political excitement in many of the states causes a natural slackening in some kind of business.

many of the states causes a natural slackening in some kind of business. But on the whole business indications are rather more invorable than they were a week ago. Gold exports have coased. Quite a number of mills have gone into operation, and the demand for products, if not equal to that of pro-perous years, is better than it has been most of the time this year. The prices of farm products do not improve much, and there are still some strikes to resist reduction of wages, so that the purchasing power of the peo-ple cannot have materially increased, but there is more hopeful spirit which prompts greater scivity. On the other hand, the record of past transactions is somewhat less favorable than of late. Payments through the principal clear-ing houses throughout the country shows a decrease of 1.2 per cent com-pared with last year and a decrease of 21.9 per cent compared with the same week in 1892, the decrease for four weeks being 29.8 per cent. The wheat market is a quarter lower and nothing appears to justify any im-portant change. Corn is higher with-

being 29.8 per cent. The wheat market is a quarter lower and nothing appears to justify any im-portant change. Corn is higher with-out any very clear reason and it is note-worthy that at the same time pork is 75e lower; lard 35c per 100 pounds and hogs 40c lower. In iron and steel the west shows weakness, while the eastern markets show more encouragement. Nothing of consequence is doing in rails, the de-liveries for the year to October 1, being only 150,000 tons, much befow ordinary, requirements for renewals alone. In structural work some moderate con-tracts are reported, but bar irón is ex-tremely dull, and it is stated that the low prices reported last week, 95c lor iron and S1 for steel, have been shaded in some transactions. There is declino in wire, S1 90 being quoted for galvan-ized barbed and \$22 50 for wire rods. The best features is that the heavy in-crease in the output of pig does not seem to overload the market and there are rather less signs of pressure to sell than of late. The best features is not as large than of late.

than of late. The demand for wool is not as large as it has been and while prices have scarcely changed for two woeks, prices were put down before the new tariff took effoct, so that results of foreign competition are felt mainly in reduced sales of some domestic wools.

The failures for the week were 231 in the United States against 352 last year, and 52 in Canada against 44 last year.
