A better feeling is beginning to prevail throughout this community, and the hope can now be entertained that the situation will soon war-rant the withdrawal of the United States deputy marshals from the scene.

rant the withdrawal of the United States deputy marshals from the scene.

Cars were run into Benwood yesterday afternoon, and there was none of the hooting and track obstructing that characterized provious attemps to run the cars there.

The service is to be extended to Martin's Ferry to-day, and Marshal Lindemuth has promised the company ample protection.

The union mill men of Martin's Ferry to-day, and marshal Lindemuth has promised the company ample protection.

The union mill men of Martin's Ferry met Wednesday afternoon and passed resolutions deprecating the violence that has taken place in the over-the-river town, asking that there be no repetition, and urging strike sympathizers to help the strike by staying off the cars.

Charles Holderman was arrested at his grocery in Henwood by deputy marshals for violation of a Federal statute. He was released on bond.

The hearings of Rufus Hardfire and Joseph McCrea, charged with violation of Judge Jackson's injunction, took place before Commissioner Boyd. The testimony is to be forwarded to Judge Jackson, who will render his decision soon.

Whether it is the effect of Judge Jackson's plain talk to this community from the United States court bench on Tuesday, or the assertion of sober sense over hot-headedness, the fact is that a better feeling with reference to the street car strike is beginning to prevail both in Wheeling proper and in the outlying towns where most of the obstructions and violence have taken place. The hope can now be expressed that the situation will soon be relieved to such an extent that the presence of e United States deputy marshals can be dispensed with.

All sorts of comments are heard on Judge Jackson's talk, but the sentiments he expressed with reference to violence in aid of the strike have been violence in aid of the strike have been received with satisfaction by the great inajority of the people of this city and neighboring towns. In this connection, it is timely to note the action of the union mill men of Martin's Ferry, who met yesterjay afternoon and passed resolutions deprecating violence in aid of the strike, and asking all who are in sympathy with the demands of the men to give expression to their sympathy by staying off the cars.

## Charles Holderman Arrested.

Charles Holderman, a brother of Oscar Holderman, the young man who was arrested last week by deputy marshals and who secured his release through habeas corpus proceedings before Judge Paull, was arrested yesterday morning at his grocery in Benwood by Chief Deputy Marshal Randolph and Deputy Cunningham. He was on the wason with his brother at the time of the trouble in North Benwood, and it is alleged that he threatened one of the deputy marshals with orrest for violating the fast driving ordinance of the town. Holderman is now charged with violation of section 598 of the revised statutes of the United States, in other words, with obstructing, resisting and opposing an officer of the United States in the execution of an order of the United States court. The warrant was sworn out before United States Commissioner Boyd. Holderman gave bond and was released, pending a hearing later. car Holderman, the young man who

## Arrested and Released.

An Eighth ward man, named Smith was placed under arrest by deputy marshals yesterday afternoon, on the charge of allowing his little child to place obstructions on the street railway The marshals chased the child to its home, shals chased the child to its home, whereupon Smith interposed to protect his child. The deputies then took Smith and allowed the child to go. Smith and allowed the child to go. Smith was brought up town on a ear, and was started on foot to the fall, but on Chapline street, only half a square from the fail he was released by the deputies upon promising that his child would not be permitted to obstruct the tracks ngain. Quite a crowd collected while Smith and the deputies were engaged in their "confab."

## Cars to Martin's Ferry.

The company will extend its service into Martin's Ferry to-day. There has been no effort to run cars in the overheen no effort to run care in the over-the-river town since the disastrous at-tempt of last Sunday, and it will be in-teresting to learn the result of the ef-fort to-day. General Manager Kirker yesterday telephoned to Marshal Linde-muth, of Martin's Ferry, stating the in-tention of the company to run into his town again, and requested protection, which was readily promised by the mar-shal. It is not thought there will be a repetition of the violence that was in evidence on Sunday.

## Deprecate Violence. The meeting of the union mill men of

Martin's Ferry which was exclusively mentioned in the Intelligencer yesterday morning, was held in the city building yesterday afternoon, instead of in Walnut grove, as was first intended. There were about fifty men present at the meeting, which was presided over by Charles James. After several speeches were made, in which the strike at Wheeling was thoroughly discussed, resolutions were passed comending the strikers in their action toward securing a living wage, but deploring any lawlessness upon the part of any of the citizens, and asking that no obstructions be placed upon the tracks of the Wheeling Hailway Company, and that there be no interference in the running of cars in Martin's Ferry. day morning, was held in the city build-

## Cleaning day at the Barns.

Cars were run through Benwood yesterday afternoon, beginning at 2:20 o'clock, and met with no interference, and as if not expecting any there were only a few deputies stationed along the track. Some obstructions near Bogga' run were removed in the morning. The barns presented a house-cleaning spec-tracle, due probably to there being no fear of violence, the opposite side of the street being hare of spectators, and also street being bare of spectators, and also because of the edict of the Benwood coun-

cll which instructed its sanitary inspector, Samuel Blake, to enforce sanitary measures at the barns. Windows that hadn't been opened for ten days allowed the breezes full play, and there was a general cleaning up on the inside.
