DOCTORS USE PE-RU-NA.

DR. J. W. PENCE, NEWARK, OHIO.

NEWARK, OHIO. S. B. Hartman, M. D., Columbus, O.: It is now seventeen years since I received the first edition of your book entitled "The Ills of Life." I received it in the evening mail, and before I retired I read and pondered over every word in the book. I was greatly impressed with your candor and sincerity. The book left no doubt in my mind as to the remarkable virtues of your Pe-Ru-na. It was because of this impression that I resolved I would test your assertions, and test them in a way that could leave no doubt.

I began prescribing Pe-Ru-na, as recommended in your book, and prescribed it precisely as you directed. As you know, the prevailing diseases are inflammations or irritations of the internal organs of the body, either of the head, the throat, the lungs, bowels, etc. I prescribed it hundreds of times for these diseases during all the following seventeen years, and I have never lost a single case during all this time, although I have often related this to my medical associates, who at first expressed their doubts, and sometimes very emphatically, but after I had treated a large number of cases that had been given up, and cured them, they began to believe what I said.

I rely so wholly upon Pe-Ru-na in every disease that affects the mucous membranes lining the internal organs, that I never for a moment think of prescribing anything else. Since using Pe-Ru-na, I have never had a patient die from inflammation of the lungs, bladder, bowels, stomach or kidneys. Every case recovered in a very short time. In other

words, I prescribed Pe-Ru-na for all cases of catarrhal diseases. I believe you are right in classing all irritations and inflammations of the internal organs as catarrh. Catarrh means irritation and inflammation of some mucous surface, and also that such irritation and inflammation are caused either by taking cold, or by some local cause. I see that you generally use a portrait when you publish a certificate, and as I have just had some pictures taken, I enclose you one. You can use it and this letter, one, or both, just as you wish, if you think it will promote the use of Pe-Ru-na. If you would like special cases that I have treated with Pe-Ru-na, I can give you hundreds of them.

Very truly yours, Dr. J. W. Pence. A. W. Perrin, M. D., 850 Halsey street, Brooklyn, N. Y., in a recent letter to Dr. Hartman says the following: "I am using your Pe-Ru-na myself, and am recommending it to my patients in all cases of catarrh, and find it to be more than you represent. Pe-Ru-na can be had now of all druggists in this section; at the time I began using it, it was unknown."
