office as soon as anybody cares to go for it,

The tone of its editorials are generally fair and just, and are always readable, except when it writes on the errors, follies or foibles of the Constitution.

It is printed in a city in which our people are not especially interested, but the attractive style of printing the news, together with the variety and the endless amount of matter which it publishes daily, makes it a favorite with many of our people. It has pronounced views and never tires of expressing them, but the good humor and the high tone which per vades the whole makes it justly a very popu lar paper. Being assured of its own high character and having no doubt of its own houest purposes it does not manifest jeal. ousies or ill-will to anybody, and we do not recollect of an instance where it has sought to injure any one in good name or estate.

The Price of Cotton Seed.

We learn that there is some dissatisfaction because of the decline in the price of cotton seed, and that because of this dissatisfaction much of the seed has been hauled home from the ginneries. The Press and Banner has no zeal on the

matter one way or the other and has nothing to urge, except that planters think well as to what they should do. They need do nothing for spite. The sole question to be decided is the one as to which is to their best, to sell their seed for cost, or to take them home and use them as cattle food and fertilizer.

From the lights before us we are inclined to the opinion that it is better to sell the seed keg of for the cash, or to exchange them for meal and hulls where cattle feed or fertilizer is and hulls where cattle feed or fertilizer is needed. As we understand it, the oil in the seed is worthless as a fertilizer and injurious seed is worthless as a fertilizer and injurious weeks? Just a synopisis. It won't take more than two squares of space. as a cattle food. If the mills take only the the seed to be returned in hulls and meal it seems that the exchange would be advantageous.

To Make Cities Separate Counties. About one of the best suggestions to the

About one of the best suggestions to the Convention that we have seen is one to au thorize large cities to organize, or form themest for the colored people, but will soon be selves into, separate counties.

selves into, separate counties.

In a large city like Charleston, for instance, the people know nothing of the country and people of the country know nothing of the needs and wants of the city. In counties like Charleston, or Richland, the country people have no independent or actural influence in the Government of the county, except in holding the balance of power, and deciding which of the city factions shall rule or gain power. The interests and desires of or gain power. The interests and desires of city and country people are sometimes an tagonistic, and even when they are the same, the country people cannot share in the honors and emoluments, except in cases of grace on the part of city people. Set Charleston oil to herself, and let the countrymen take care of themselves.

We would be glad if all the old teachers could be employed for the next year. They are without exception, we believe, gave satisfaction and too it is often unwise to make changes without cause. Our experience has aught us that when communities have kept the same teacher for years, generally their cohools were more prosperous. We have refreshed to both with and colored schools.

Just Pride.

Aside from the pleasure one experiences from prosperity in his business, the pleasure of letting his enemies—(or those who would discourage him or be gratified at his misfor-ty-Six last Sunday, with a portable bar room.

East End. tone)-see his good luck is no inconsiderable part of the profits. No paper in the state seem to be doing a better business than the Press and Banner, and no paper anywhere could have a more solld hold with the people. Having lived here for many years the editor Roaring Rocky River-Hustling City of this paper is more or less known to everybody in the county, and even where they do

THE OLD FORT.

Country. Ninety-Six, S. C., Oct. 7th, 1895.

Nothing of interest has transpired in our town or community since my last. The weather continues dry and cotton has been coming in at a lively rate. The prices are very satisfactory, though the crop will be short. The prices for cotton seed are too low and the farmers are hauling the seed home. Even the colored farmers are not selling. Even the cotored farmers are not selling.
Everybody seems able and willing to pay up for the year's advances. If we don't get rain soon, little grain will be sown in October, and this is the month in which most of our oats are sown. The turnip crop will doubtless be a failure. Capt. McCaslan came up from the Conven-

The Atlanta Evening Journal.

The daily newspaper which, we believe, has the largest circulation in the city of Abbeville is the Atlanta Evening Journal. On six mornings in the week we get later news in it than from any other source. It is received before daylight, and is distributed at the post office as soon as anybody cares to go for it.

tlemen thank her.

We had an introduction the other day to Miss Tennessee Jones, the grand daughter of Mr. Thomas L. Moore. She has many accomplishments and reflects honor on her mothr's native state. Mr. Schumpert, a young gentleman from Newberry, comes up frequently to see his friends. Some of our own boys had better be

they come here in love and fervor to worship the Lord our God. They should come now with the same devotion as did their forefathers assemble long years ago in their humbler and less pretentious temple.

BISHOP DUNCAN said that the enlargement of this church was evidence of the growth of the church, for which all should be thankful. He loved to see sister denominations grow and prosper, but he was a Methodist and he loved his own church more than any other. He respected and loved christians in whatever faith as long as they had the courage to defend the tenets of their own division in the grand army that is serving the Lord.

DEATH OF MRS. HEMPHILL

Bird's Eye View of the Surrounding The Mother of Two Editors Passes

Away at an Advanced Age.

Mrs. H. S. Hemphill, mother of General R. R. Hemphill, died at his home in Abbeville last Friday afternoon. She was far advanced in her 88th year. She was the widow of the late Rev. W. R. Hemphill. D. D., who preceded her to the grave some twenty years ago. For many years her husband was a prominent minister in the Associate Reformed Presbyterian Church, and all his life was a faithful and fast friend of Erskine College, by whose labors a large per cent. of the endowment fund was raised. He was for a long time a Professor in the College.

Mrs. Hemphill was the mother of four children, namely: Rev. John L. Hemphill, of Georgia, Mr. J. C. Hemphill, Editor of the News and Courier, Gen. R. R. Hemphill, editor of the Abbeville Medium, and Mrs. McQuiston, of Louisana. The daughter died Away at an Advanced Age.

Quiston, of Louisana. The daughter died veral years ago. The deceased was a modest and unassum ing Christian, though she clung to the tenets

and principles of her church with unswerving fidelity.

Physically she was a wonderfully well preserved woman. It has been only a short time since she ceased to walk to town from the home of her son.

During her life time, and especially in her old age, great affection and attention was bestowed upon Mrs. Hemphill by her children and grand-children. She had the most sincere affection of her people, which was allke creditable to her and to them. Her heart was gentle and kind in her old age, and they all loved her. It so often happens that old people are cross and impatient with young people, that we all instinctively love a good and sweet tempered old person.

1567 BOTTLES.

That is the Number which was Turn ed in to the Dispensary Yesterday. ed in to the Dispensary Yesterday. A paragraph appeared in the daily papers a few days ago announcing that the dispensers had been instructed to buy bottles. As Monday was Sale Day nobody offered bottles on that day, but yesterday the coast was clear any many little durkies and older ones, too, carried loads of bottles to the dispensary. Wm. II. Shives headed the list with 400; George Marshall made a good second and landed 101; and other smaller lots ranging from ten to fifty run up the total number of bottles bought yesterday to 1567. Of this number three fourths were half pints. Two dozen were quarts and the balance were pints.

Although William Shives sold 400 bottles he Although within Salves sole and avoid the she has a surplus yet of 300, but they are of a size which is not wanted. He says, that he could sell them readily in Atlanta but for the fact that they are full measure, and hold the quantity as represented. It is nothing but fair to state that Shives didn't drink the liquor out of his stock of bottles.

THE HARDEST LUCK.

Buying Guano and Paying for it in the Right Way on the Wrong Years.

The man that is in the hardest luck this year is the one who bought fertilizer, agreeing to pay for it in cotton. Four hundred pounds of cotton at five cents comes to \$20—the price of a ton of guano—but four hundred pounds of cotton at eight-and-a-half cents comes to \$34—just 514 more than the price of the guano. We do not know how much guano was sold for cotton in this county. In other counties we believe the agents are compromising with their customers.

We learn that Mr. J. W, Rykard of our town bought guano last year, agreeing to pay monbought guano last year, agreeing to pay mon-ey for it, and the cotton west down. This year he bought guano to be paid for in cotton, and the price went up.

FROM ATLANTA.

Shew.

Mr. T. M. Tucker of our County has been in Atlanta, seeing the sights at the great Exposition, whose gates are now open. He thinks the show is good enough and the price is low enough. The railroad fare is certainly low enough. The railroad fare is certainly cheap enough. A seven days ticket costs only \$3.40 from Abbeville and return. The Exposition is no doubt a good one and well worth all that it will cost an Abbeville man to see it. No such opportunity will be presented in a long time. Even if this country should have another Exposition it is altogether probable that it will be held in some city remote from us and to visit which will incur big expense. Mr. Tucker was pleased with his trip.

CHURCH DEDICATION.

Distinguished Guests Witness the

LAST Sunday was a big day in the Methodist church. Bishop Duncan was the preacher. He dedicated the new church building in the presence of a vast multitude of people. Other churches closed their doors and it seemed that everybody went to the Methodist church. Among the distinguished guests who witnessed the dedication were Professors DuPre, McGhee, and Hook. of Clemson College.

Good Advice For Everybody. Good Advice For Everybody.

If you have a friend worth loving,
Love him. Yes, and let him know
That you love him ere life's evening
Tinge his brow with sunset glow.
Why should good words ne'er be said
Of a friend till he is dead?
If you see the hot tears failing
From a brother's weeping eyes,
Share them and by kindly sharing
Own your kinship with the skies.
Why should any one be glad
When a brother's heart is sad?
If your work is made more easy If your work is made more easy
By a friendly, helping hand,
Sav so. Speak out bravely and truly
Ere the darkness vell the land.
Should a brother workman dear
Faiter for a word of cneer?
Seatter thus your seeds of kindness.
All entiching, as you go.

All enriching, as you go. Leave them. Trust the Harvest Giver. He will make each seed to grow. Lo unto its happy end Your life shall never lack a friend

Marys's Little Lamb and the Man Who Advertises.

Who Advertises.

Mary had a little lamb—
You do not look surprised.
Of course you don't, for Mary has
Been widely advertised.
And something you may learn from this,
If you are not a clam;
You can be just as widely known
As Mary and her lamb.
Your name can be a household word,
And you be known so well,
That folks will confidently, buy
The things you have to self.
And when you once have got yourself
Into the cheering rays
Of the sunlight of publicity—
You bet your life it pays:

THE HIGH PRICE OF COTTON.

The Financial Condition of Our People-The Crops-The Splendid Outlook for Business.

look for Business.

Not in the history of Abbeville has there been a better outlook in the commercial world than exists today. The crops were made on the least possible debt, and the price of the staple is about double as much as was expected. A great many farmers have already settled their lien or indebtedness on on the crop, and have about half the crop on hand to dispose of in any way that they deem best or most advisable. Many farmers have old outstanding debts against them, and will no doubt find this a most favorable time to settle them. Others have the ready cash with which to buy property, or are ready to spend it in pleasure as inclination may dictate.

to spend it in pleasure as inclination may dictate.

Amid the general good luck and prosperity that has come to the farmers this year there is, however, one class who are to be sympatis, however, had to be by Haynesworth & Parker, according astomer. This class of farmers deserve the considera-

the farmers love to stand well with their merchant or banker, and will pay to the last dollar. Many farmers have made good crops, and the high price has given them that heart and hope, which prompis them to be anxious to pay up and be square with the world. There has been no disposition on the part of any one to dodge his creditor or to spend any money until after the current debts were paid, and in the settlement of little debts the people are not forgetfal of their subscription accounts with the newspapers. They are beginning to pay up, and we predict that it will not be a great while before the great majority will have done the correct thing with the printer. As a rule, the people will pay for their paper, if they pay nothing else. They do not like for their children and the postmaster to know that they neglect this little matter.

matter.
It will be recollected that in public meeting last Winter resolutions were passed express-ing the determination to plant a less area in cotton. The great mass of the people of course paid no attention to resolutions which were so impracticable and contrary to their

cotton. The great mass of the people of course paid no attention to resolutions which were so impracticable and contrary to their best interest, but we believe there were a few exceptional cases where individuals either wholly absondoned the cotton crop or greatly reduced the area. All such persons are to be sympathised with. When these resolutions were passed or adopted in the Court House last Winter it will be recoilected that this paper expressed opinions differing from the sentiment therein contained.

Aside from this reasonably fair crop which has been produced and is now being gathered, and without special reference to the satisfac tory prices which are being realized for cotton, there is another and a greater blessing for which the country may be grateful, and that is in the increased harvest of the food supplies, not only in the field crops, but in the enlarged product of the pasture. The work of enclosing pasture lands goes on every year, and as a consequence much is saved in work of enclosing plastice initial speed of the expense of keeping plough animals while the profit in cattle is better than ever before. Even the most unthrifty head of a family is beginning to be convinced of the value of milk cows and beef cattle.

ABOUT PAYING DEBTS. Importance of Making Early Settlements-Pay Small Accounts First.

ments—Pay Small Accounts First.

The increased price of cotton will enable a large number of people to pay their bills in full, and to have something left to spend in the purchase of such goods as may answer a demand or please a fancy.

In paying debts a good rule is to pay the small debts first. As a man would drown with his nose an inch under water as quick as if he were miles deep in the bosom of the ocean, so a small debt may worry a man as much as a larger one. The small debt is generally owing to some poor or needy person who will be more persistent and make more annoyance than a creditor to whom a thousand dollars is due. The man with a claim for a large amount is more apt to be lenient than the man with a little claim.

The lien or debt for advances on the crop should be paid first. Then commence paying of their money. For instance, pay your subscription to the Press and Banuer. It will take only a small amount of money, and then you can sleep with the consciousness that you owe the editor nothing, and are reading your own paper. Try this plan and see how much better you will feel.

Snap Shots in the Classic City.

There will be given this evening to the sudents of Erskine a grand reception by the citizens of Due West.

Rev. W. W. Orr preached in the A. R. P. church subbath morning.

Bloycles would last much longer were they not ridden upon the Sabbath day. The soil around Due West is peculiarly destructive to the tire.

Mrs. Brice.
Don't forget the Due West Stock Show, October 16th.

Mr. and Mrs. Devlin have returned from a pleasant visit to friends and relatives in Ver-

Another big lot of that 3 yd embroidery slik on spools at Racket Store. 7 spools for cents. Bruce's restaurant keeps a full line of fine cigars and cigarettes.

The County Alliance of Abbeville County
will hold its next quarterly meeting on Friday, October 11th next.

Jno. C. Watkins,
Sec. Third Dist. Alliance,
Anderson, S. C., Sept. 11, 1895.

FOR SALE

Town of Troy, S. C. BY VIRTURE OF AUTHORITY VESTED in me as agent for the Legates of the estate of Capt. R. W. Lites, deceased, I will ofter for sale to the highest bidder on the 18th day of DECEMBER next, in the town of Troy, that valuable

House and Lot, the late residence of Capt. R. W Lites, de ceased. An elegant two story dwelling containing six large rooms and a stove room, with good out buildings, barns, stables, etc On the place is a good well of the rest water. The lot contains about TWO ACRES, making this one of the most desirable homes in the town of Troy which is one of the most healthy and desirable towns in upper Carolina, a town noted for its churches and schools, having just completed a large and commodicus Academy now under charge of Prof. S. P. McEiroy.

I will sell at the same time some valuable building jots, near by and joining the house and lot.
