HIRAM JOHNSON SEEKS SUPPORT

Washington, Sept. 25.—While the German peace treaty received only brief consideration in the senate today, outside developments indicated that the factions were lining up for the real fight over the league of nations covenant.

The outstanding feature of the day was the announcement by Senator Johnson, Republican, California, that he would leave here tomorrow for the Pacific coast to keep up his attack on the treaty, which was accepted to mean finally that his proposed amendment to equalize the voting power of the United States and Great Britain would not be called up for weeks hence.

Next in public interest was the news that Senator Ashurst, Democrat, Arizona, had telegraphed President Wilson that he would vote for ratification of the treaty, believing he could render the country and the world, he said, a great service by accepting it as it is, without amendment or reservation. This definite statement from Senator Ashurst was considered particularly assuring by Democratic leaders because of persistent reports that he would oppose the pact in its present form.

Just before adjournment Senator Lenroot, Republican, Wisconsin, made his position clear by reiterating that he would not vote to ratify the treaty if under Article 10 the United States was obligated to send its troops abroad to preserve the territorial integrity of members of the league.

Senator New, Republican, Indiana, and Senator Smith, Democrat, Maryland, divided the debate of the day, the former attacking the treaty and the latter defending it and urging speedy ratification. But there was no applause, the galleries evidently tak-

ing to heart the previous warning of the vice president that this would result in ejection of those violating the standing rule of the senate. In the house, where treaty talk bobs up now and then, Representative King, Republican, Illinois, introduced a resolution proposing the support of the body for the senators "standing for Americanism." The resolution was thrown in the house hopper without discussion.

Under unanimous consent agreement the amendments by Senator Fall, Republican, New Mexico, proposing that the United States be relieved from service on foreign commissions created under the treaty, will be taken up tomorrow for discussion. Senator Cummins, Republican, Iowa, will speak against the treaty, and Senator Fall is expected to champion the cause of his amendments. No vote is looked for until some time next week. Senator Johnson's decision to resume his western speaking trip set at rest a whirlwind of rumors concerning the British and American voting amendment, which now both Republicans and Democrats agree will not be taken up for some weeks. The general talk was that Republican leaders frankly told Senator Johnson that they did not have enough votes to pass it, and that the senator replied he would go out in the country and create such strong sentiment in its favor that the senate would not dare defeat it.

FEEDING SPECIAL FLOCKS.

The production of pure-bred poultry eggs for hatching and baby chicks is becoming an important industry in South Carolina. In 1917 the South Carolina Poultry Breeders' Association was organized and since that time a State poultry show, recognized as the official state show by the American Poultry Association, has been held each year.

These breeders of pure-bred poultry produce stock of the highest quality which they intelligently house, feed and care for. They exhibit their best birds at county fairs and sell at good prices their eggs for hatching, baby chicks and surplus breeding and show stock and generally find the poultry business profitable.
