

PROSPECTUS FOR THE SECOND VOLUME OF THE Southern Botanical-Medical JOURNAL.

The publication of this Journal will be continued—the Second Volume commencing on the 1st of January, 1842. It will be issued in numbers of sixteen pages each, three times a month—on the first, tenth and twentieth—instead of the first and fifteenth, as hitherto; thus furnishing our Subscribers with the same amount of matter, and saving them about half the postage. It will continue to be the uncompromising advocate of the principles and practice of the Thomsonian system, which tends, as we believe, to the best temporal interests of the human family, in instructing them in the art of preserving health and prolonging life; and will we trust, contribute its share in the progressive march of Medical reformation now taking such rapid strides in every section of our beloved country. Our best energies shall be devoted to render it one of the most useful and entertaining publications of the kind now published.

Subscription price for a single copy, Three Dollars; for two or more copies, ordered at one time, Two Dollars and Fifty Cents. Any person forwarding the names of Ten new subscribers, and Twenty-five Dollars, (current money), shall receive the eleventh copy for his services. No paper will in any instance, be sent without payment in advance. This rule will be strictly adhered to. All communications of a business nature to be addressed to the Proprietor, and all communications intended for publication to be addressed to H. Lee, M. D., Editor.

No Letter will be taken from the office unless the postage is paid, or the letter franked. ALFRED BROOKS, Proprietor. Forsyth, (Ga.) 1841.

PROSPECTUS FOR THE FOURTH VOLUME OF THE MAGNOLIA.

The December number closes the 2d volume of this periodical, and in calling the attention of our friends to a new volume, it is our happiness to state, that having overcome, in some measure, the difficulties incident to the transfer of our work from the interior to this city, and other changes, we are now enabled to assure our subscribers that the "Magnolia," its circulation is established, and its continuance secured. To effect this more certainly, one-half of the work has been disposed of, under such terms and contracts as will essentially subserve its interests.—It will, therefore, be issued in an enlarged form, having a monthly addition of 16 pages, handsomely printed on superior paper, making, at the close of the year, a volume of nearly 800 double columned pages. It will be punctually issued, positive arrangements to that effect have been made with the publisher, and the many hindrances which have hitherto impeded its progress having been overcome. In addition to the usual contributions from eminent writers the Editor has pleasure in saying, that he will be assisted in the literary department by some gentlemen whose aid will greatly enhance the value of the periodical, and impart additional interest to its pages. It is the desire of the Editor to make the "Magnolia" a standard popular Magazine, and to accomplish this, he is determined to devote to it every energy, in order to mark it worthy of the patronage of the friends of Southern literature. To such he presents his claims, confident that the growing reputation of the work; and the peculiar advantages under which it will hereafter be issued, will lead them to sustain, by liberal subscriptions, a periodical whose intrinsic value is now so much increased. Terms for the enlarged volume, the same as for the former, \$5 a year, in advance. Editors, to whom the "Magnolia" is sent, are respectfully requested to insert this Prospectus. Savannah Geo. Dec. 11.

Water Proof Warehouse.

HAMBURG, September 20, 1841. THE Subscriber begs leave to inform his friends and the public, that he continues the WAREHOUSE and COMMISSION BUSINESS, at his former stand, known as the Water Proof Warehouse. Detached as it is from other buildings, its location renders it nearly as secure from fire, as if it were fire proof. The floors of the two wings have been elevated above the high water mark of the great freshet of May 1840; and each of these divisions of the building, will store from 1,500 to 1,800 bales of Cotton, both of these are designed to be exclusively set apart for the Cotton planters and country merchants, who will thus be secured from the possibility of loss and damage by freshets.

He avails himself of the present occasion to return his thanks to his friends and patrons, for their liberal support during the last season.—He solicits from them, and the public generally, a continuance of this confidence, and assures them, that in return for their patronage he will use his best personal efforts, in procuring and protecting their interests committed to his charge; in addition to this assurance, he pledges himself, that he will in no case purchase a bale of Cotton directly or indirectly.
