

From the Philadelphia Inquirer.
SELF-RELIANCE—THE ERROR
OF WAITING FOR FORTUNE.

"TIME, FAITH AND ENERGY."

"It is not by waiting," says a celebrated writer, "that fortune can be wooed or distinction won."—True, and yet how many commit the error of looking on at the various movements of the world, of participating in fancy in the many upward struggles for competence and wealth, without possessing energy enough to step into the arena, mingle in the struggle, or take a hand in the great game in which the prizes are—competence, wealth, position and character. All we admit, are not winners, even among those who exert themselves to the utmost—but it is equally true that none succeed who do not make the trial, and hence, a participation in any enterprise or undertaking is absolutely essential to secure even a chance of success. Look through society—read the histories of men—discover what they have been and what they are—and you may in some degree fore-shadow your own fate. Select out and individual who has no self-reliance, who has no faith in his own judgment, who is even expressing surprise at the success of others, but doing nothing—idling away his life—merely looking on—and you will discover a drone, or something worse—perhaps a miserable dependant upon some energetic relative or kind-hearted friend—or worse a victim of intemperance or a candidate for the almshouse.

Look again, and choose out some well known citizen, who has risen from poverty and obscurity, to independence and position, and the chances are ten to one that he is a man of energy, that he has depended upon his own efforts, that his eyes have been open, his mind active, his hands employed—and that hence he has made use, and with advantage, of the facilities given him by the Creator. If he had been a mere looker on, if he waited for fortune, the probabilities are that he would be waiting still, with the coy dame as remote from him as ever. But he pushed his fortunes,—if we may employ an ordinary expression—he sought for opportunities, and when they presented, he took advantage of them. He had faith in his own abilities, his own energy, and thus he became what is usually denominated a self-made man. Occasionally, it is true, instances occur, in which individuals are enriched suddenly, and to all appearances, without the exercise of any particular faculty of thought, tact, or activity. But these cases are extremely rare; and like fortunes made by the purchase of lottery tickets, seldom result in good, and are not worth considering, when making a general estimate of the chances among men. The true mode, we feel assured, is to tax one's capacity to the utmost, to be industrious, persevering and self-relying, to choose a fair and honest business, and to prosecute it closely, steadfastly, and with all the means and resources at our command.

The folly of waiting for fortune, is little better than madness. In our boyhood we were acquainted with a youth of great mental gifts, so to speak, whose fate was quick, whose memory was retentive, and whose penmanship was extraordinary, not only for its beauty, but the rapidity with which it was executed. Before he was seventeen, his friends secured for him an excellent situation in one of the best mercantile houses in Philadelphia. He remained there a year or two, and then he began to imagine that ordinary business was degrading, that his faculties were superior, and that it was the easiest thing in the world for him to get rich by some short cut, some novel speculation or Quixotic discovery. He hinted his views to his friends, who at once saw that they were based in error, and endeavored to dissuade him from any attempt to carry them into practice. But in vain. He believed himself to be endowed with superior powers, and that if an ordinary man could get along in an ordinary way, he, with genius, could soon secure wealth if not distinction. Alas! the error was the fatal one of his life. He abandoned the real for the ideal, the practical for the speculative, the substance for the shadow—and found, too late, that in a world like this, and society constituted as ours, there is a great distinction between self-reliance, self-promotion,—between visionary genius and energetic perseverance,—between fancying and acting. He struggled, or rather idled on for a few years, waiting for fortune, puzzled to know why some novel scheme did not present itself, and finally was glad to receive assistance from the very individuals upon whom he had looked in the early, excited and mistaken portion of his career, as a very good sort of ordinary people, but entirely inferior to himself. No—if our young man desire to get along in the world, they must be active, pushing and persevering, and more than all, they must be true to truth, honor and integrity. Nor let all be assured that a commencement in life that is not based upon principle, a starting out that in any degree is a violation of rectitude, is sure to destroy character—and that once gone, all is over. Let no one suppose that he can be a rogue in trade, in business, or in professional life, and with impunity.—He may escape direct punishment, may avoid the meshes of the law, but he nevertheless will be distrusted and looked upon with suspicion, and thus will pay the penalty every hour that he lives.

In brief, to quote the manly advice of one who speaks like a prophet and a philosopher—"Up and be doing," should be our motto, in whatever rank of life our lot is cast. Many fields are open to your energies would have play.—You may be told that every profession is overstocked. Believe it not; you have the same prospect of pushing your way to fame as your neighbors. "The will to do, the soul to dare," are all that are required. Patience, perseverance and determination, can achieve every thing. Instead of "waiting"—act. If circumstances are against your entering one of the professions, then take a trade. Let no false pride deter you. Set at naught the sneers of those who tell it is not respectable; a man by his own conduct can make any situation respectable; bread earned in honesty is earned in honor; and he who labors for his daily food, preserving his integrity, the while; has a better right to hold his head erect

among his fellow men—ay, a far better right—than the proudest in the land who lead a life of indolence and sloth.—Whatever you rank in life may be, make choice of your path accordingly, but "wait" for nothing and for nobody. Rely upon yourself, and upon yourself only. Have the means of existence in your own hands—go to work with head and heart; and depend upon it that however adverse circumstances may depress you for a time, you will surely in the end come off conqueror.

RECRUITING SERVICE,

VOLUNTEERS.

HEAD QUARTERS, PALMETTO REGIMENT, S. C. V.

Puebla, Mexico, June 3d, 1847.

Regimental Orders, No. 59.

IN accordance with General Orders, No. 15, from the Adjutant General's Office, Washington City, Capt. Brooks, of Company D, now on leave of absence, on account of ill health, Captain Joseph Kennedy, of Company G, and Lieut. J. B. Kershaw, of Company C, are detailed for the Recruiting service.

I. Captain Brooks will, on the receipt of this order, report to the Adjutant General's Office at Washington, for instructions. In the interim he will open a Recruiting Rendezvous at Edgefield C. H. South Carolina.

II. Captain Kennedy and Lieut. Kershaw will proceed by to-morrow's train to South Carolina. They will report on their arrival to Capt. Brooks, the senior officer, and to Washington City, and until further orders from the Adjutant General's Office, at Washington, Capt. Kennedy will open a Recruiting Rendezvous at Fort Moultrie, and Lieut. Kershaw at Camden South Carolina.

IV. In addition to the Monthly Reports to the Adjutant General's Office, these officers will report monthly to the Head Quarters of this Regiment.

By order, JAMES CANTEY, Adjutant.

In obedience to the foregoing order, I will remain at Edgefield C. H., in the discharge of the duty assigned me, until a reply to the application I have made to the authorities at Washington, for permission to join my Regiment has been received.

The recruits enlisted by Capt. Kennedy, Lt. Kershaw, and myself, will certainly be attached to the South Carolina Regiment, and will be received as Volunteers. A favourable opportunity is thus presented to those gallant spirits of Edgefield who burned to mingle in the fray, and appointed only by a want in number, of now gratifying their earnest and patriotic wishes.

A Bonus of \$120 will be paid to each recruit, immediately on his enlistment, and in addition to the Monthly pay of \$7.00, the provision made in the subjoined extract from an Act of Congress, together with other provisions of clothing, rations, &c., make the service desirable even in a pecuniary point of view.

By the 9th Section of an Act of Congress, entitled "An Act to raise, for a limited time, an additional military force, and for other purposes," "each non commissioned officer, musician or private now in service or who may hereafter be enlisted during the present war with Mexico, and who shall receive an honorable discharge either by expiration of his term of enlistment, or for disability incurred in the course of his service, will be entitled to a warrant for One hundred and sixty acres of Land, which he will be at liberty to locate in one body, upon any of the public lands that may be subject to private entry; or he may, at his option, when honorably discharged, receive treasury script to the amount of one hundred dollars, bearing six per cent. interest, payable semi-annually, and redeemable at the pleasure of the Government."

Each and every soldier, mustered into the service of the United States by Brevet Major Wade, and who has not been legally discharged, will report in person to me, forthwith.

P. S. BROOKS, Captain, Company D., S. C. Volunteers.

THIS certain safe and efficacious remedy has never been known to fail. The afflicted should try it. For sale at Edgefield C. House, June 9 4t 20

R. S. ROBERTS.

FOR the cure of DEAFNESS, Pains, and the discharges of matter from the Ears.

Also, all those disagreeable noises, like the buzzing of insects, falling of water, whizzing of steam, &c., &c., which are symptoms of approaching Deafness, and also generally attendant with the disease. Many persons who have been deaf for ten, fifteen and twenty years, and were obliged to use ear trumpets, have, after using one or two bottles of this medicine, thrown aside their trumpets, being made perfectly well.

The application of the Oil produces no pain, but on the contrary an agreeable and pleasant sensation. The recipe for this Medicine has been obtained from an Aurist of great reputation, who has found, from long observation, that deafness, in nineteen cases out of twenty, was produced either from a want of action in the nerves of hearing, or a dryness in the ears; his object, therefore, was to find something that would create a healthy condition in those parts. After a long series of experiments, his efforts were at last crowned with success, in the discovery of this preparation, which has received the name of "SCARPA'S COMPOUND ACUSTIC OIL." It has been used in this country about six years, and wonderful has been its effects in curing and relieving the deaf, that from pure motives of humanity, it is now offered to the public, that all may have an opportunity of proving its efficacy. A long list of certificates might be given, but such is the confidence in the medicine, and so high its reputation, that but few of them will be published.

It is only necessary to add, that this medicine has been recommended and used by many of the best physicians and surgeons in Europe, and in this country.

HEALTH MADE EASY.

DR. LE ROY'S,

VEGETABLE UNIVERSAL PILLS.

THE startling drawback on nearly all Medicinal Agents has ever been that in their process of purgation and purification they have also debilitated the System.—Hence Purgative Medicines have always been regarded as at best but a Necessary Evil, Patients resorting to them for the relief of one disease at the expense of another.—To obviate this Physicians have long sought for an Agent that would at the same time PURGE, PURIFY and STRENGTHEN. But their efforts were nearly fruitless, and they had almost despaired of success when the labors of science, and research were rewarded by a discovery which fully realized the fondest wishes of the Medical Faculty, and which is justly regarded as one of the most important Triumphant that Pharmacy has ever achieved.—This important desideratum was discovered by Dr. LE ROY'S VEGETABLE UNIVERSAL PILLS, which purify the Blood and remove all corrupt, and vitiated humors, and unhealthy accumulations from the body in a manner never before rivalled, and which yet produce no weakness or lassitude whatever, but on the contrary, tone the Stomach and invigorate the constitution during the progress of their operations! Dr. Le Roy's Pills, in fact unite those heretofore irreconcilable, but most desirable qualities, Evacuation and Invigoration, for they are at the same time a STRENGTHENING PURGATIVE, and a PURIFYING TONIC.

The two principle ingredients in Dr. Le Roy's Pills are WILD CHERRY and SASSAPILLA, prepared in such a manner as to be beneficial, effect of the other, the former strengthening, while the latter, through its union with various vegetable ingredients, evacuates, and purifies—thus they superinduce no torpidity or lassitude of the Digestive Functions, and hence their operations are attended by no Reaction, or subsequent Costiveness.

Dr. Le Roy's Pills are the most active, and searching Medicine in existence. They at once attack the very root of Diseases, and their action is so prompt, that in an hour or two after they are taken, the patient is aware of their good effects. They not only operate on the Blood, but also on the chyle, of which the blood is formed, and this secures good blood from the fountain head, moreover they produce neither nausea, griping or debility, and as a Family Medicine they have no rival.—Price 25 CENTS per Box.

Dr. Brandreth's Pills.

WHEN the body is subject to many changes, it requires Medicine. Sudden changes from very hot, to chilly weather, are unfavorable to the health; and it is a fact universally admitted, that heat and moisture are powerful agents in producing disease, and that constant dry and constant wet weather are both favorable to its generation; it does not signify what we call it; it may be ague—it may be bilious fever—it may be yellow fever—it may be dysentery—it may be rheumatism—it may be bronchitis—it may be cholera—it may be constipation of the bowels—it may be inflammation of the stomach—it may be a nervous affection; but still it is disease, and a disease curable by the Brandreth Pills, because they remove all impurities from the body, all that can in any manner feed the further progress of the malady; no matter how called; thus these pills are not only the most proper medicine, but generally the only medicine that need or ought to be used.

Remember, Druggists are not permitted to sell my Pills—if you purchase of them you will obtain a counterfeit. B. BRANDRETH, M. D.
